

SINCLE AUDIT REPORT

For the Fiscal Year Ended June 30, 2018

STATE OF SOUTH DAKOTA SINGLE AUDIT REPORT FOR THE YEAR ENDED JUNE 30, 2018

KRISTI NOEM, GOVERNOR LARRY RHODEN, LT. GOVERNOR

LIZA CLARK, CHIEF FINANCIAL OFFICER BUREAU OF FINANCE AND MANAGEMENT

MARTIN L. GUINDON, AUDITOR GENERAL DEPARTMENT OF LEGISLATIVE AUDIT

March 29, 2019

To the Citizens of the State of South Dakota; The Honorable Kristi Noem, Governor; and Members of the South Dakota Legislature:

We submit to you herein, the *Single Audit Report of the State of South Dakota* for the fiscal year ended June 30, 2018. This report includes the financial statements for the state of South Dakota as of June 30, 2018 and for the year then ended. The report also presents the audit results of the State's compliance with state and federal laws and regulations.

In submitting this report, we would like to express our appreciation to the staff of both the Bureau of Finance and Management and the Department of Legislative Audit for their efforts in completing this report. We also thank the many people in the various departments and agencies of state government that assisted by providing information necessary for completing the report.

Liza Clark, Commissioner Bureau of Finance and Management

Martin L. Guindon, Auditor General Department of Legislative Audit

INTRODUCTORY SECTION

INTRODUCTORY SECTION

DEPARTMENT OF EXECUTIVE MANAGEMENT BUREAU OF FINANCE AND MANAGEMENT

500 East Capitol Ave. • Pierre, South Dakota 57501-5070 • Voice: (605) 773-3411 • Fax: (605) 773-4711

December 28, 2018

The Honorable Dennis M. Daugaard, Governor of the State of South Dakota The Honorable Kristi Noem, Governor-elect of the State of South Dakota The Honorable Members of the South Dakota Legislature The Citizens of the State of South Dakota

It is a privilege to present the 32nd *Comprehensive Annual Financial Report* (CAFR) for the State of South Dakota (the State) for the fiscal year ended June 30, 2018.

Report. This report is prepared by the Bureau of Finance and Management as required by South Dakota Codified Law 4-4-6. The financial statements contained in the CAFR are prepared in conformity with generally accepted accounting principles (GAAP) applicable to government as prescribed by the Governmental Accounting Standards Board (GASB). Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the State's management. We believe the information, as presented, is accurate in all material respects and that all disclosures necessary to enable the reader to gain an adequate understanding of the State's financial affairs have been included.

The CAFR is presented in three sections. The *Introductory Section* contains this letter of transmittal, a list of principal State officials, fiscal year 2018 functions of State government, and an organizational chart of State government. The *Financial Section* includes the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), the Basic Financial Statements and Notes, Required Supplementary Information, and Other Supplemental Information. The *Statistical Section* includes financial trends, revenue capacity, debt capacity, demographic, economic, and operating information.

Independent Auditors. The CAFR has been audited by the South Dakota Department of Legislative Audit (DLA), a division of the legislative branch of State government. The audit was conducted in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS) issued by the Comptroller General of the United States. The Independent Auditor's Report (issued by DLA) includes expressions of opinions on the financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State as of June 30, 2018, and the respective changes in financial position and cash flows, where applicable, for the fiscal year then ended.

In conjunction with the audit of the State's financial statements, DLA also performs audits of major federal and state programs and issues an opinion on the State's compliance with the requirements of major federal programs. The results of the audit of federal and state programs are presented in the *Single Audit Report* for the State under separate cover.

Internal Controls. Management of the State is responsible for establishing and maintaining an effective system of internal control designed to provide reasonable, but not absolute, assurance the State is achieving its operational, reporting, and compliance objectives. Those objectives include, but are not limited to, the safeguarding of assets from loss, theft, or misuse, and to ensure the reliability of financial records for the preparation of financial statements in conformity with GAAP. The system of internal control for the State is designed to meet those objectives. The concept of reasonable assurance recognizes that 1) the cost of a control should not exceed the benefit likely to be derived and 2) the valuation of costs and benefits requires estimates and judgments by management.

Internal control procedures of the State are considered by DLA during its audits of the State. However, they do not express an opinion on the effectiveness of the State's internal control system.

Management's Discussion and Analysis (MD&A). GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the Basic Financial Statements in the form of the MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The State's MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Structure. The State entered the Union on November 2, 1889, as the 39th or 40th state (with its twin, North Dakota). South Dakota has 75,885 square miles of land and a population estimated to be 0.9 million. As established in Article II of the *Constitution of The State of South Dakota*, State government is comprised of three distinct and separate branches of government: legislative, executive, and judicial. The State Legislature is composed of a 35-member Senate and a 70-member House of Representatives. Legislators are elected for two-year terms and limited to four consecutive terms for the same seat. The State has a strong executive branch with a bicameral legislative form of government. The Governor may be elected for two consecutive four-year terms. The Governor appoints all heads of state departments who serve at the pleasure of the Governor. The judicial branch is governed by the Unified Judicial System consisting of the Supreme Court, circuit courts, and courts of limited jurisdiction. The State's principal state officials, functions of state government, and organizational chart for the fiscal year 2018 can be found immediately following this letter.

Services. State government provides services to citizens that include support for public education, public assistance, health and human services, public safety, building and maintaining state highways, agricultural and environmental services, community and economic development, and other general government services.

State Reporting Entity. The State's reporting entity reflected in the CAFR includes the *primary government* and its *component units.* The *primary government* consists of state departments, bureaus, boards, and commissions within the three separate branches of government. *Component units* are legally separate governmental organizations for which the State is considered to be financially accountable and other organizations for which the nature of their relationship is such that exclusion would cause the State's financial statements to be misleading or incomplete. These relationships are fully described in *Note 1. Summary of Significant Accounting Policies* in the Notes to the Financial Statements. The financial statements emphasize the *primary government* and permit financial statement users to distinguish between the *primary government* and its *component units*. Consequently, this letter of transmittal, the MD&A, and the Basic Financial Statements focus on the *primary government* and its activities. Although information pertaining to the *component units* is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position. Higher Education and the South Dakota Value Added Finance Authority do not have separately issued financial statements but are included as part of the CAFR.

Budget Process. State law requires annual preparation and approval of the State's budget. The Governor presents the annual budget to the State Legislature by the first Tuesday after the first Monday in December. The State Legislature is required to approve a budget by the end of the legislative session. There is no provision for a continuing resolution. The Constitution of the State of South Dakota requires the Legislature to pass a balanced annual budget in which expenditures and appropriations may not exceed anticipated revenue. Accumulated General Fund balances may be drawn down to balance an annual budget, as long as the General Fund balance remains positive. The Governor has the power to veto individual line items in the budget approved by the State Legislature. The State budget must remain in balance through the end of the fiscal year. Accordingly, state departments cannot encumber more funds than they have been authorized to spend. During the year, the Governor may authorize intradepartmental transfers of funds upon approval of the special committee, as long as total appropriation levels are not exceeded.

All of the State's major governmental funds are either annually appropriated by the South Dakota Legislature (General Fund, Transportation, and Social Services Federal funds) or are continuously appropriated by state law (Dakota Cement Trust and Education Enhancement Trust funds).

Long-term Financial Planning and Financial Policies. Governor Daugaard is committed to the long-term strength and financial condition of the State and pledges to never lose sight of those values that keep our state strong. In doing so, he has implemented the following long-term financial planning and financial policies:

- Maintaining AAA bond rating. The State has maintained its AAA public issuer rating from Standard & Poor's, Fitch Ratings, and Moody's for the past two consecutive fiscal years. This represents the highest rating possible from all three bond rating agencies. This goal was achieved by operating the State government under several basic principles: a long history of maintaining a structurally balanced budget, maintaining ample reserve balances, low debt, a healthy pension system, no Other Post-Employment Benefits (OPEB) liability, timely and accurate financial reporting, long-term financial planning and budget forecasting, and consistent conservative fiscal operations.
- Long-term Financial Planning. To further strengthen the financial practices of the State, state law requires the Bureau of Finance and Management (BFM) to prepare and provide a Long-term Financial Plan, a Capital Expenditure Plan, and a Debt Limitation and Management Policy.

The Long-term Financial Plan contains projections of both revenues and expenditures of the State. The document gives revenue and expenditure history for the most recently completed fiscal year, and forecasts for the current fiscal year, the next fiscal year, and the succeeding two fiscal years. Projections are shown for all general fund revenue sources, as well as general fund budgets for all state agencies.

The Capital Expenditure Plan includes capital projects being considered over the course of the next five fiscal years and separates the projects into three main categories: new construction, expansion, and maintenance and repair. This plan presents a projection of funding sources and costs for each project, as well as provides other detailed information that adds awareness and understanding into the need and scope of each project.

The Debt Limitation and Management Policy lays out policies pertaining to the issuance, maintenance, and servicing of debt. State law limits the amount of outstanding debt of the State to 1.2% of South Dakota's gross domestic product, while debt service payments may not exceed 4% of the total ongoing general fund receipts. This plan outlines the current debt policies, financial analysis, and other metrics to measure compliance with these statutory debt limits.

The long-term planning documents provide an early detection system, help prioritize capital planning, govern and limit indebtedness, and allow for greater transparency. These documents can be found on the Bureau of Finance and Management's website at <u>https://bfm.sd.gov</u>.

Balanced Budget. South Dakota can proudly say that fiscal year 2018 was the 128th consecutive year the State had a balanced budget. The State has made structurally balanced budgets the norm by using one-time dollars prudently for one-time uses and not to fund ongoing obligations.

The Constitution of the State of South Dakota requires the Governor to propose, and the Legislature to pass, an annual budget in which expenditures and appropriations may not exceed anticipated revenue. Additionally, state law requires BFM and the Legislature to prepare separate and independent revenue estimates for the budgeting process and update those during the fiscal year. In years when actual revenues fall short, the State maintains a balanced budget through spending cuts. These steps set a good fiscal example as well as help maintain fiscal responsibility and financial stability in South Dakota.

Budget Reserve. The State has two statutorily created reserve accounts: the General Fund Budget Reserve and the General Revenue Replacement Fund. As indicated in the table below the State has prudently maintained "rainy day" funds of 10% of the General Fund expenditures while using the excess to address emergencies and prepay liabilities.

Budget Reserves (Expressed in Millions)

As of June 30	General Fund Budget Reserve	General Revenue Replacement Fund	Prope Tax Reduct Fund	tion	Γotal serves	 eral Fund enditures	Total Reserves As Percentage of General Fund Expenditures
2011	\$ 43.4	\$	\$ 6	67.8	\$ 111.2	\$ 1,126.5	9.87%
2012	71.1		6	67.9	139.0	1,225.2	11.35%
2013	95.3		6	67.8	163.1	1,278.8	12.75%
2014	105.2		4	8.2	153.4	1,413.9	10.85%
2015	126.7		4	4.6	171.3	1,440.0	11.90%
2016	113.4	44.0			157.4	1,514.0	10.40%
2017	121.3	44.0			165.3	1,598.2	10.34%
2018	132.4	44.0			176.4	1,628.8	10.83%

The combined accrual basis balance of these two reserve accounts for fiscal year 2018 was \$176.4 million. The General Fund Budget Reserve increased from \$121.3 million to \$132.4 million, while the General Revenue Replacement Fund remained unchanged at \$44.0 million. The \$11.1 million increase from the prior year was a result of spending \$10.7 million less than appropriated and \$6.3 million higher than expected revenues, offset by a \$5.9 million legislatively approved transfer to the General Fund to support state aid to education. The \$176.4 million combined reserve balances is approximately 10.8% of the fiscal year 2018 General Fund total expenditures.

Financially Sound and Well-Funded Retirement System. South Dakota has one of the strongest pension plans in the nation. As illustrated in the table to the right, the long-term experience of South Dakota Retirement System (SDRS) has been very favorable, resulting in a funded status that exceeds virtually all other statewide public retirement plans.

This high funding status is attributed to three primary factors: 1) the employers and members of SDRS have always made the required contributions into the fund, 2) sound long-term investment returns, and 3) plan benefits and liabilities are managed in accordance with statute to be sustainable based on the fixed, statutory contribution rates. SDRS is discussed later in this document.

Comprehensive Annual Financial Report. In 1987, the State issued its first CAFR. That report contained an unmodified opinion from the Department of Legislative Audit (the independent auditors). The Independent Auditor's Report included in this report represents the 32nd consecutive year South Dakota has received an unmodified opinion on its CAFR.

Fair Value Funded Ratio

Projected Averag of Other Statewic As of Public Retireme				
June 30	SDRS	Plans **		
June 30	30K3	FIGIIS		
2009	91.8%	64%		
2010	96.3%	68%		
2011	96.4%	74%		
2012	92.6%	72%		
2013	100.0%	72%		
2014	107.3%	77%		
2015	104.1%	73%		
2016	96.9%	67%		
2017	100.1%	70%		
2018	100.0%	71%		
** Wilshire C	onsulting Rep	port on State Retirement		

Systems: Funding Levels and Asset Allocation.

Risk Management. The Office of Risk Management was created to protect the assets and resources of the State through efficient control and financing of risks inherent in government operations by ensuring a safe environment for State employees and the general public. Responsibilities include ensuring that exposures to financial loss are discovered and handled appropriately, minimizing the possible interruption of vital public services, and reducing the costs and consequences of accidents through effective loss control management.

Housed within the Office of Risk Management is the Public Entity Pool for Liability (PEPL), a self-insurance program created to cover risks associated with automobile liability and general tort liability (including public officials' errors and omissions liability; medical malpractice liability; law enforcement liability; and products liability). New in fiscal year 2018, the State obtained cyber liability insurance to help reduce the financial risk posed by conducting business over the Internet or other networks, or by using electronic storage technology. This insurance helps cover data breach risk such as an incident in which sensitive, protected, or confidential data has been viewed, stolen, or used by an individual unauthorized to do so.

The State utilizes two captive insurance companies to help minimize risk. One company provides property and casualty insurance coverage to better protect our State's and Higher Education's facilities. The other company provides commercial general liability; directors, officers, and entity coverage; and employment practices liability, and errors and omissions coverage for authorities of the State. By establishing the captive insurance companies, the State and the authorities of the State pay insurance premiums to these captive insurance companies. Over the long-term, premiums are anticipated to remain low and decrease while minimizing the risk of loss to the State and its component units. For additional information on the captive insurance companies see *Note 1. Summary of Significant Accounting Policies* in the Notes to the Financial Statements.

Internal Controls. The State has robust internal controls designed to provide reasonable assurance the State is meeting its operational, reporting, and compliance objectives. This fact has been proven time and again that South Dakota is a leader in operational efficiencies, while maintaining sound safeguards of its assets and resources. Recently, some of the State's internal control practices have been recognized and adopted by national organizations as best practice templates for other governments. The State Board of Internal Control was created in 2016. The Board's primary responsibility is to establish and maintain guidelines for an effective system of internal control to be implemented by state agencies. To accomplish this, the Board has overseen work with the consulting firm PwC to draft a Statewide Internal Control Framework based on the COSO Internal Control Framework. The State is now working to implement the framework in all state agencies providing even more assurance to state leaders and citizens that they are achieving their objectives.

Cash Management. The South Dakota Investment Council (SDIC) was established by the State Legislature in 1971 and became operational on July 1, 1972. By law, the SDIC is responsible for the management of the investment assets of the Cash Flow Fund, South Dakota Retirement System, School and Public Lands Fund, Dakota Cement Trust Fund, Education Enhancement Trust Fund, and Health Care Trust Fund.

SDIC's goal is to add value over the long-term compared to market indexes. SDIC invests in assets believed to be undervalued from a long-term perspective. Cost efficiency is aided by internally managing the majority of the investment assets.

Total investment income from the assets invested by SDIC for fiscal year 2018 was \$1.1 billion. Income for the most recent five fiscal years totaled \$5.2 billion and, since inception, has exceeded \$17.8 billion. Assets managed by SDIC have grown from \$133.0 million at the end of its first year to \$14.8 billion at June 30, 2018. The Cash Flow Fund total investment income was \$3.3 million in fiscal year 2018, yielding 1.19%, and has earned \$1.1 billion over the past 46 years. The four state trust funds returned 6.8% compared to the benchmark of 6.8% for fiscal year 2018. The four funds distributed over \$51 million during fiscal year 2018. The South Dakota Retirement System's (SDRS) assets returned 7.9%, net of fees, for fiscal year 2018 compared to SDIC's Capital Markets Benchmark return of 7.3% and returned 10.2%, net of fees, compared to the benchmark return of 9.4% for the past 45 years (since inception of SDIC's investment management responsibilities for SDRS).

Additional information can be found in *Note 3. Cash, Deposits, and Investments* in the Notes to the Financial Statements and on SDIC's website at <u>http://sdic.sd.gov.</u>

Lottery. The South Dakota Lottery Fund was created during the 1987 legislative session to market instant scratch games. Video lottery was authorized during the 1989 legislative session and approval for multi-state lotto games was given during the 1990 legislative session. The purpose of the Lottery is to provide the State additional revenues to fund vital public programs and projects. During fiscal year 2018, the Lottery generated \$124.9 million of income (before transfers) and provided \$124.7 million in transfers to other funds that improve the quality of life in South Dakota. Since its inception in 1987, the Lottery has distributed \$2.8 billion to those funds.

Retirement System. The South Dakota Retirement System (SDRS) provides retirement benefits for State employees and those employees of local governments that participate in the system. Employers and employees contribute equal amounts in the form of a fixed percentage of employee compensation.

SDRS funding is determined based on actuarial assumptions that are more conservative than most public pension plans, including an annual investment return assumption of 6.50% and assumed inflation of 2.25%. The actuarial value of assets is equal to the fair value of assets.

Certain SDRS benefit features, including the Cost of Living Adjustment (COLA) and the Variable Retirement Account for Generational members (those hired after June 30, 2017) vary automatically based on investment returns and the assets available to pay future benefits. SDRS COLA increases are tied to inflation and limited to the percentage that if paid in future years, results in an SDRS fair value funded ratio of at least 100%. If the automatic COLA adjustments are not able to result in a fair value funded ratio of at least 100%, corrective action recommendations are immediately required. As a result, future unfunded actuarial accrued liabilities are expected only in significant economic downturns and are expected to be temporary until resolved by corrective actions during the following legislative session.

In fiscal year 2018, SDRS experienced a 7.94% (time-weighted) market return, or 1.44% more than the assumed rate of return of 6.5%. Plan assets at fair value in fiscal year 2018 were \$12.2 billion compared to plan assets of \$5.6 billion in fiscal year 2009.

As previously stated, as of June 30, 2018, SDRS is fully funded with an actuarial value funded ratio and a fair value funded ratio of 100.0%. SDRS currently has no unfunded actuarial accrued liability (UAAL). The fixed statutory employer and employee contributions support benefits that vary automatically from year-to-year based on investment returns and the assets available to pay future benefits. If after recognizing the automatic benefit adjustments the funded ratio of the system is below 100% or the fixed contributions are not sufficient to support the current benefits as defined in statute, the SDRS Board of Trustees is required by statute to recommend corrective actions to the Legislature.

South Dakota Retirement System was one of the few state government retirement systems in the nation to boast a net pension asset in fiscal years 2014, 2015, 2017, and 2018 with a relatively small net pension liability in 2016.

South Dakota Retirement System

As of June 30	Total Pension Liability	Plan Fiduciary Net Position	Fair Value Funded Ratio	Primary Government's Proportionate Share	Primary Government's Net Pension Asset (Liability)
2014	\$9.9 billion	\$10.6 billion	107.3%	22.1%	\$159.0 million (FY15)
2015	10.4 billion	10.8 billion	104.1%	22.4%	95.2 million (FY16)
2016	10.8 billion	10.5 billion	96.9%	22.3%	(75.2 million) (FY17)
2017	11.6 billion	11.6 billion	100.1%	21.6%	2.0 million (FY18)
2018	12.2 billion	12.2 billion	100.0%	21.0%	0.5 million (FY19)

Additional information on the State's retirement plans and the related net pension liability can be found in *Note 7. Retirement Plans* in the Notes to the Financial Statements.

Health and Life Insurance Benefits. The State (rather than an insurance carrier) assumes substantially all risk associated with claims of covered public employees for health insurance. However, an insurance carrier provides claims administration services for health insurance. The Group Insurance Program within the Bureau of Human Resources was established to administer and improve group health, life, and the flexible benefit plans for state employees and their dependents. The program provides for payment of benefits to eligible claimants in the most efficient and cost effective manner. Premiums are charged to state funds for all covered employees, while employees share in the costs of co-pays, deductibles, and dependent costs.

Additional information on the State's health and other insurance benefits can be found in *Note 12. Self Insurance* in the Notes to the Financial Statements.

ECONOMIC CONDITIONS AND OUTLOOK

Employment growth is an important indicator of the State's economic health. South Dakota's nonfarm employment declined 1.9% in 2009 and 0.1% in 2010 but rebounded with an average growth rate of 1.1% from 2011 through 2017. This compares to the United States nonfarm employment growth of -4.3% in 2009, -0.7% in 2010, and average growth of 1.7% from 2011 through 2017.

In fiscal year 2018, nonfarm employment in South Dakota grew 0.9% compared to the national growth rate of 1.5% over the same period. Employment sectors that experienced growth in fiscal year 2018 in South Dakota include: manufacturing; financial activities; professional and business services; education and health services; and other services and government. The employment sectors that experienced decreases include: mining, logging, and construction; information; trade, transportation, and utilities; and leisure and hospitality.

The unemployment rate in South Dakota remained low over the course of fiscal year 2018 and remains among the lowest in the nation due to steady economic growth. In October 2018, South Dakota's unemployment rate was 3.0%, which is 0.7% lower than the U.S. unemployment rate of 3.7% for the same month.

Income growth is another important indicator of the State's economic health. In calendar year 2017, which is the most recent annual data that is available, South Dakota's nonfarm personal income grew 2.1% less than the U.S. growth rate of 4.4%. However, over the past four years (2014 to 2017), South Dakota's average annual growth of nonfarm personal income has been 4.7%, slightly higher than the national average growth rate of 4.5% over that period. In 2017, the other Plains region states of Iowa, Kansas, Minnesota, Missouri, Nebraska, and North Dakota experienced nonfarm income growth rates of 2.5%, 2.7%, 4.4%, 3.5%, 3.5%, and 1.2%, respectively. South Dakota's per capita personal income was \$48,818 in 2017, 5.5% less than the U.S. average per capita income of \$51,640.

In 2017, farm income in South Dakota was \$0.9 billion, which is down from record levels that were experienced from 2011 through 2014. From 2011 through 2014, farm income averaged \$3.0 billion per year, with 2011 having the highest farm income on record in South Dakota at \$3.6 billion. This compares to the previous five-year average farm income

level (2005 through 2009) of \$1.6 billion. Farm income for 2018 is anticipated to be similar or slightly higher compared to 2017 levels in South Dakota as higher crop production is partially offset by lower prices so far this year.

The outlook for South Dakota's economy is for steady growth over the next two years, slightly stronger than what has been experienced the past two years. As of October 2018, South Dakota's nonfarm employment levels were 7,300 jobs, or 1.7% higher when compared to a year earlier. In addition, the unemployment rate in South Dakota is currently at 3.0%, lower than the U.S. unemployment rate of 3.7% as of October 2018. South Dakota's nonfarm income was up 3.6% year-over-year in the second quarter of 2018.

MAJOR INITIATIVES

With the continued support of the Legislature, Governor Daugaard continues to focus on job growth, economic development and visitor spending, taking care of those who cannot take care of themselves, providing our children with a quality education, and protecting our society from those who would do us harm.

Listed below are some of the major initiatives the State has implemented in recent years:

Internet Sales Tax - South Dakota v. Wayfair, Overstock and Newegg. In 2016 the Legislature passed Senate Bill 106. This law required any online seller to collect and remit South Dakota sales or use tax on sales to customers within the state if, in a calendar year, the seller had more than \$100,000 in gross sales, or over 200 individual sales transactions in the state. South Dakota then initiated litigation against three online retailers who did not collect South Dakota sales tax. In June 2018, the U.S. Supreme Court ruled in favor of South Dakota. This decision redefines sales tax nexus and allows states with economic nexus laws like South Dakota to require out-of-state sellers to collect and remit sales or use tax on goods or services the seller provides to consumers in the state, even if the seller has no physical presence in the state. This decision not only puts South Dakota brick-and-mortar retailers on a level playing field with remotes sellers, it also reestablishes a sales tax base the State has been losing to remote sellers.

Precision Agriculture. As an agricultural state, South Dakota is taking steps to lead the way in technology advancements in agriculture. In 2016 South Dakota State University (SDSU) became the first land grant university to offer both a major and minor in precision agriculture. The Precision Agriculture major prepares students for careers that bridge the gaps between agronomy, agriculture machinery management, and data sciences caused by the rapid evolution of high-speed sensor technology. Precision technology and training are key to increasing farm profitability and will play a major role in ecosystem sustainability. Agriculture is experiencing a fast-paced evolution as technology continues to develop. The integration of computer technology with farm equipment, farm sensors, GPS navigation, satellite imagery, and drone imagery are quickly revolutionizing agricultural production.

The 2018 Legislature took further steps to strengthen the State's commitment to precision agriculture by appropriating funding to the new Raven Precision Agriculture Center on the campus. This funding begins a partnership between public and private contributions and SDSU commitments to funding the \$46.1 million project. The project is being designed for bidding in the spring of 2019. SDSU anticipates construction beginning in the late summer of 2019, and that the building will be ready for occupancy in the fall of 2021. The Raven Precision Agriculture Center will be a two story, collaborative classroom, class/laboratory, and research laboratory facility. This new 130,000 square foot facility will be prominently located in the northwest corner of the SDSU campus.

State Animal Disease Research and Diagnostic Laboratory. Today, livestock are moved longer distances and more often, which creates the potential for diseases to be transmitted across states, regions, and countries. These livestock diseases have the potential to disrupt the overall economy, let alone the Agriculture Industry. South Dakota has taken this threat seriously and the State Animal Disease Research and Diagnostic Laboratory (ADRDL) on the Campus of the South Dakota State University is dedicated to identifying animal disease, establishing new protocols to distinguish unique disease strains, and developing vaccines and other treatments to directly assist veterinarians, ranchers, farmers, pet owners, wildlife managers, and public health officials. As the result of 2017 legislative appropriations, the State broke ground on August 31, 2017 on the new ADRDL building project. This \$61.4 million investment is designed to accommodate technological advancements, meet new federal laboratory safety requirements, and keep South Dakota current with the National Animal Health Laboratory Network standards. The new building and upgrades to existing facilities will allow timely veterinary diagnostic services in response to the growing demand for accurate identification of foreign, emerging, and exotic diseases.

AWARDS AND ACKNOWLEDGMENTS

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of South Dakota for its comprehensive annual financial report for the fiscal year ended June 30, 2017. This was the second consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

The preparation of this CAFR required the collective efforts of many financial personnel throughout the State from various agencies and departments. I sincerely appreciate the dedicated efforts of all of these individuals. I would like to recognize and commend the efforts of the accounting staff of each state agency and the staff of the Department of Legislative Audit. I would also like to acknowledge the Bureau of Finance and Management staff, Keith Senger, Robert Norwick, Lori Sears, Amanda Werre, Darcy McGuigan, David Goldammer, Dominique Ruppelt, Mark Edwardson, Amy Juso, Lacey Walz, Brian Englund, Jacob Harris, and Adam Hansen for their talents in making this report possible.

This report continues our commitment to the citizens of the State of South Dakota, the Governor, the Legislature, and the financial community, to maintain the highest standards of accountability and financial reporting.

Respectfully Submitted,

Liza Clark, Chief Financial Officer Bureau of Finance and Management

MARTIN L. GUINDON, CPA AUDITOR GENERAL

INDEPENDENT AUDITOR'S REPORT

The Honorable Dennis Daugaard Governor of South Dakota

and

Members of the Legislature State of South Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of South Dakota (State), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Unemployment Insurance Fund, the South Dakota Retirement System, the South Dakota Housing Development Authority, the South Dakota Ellsworth Development Authority and foundations of Higher Education. Those financial statements reflect total assets and deferred outflows of resources and revenues and additions of the business-type activities, the aggregate discretely presented component units, and the aggregate remaining fund information as follows:

	Percent of Total Assets*	Percent of Total <u>Revenues/Additions</u>
Government-wide financial statements:		
Business-type activities:		
Unemployment Insurance Fund	11.9%	13.4%
Fund financial statements:		
Aggregate discretely presented component units:		
South Dakota Housing Development Authority	39.4%	5.4%
South Dakota Ellsworth Development Authority	.6%	1.5%

Foundations of Higher Education	17.2%	15.1%
Aggregate remaining fund information: Unemployment Insurance Fund South Dakota Retirement System	.9% 89.1%	1.0% 32.7%

* including deferred outflows of resources

Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for these entities, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the discretely presented component units (foundations) of Higher Education were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 17 through 32, the budgetary comparison schedules on pages 120 through 135, and the Schedules of Proportionate Share of the Net Pension Liability (Asset), and Employer Contributions on pages 136 through 137 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for

consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The supplementary information, such as the combining and individual fund financial statements on pages 140 through 175 and the other information, such as the introductory and statistical sections on pages 1 through 12 and 177 through 197, respectively, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of other auditors, the combining and individual fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 28, 2018 on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control over financial reporting.

Martin L. Guindon, CPA Auditor General

December 28, 2018

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is a discussion and analysis of the State of South Dakota's (hereinafter referred to as the State) financial performance and position, providing an overview of the State's financial activities for the fiscal year ended June 30, 2018. This document begins with a one-page summary of financial highlights, followed by a more detailed overview of the financial statements and financial analysis. Please read it in conjunction with the transmittal letter found on page 1 in the *Introductory Section* of this report and with the State's financial statements that follow this section.

FINANCIAL HIGHLIGHTS

Government-wide Financial Statements

- Total assets and deferred outflows of resources of the State exceeded its total liabilities and deferred inflows of resources at the close of the fiscal year by \$6.8 billion (reported as net position). Of this amount, \$5.8 billion is restricted for specific uses or invested in capital assets. The remaining \$1.0 billion is unrestricted and may be used to meet the government's ongoing obligations. However, certain resources within this unrestricted net position have internally imposed limitations that are discussed within the *Government-wide Financial Analysis* section of this document.
- The State's total net position increased by \$293.3 million, or 4.5% from the prior fiscal year. Net position of Governmental Activities increased by \$268.5 million, or 4.6%, while net position of Business-type Activities increased by \$24.7 million, or 3.5% over the prior fiscal year.
- Discretely presented component units reported total net position of \$2.3 billion, an increase of \$141.8 million, or 6.5% from the prior fiscal year.

Fund Financial Statements

- The State's governmental funds reported combined ending fund balances of \$2.0 billion, an increase of \$87.3 million, or 4.5% from the prior fiscal year. Of the \$2.0 billion in combined ending fund balance, \$569.5 million is nonspendable and \$1.1 billion is restricted by outside sources or enabling legislation. Another \$36.9 million is committed by state law and \$78.2 million has been assigned for various specific purposes. The remaining \$256.3 million is unassigned. Please refer to *Note 10. Fund Balance and Net Position* in the Notes to the Financial Statements for further explanation and breakdown of these balances. Certain resources within the \$256.3 million of the unassigned fund balance have internally imposed limitations that are discussed throughout the *Financial Analysis of the State's Funds* section of this document.
- At the end of the fiscal year, the General Fund had a fund balance of \$338.1 million. This includes budget reserves in General Fund Budget Reserve and General Revenue Replacement balances of \$132.4 million and \$44.0 million, respectively.
- The State's three trust funds (Dakota Cement Trust, Education Enhancement Trust, and Health Care Trust all reported as special revenue funds) and the State's Permanent Fund all increased in value during the fiscal year because strong investment earnings and transfers into these funds exceeded statutory disbursements. After transferring a combined amount of \$38.5 million to the General Fund, these funds closed the fiscal year with a combined ending fund balance of \$1.1 billion, an increase of \$65.9 million.
- Proprietary funds reported net position at fiscal year-end of \$761.6 million, an increase of \$28.7 million, or 3.9% from the prior fiscal year.

Long-Term Debt

- The primary government's total long-term debt (revenue bonds and capital leases) as of June 30, 2018, totaled \$602.7 million, an increase of \$33.8 million from the last fiscal year-end. The increase represents the net difference between new issuances, payments, and the refunding and defeasance of outstanding debt.
- The South Dakota Conservancy District issued \$94.6 million in revenue bonds for Business-Type Activities of the primary government. A portion of these bonds were used for advanced refunding of prior issued bonds. The advanced refunding resulted in a net economic gain of \$3.4 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the State's Basic Financial Statements. The State's Basic Financial Statements are comprised of three components: (1) Government-wide Financial Statements, (2) Fund Financial Statements, and (3) Notes to the Financial Statements. This report also contains Required Supplementary Information and Other Supplementary Information in addition to the Basic Financial Statements.

Government-wide Financial Statements (Reporting the State as a whole)

The Government-wide Financial Statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the State's financial position that aids in assessing the State's economic condition at the end of the fiscal year. These statements include all nonfiduciary assets and liabilities, using the flow of economic resources measurement focus and the accrual basis of accounting. The current year's revenues and expenses are taken into account, regardless of when cash is received or paid. The Government-wide Financial Statements include two statements:

- **The Statement of Net Position** presents information on all of the State's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference between them being reported as net position. Over an extended period of time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the State is improving or deteriorating.
- **The Statement of Activities** presents information depicting how the State's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both the Statement of Net Position and the Statement of Activities segregate the activities of the State into three types:

- **Governmental Activities.** Most of the State's services provided to the citizens of the State are reported with the Governmental Actives. The Governmental Activities of the State include the following:
 - General government
 - Education elementary, secondary, and vocational schools
 - Education state support to higher education
 - > Health, human, and social services
 - > Law, justice, public protection, and regulation
 - Agriculture and natural resources
 - Economic resources
 - > Transportation
 - Intergovernmental payments to school districts
 - Intergovernmental revenue sharing
 - Unallocated interest expense
 - Unallocated depreciation

Taxes, fees, unrestricted investment earnings, and intergovernmental revenues (federal grants) finance most of the costs of these activities.

• **Business-type Activities.** The State operates Business-type Activities much like private-sector companies by charging fees to customers to help cover all or most of the costs of certain services it provides. The Lottery Fund is an example of a Business-type Activity.

- **Discretely Presented Component Units.** Component units are legally separate organizations for which the State is financially accountable, or the nature and significance of the unit's relationship with the State is such that exclusion of the unit would cause the State's financial statements to be misleading or incomplete. The following entities are included in the component unit columns of the State's Government-wide Financial Statements:
 - South Dakota Housing Development Authority
 - South Dakota Science and Technology Authority
 - Higher Education
 - South Dakota Economic Development Finance Authority
 - South Dakota Value Added Finance Authority
 - South Dakota Ellsworth Development Authority
 - > The South Dakota Authority Captive Insurance Company, LLC
 - > The South Dakota Property and Casualty Captive Insurance Company, LLC

Other component units are blended and reported as part of primary government or considered related organizations and not reported in these financial statements. For additional information regarding component units, refer to *Note 1. Summary of Significant Accounting Policies* in the Notes to the Financial Statements.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Some funds are required by law, while others are established internally to maintain control over a particular activity. All funds of the State can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. It is important to note that these categories use different accounting approaches and should be interpreted differently.

• **Governmental Funds.** Most of the State's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances remaining at year-end that are available for future spending. The Governmental Fund Financial Statements provide a detailed short-term view of the State's general government operations and the basic services it provides. Governmental fund information helps determine the financial resources that can be spent in the near future to finance the State's programs. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Governmental funds include the General Fund, special revenue, capital projects, debt service, and permanent funds.

Since the focus of governmental funds is narrower than that of the Government-wide Financial Statements, it is useful to compare the information presented for governmental funds with similar information presented for Governmental Activities in the Government-wide Financial Statements. By doing so, readers may better understand the long-term impact of the State's short-term financing decisions. Both the Governmental Funds Balance Sheet and the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and Governmental Activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The State maintains many individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Transportation Fund, Social Services Federal Fund, Dakota Cement Trust Fund, and Education Enhancement Trust Fund, which are considered to be major funds. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for some nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

• **Proprietary Funds.** Proprietary funds include: (1) enterprise funds and (2) internal service funds. These funds account for the State's activities that operate much like private sector businesses. Like the Government-wide Financial Statements, proprietary fund statements are presented using the accrual basis of accounting.

- Enterprise funds (e.g., Lottery Fund) are used to account for activities that largely involve customers outside of state government and are reported as Business-type Activities in the Government-wide Financial Statements.
- Internal service funds (e.g., Fleet and Travel Management) are used to account for activities that largely involve other state agencies. The internal service fund activities are consolidated with the Governmental Activities in the Government-wide Financial Statements because those services predominantly benefit Governmental rather than Business-type Activities.

The State maintains several individual proprietary funds. The following three are considered major funds: Lottery Fund, Clean Water State Revolving Fund, and Drinking Water State Revolving Fund. These three proprietary funds are presented separately in the Proprietary Funds Statement of Net Position and Statement of Revenues, Expenses, and Changes in Net Position. Information from the remaining funds is combined into two separate, aggregated columns by proprietary fund type. Individual fund data for some nonmajor proprietary funds is provided in the form of combining statements elsewhere in this report.

• **Fiduciary Funds.** Fiduciary funds (e.g., South Dakota Retirement System) are used to report activities when the State acts as a trustee or fiduciary to hold resources for the benefit of parties outside state government. The accrual basis of accounting is used for fiduciary funds and is similar to the accounting used for proprietary funds. The Government-wide Financial Statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and cannot be used by the State to finance operations.

The State's fiduciary funds include pension trust funds, private purpose trust funds, and agency funds. Individual fund data for some of the fiduciary funds is included in the Combining Financial Statements elsewhere in this report.

Notes to the Financial Statements

The Notes to the Financial Statements are an integral part of the financial statements and provide additional narrative and financial information essential to fully understand the data provided in the Government-wide Financial Statements and the Fund Financial Statements. The Notes to the Financial Statements are located immediately following the fiduciary funds' financial statements.

Required Supplementary Information

The Basic Financial Statements are followed by a section of Required Supplementary Information. This section includes Budgetary Comparison Schedules and related notes; and two pension-related schedules.

The Budgetary Comparison Schedules are for the General Fund and for each major special revenue fund that has a legally adopted annual budget. The only special revenue funds that fit this criterion are the Transportation Fund and the Social Services Federal Fund. These schedules present the original and final appropriated expenditure budgets and estimated receipts (General Fund only) for the fiscal year. The Budgetary Comparison Schedule also lists the actual inflows and outflows, and balances stated on a budgetary basis. A variance column is included to compare the final appropriated budget with the actual budget results.

Because accounting principles used to present budgetary basis differ significantly from those used to present financial statements in conformity with Generally Accepted Accounting Principles (GAAP), a Budget-to-GAAP Reconciliation can be found immediately following the Budgetary Comparison Schedule. The Budget-to-GAAP Reconciliation explains the differences between budgetary inflows and outflows to GAAP revenues and expenditures.

The pension related schedules include a Schedule of Proportionate Share of Net Pension Liability (Asset) and a Schedule of Contributions. The first schedule highlights key amounts relating to the State's share of the Net Pension Liability (Asset). The second schedule illustrates contributions as a percentage of the State's covered-employee payroll.

Other Supplementary Information

Other Supplementary Information includes Combining Financial Statements for nonmajor governmental funds, proprietary funds, fiduciary funds, and component units that are incorporated into the Basic Financial Statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As presented in the following table, total assets and deferred outflows of resources of the State on June 30, 2018 were \$7.9 billion, while total liabilities and deferred inflows of resources were \$1.1 billion, resulting in combined net position (Governmental and Business-type Activities) of \$6.8 billion, a 4.5% increase from the previous year. As discussed later in this document, a significant portion of this increase is directly attributed to increases in capital assets and strong returns on investment in the State's three trust funds and the Permanent Fund.

Total Net Position	\$ 6,086,843	\$ 5,818,319	\$ 721,614	\$ 696,875	\$ 6,808,457	\$ 6,515,194	4.5%
Percent of Total Primary Government							
Net Position	89.4%	89.3%	10.6%	10.7%	100.0%	100.0%	

In fiscal year 2018, Governmental Activities accounted for 89.4% of the State's total net position, and Business-type activities accounted for 10.6%, relatively unchanged from the prior fiscal year.

Net Investment in Capital Assets

The largest component of the State's net position, \$4.1 billion or 59.6%, reflects investments in capital assets (land, land improvements, buildings, equipment, vehicles, infrastructure, intangible assets, and construction in progress), less depreciation and all outstanding debt that was issued to buy or build those assets. This represents a \$90.3 million, or 2.3% increase in the State's investment in capital assets from the prior fiscal year. This increase is primarily attributed to continued construction of infrastructure (highways and bridges) without the issuance of related debt. For more information please refer to the *Capital Assets and Debt Administration* section of this document and *Note 6. Capital Assets* in the Notes to the Financial Statements. The State uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the State's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

Restricted Net Position

Total restricted net position at year-end was \$1.8 billion, or 25.8% of total net position, an increase of \$163.8 million, or 10.3% from the prior fiscal year. The net position is subject to restrictions either: externally imposed by creditors (such as debt covenants), grantors, contributors, or laws/regulations of other governments, or imposed by law through constitutional provisions or enabling legislation on how they can be used.

A majority of the restricted net position is accounted for in the State's three trust funds and the State's Permanent Fund. Two of these trust funds (Education Enhancement Trust and Health Care Trust) and the Permanent Fund are held as permanent investments, either as nonexpendable (\$539.9 million) or expendable (\$241.1 million), and the third trust fund (Dakota Cement Trust) is restricted for education (\$325.5 million).

The combined fund balance of these four funds totals \$1.1 billion. Aside from the constitutionally authorized annual distributions, these funds can only be accessed through a constitutional amendment (Dakota Cement Trust and Permanent Fund) or by a three-fourths vote of the Legislature (Health Care Trust Fund and Education Enhancement Trust).

The remaining \$652.7 million of restricted net position is restricted for highways (\$191.9 million), pensions (\$175.6 million), agriculture and natural resources (\$75.6 million), economic development (\$52.6 million), railroads (\$30.3 million), and debt service (\$24.7 million), with the remaining amount for other purposes.

A majority of the \$163.8 million increase in the restricted net position is attributed to a \$70.1 million increase in the restricted for pensions, resulting from an increase in the net pension asset; and a \$56.9 million increase in the funds held for permanent investment (Education Enhancement Trust, Health Care Trust, and Permanent funds). These governmental funds, and the South Dakota Retirement System (SDRS) experienced strong investment returns during the fiscal year which grew the fund balance and SDRS net pension asset from the prior fiscal year. Additionally, as discussed later in the MD&A, the Education Enhancement Trust experienced a significant onetime increase in transfers into the fund.

Unrestricted Net Position

The remaining net position balance, \$1.0 billion, or 14.6% is defined by accounting standards as "unrestricted" net position. However, some of the unrestricted net position balances cannot be used to meet the State's general ongoing obligations to citizens and creditors as resources because of limitations imposed by federal regulations, bond covenants, constitutional provision, or state law. Limitations on unrestricted net position imposed by federal regulations, bond regulations and bond covenants include \$242.9 million within the Clean Water State Revolving Fund and \$196.5 million within the Drinking Water State Revolving Fund. Other federal and state regulation limitations include, but are not limited to, \$114.9 million within the Revolving Economic Development and Initiative Fund, \$121.8 million for unemployment insurance claims, and \$8.6 million for revolving loan programs.

Those funds with limitations imposed by state law include the following:

• **General Fund Budget Reserve** (\$132.4 million). The 1991 South Dakota Legislature established a General Fund Budget Reserve (GFBR) whereas expenditures out of the budget reserve fund shall only be used by special appropriation (which requires a two-thirds vote of all the members of each house of the Legislature) and shall only redress such unforeseen expenditure obligations or such unforeseen revenue shortfalls as may constitute an emergency pursuant to S.D. Const., Art. III, § 1. Revenues deposited in the GFBR include unobligated General Fund cash remaining at the end of a fiscal year up to an amount equal to 10% of the General Fund appropriations in the General Appropriations Act for the previous fiscal year.

The balance in the GFBR at June 30, 2018 was \$132.4 million, an increase of \$11.1 million from the prior fiscal year. This transfer into the GFBR as required by law was the result of \$10.7 million of underspent general fund budgets and \$6.1 million higher than expected revenues offset by a \$5.9 million legislatively approved transfer to the General Fund to support state aid to education.

• **General Revenue Replacement Fund** (\$44.0 million). House Bill 1050, passed during the 2015 Legislative Session, created the "General Revenue Replacement Fund" (GRRF). This fund is to be used to balance the General Fund annual budget due to an unforeseen revenue shortfall. This fund replaces the Property Tax Reduction Fund (PTRF) and the June 30, 2015 balance in the PTRF was transferred into the GRRF. Revenues deposited in the GRRF include unobligated General Fund cash remaining at the end of a fiscal year after the transfer into the Budget Reserve, if the amount in the GRRF does not exceed 15% of the General Fund appropriations in the GRRF remained unchanged at \$44.0 million.

The unrestricted net position increased by \$39.1 million, or 4.1% during the fiscal year. A significant portion of this increase is attributed to the \$11.1 million increase in the General Fund Budget Reserve (as discussed above) and increases in the fund balance reported in the Clean Water State Revolving (\$12.3 million) and the Drinking Water (\$3.8 million) State Revolving funds. For analysis on these two funds, please see the *Financial Analysis of the State's Funds* section in this document. Additionally, the Unemployment Insurance Fund reported a \$6.7 million increase in net position because the payments for unemployment benefit claims were lower than expected causing the unemployment insurance tax rates and investment income to exceed the claim payments. Most of the remainder is attributed to small changes in unassigned fund balance in the General Fund as discussed later in the MD&A.

Changes in Net Position

The following table summarizes financial information derived from the Government-wide Statement of Activities and reflects how the State's net position changed during fiscal year 2018:

State of South Dakota Change in Net Position for the Fiscal Year Ending June 30 (Expressed in Thousands)

Governmental Activities:

The State's net position for Governmental Activities at the end of fiscal year 2018 was \$6.1 billion. This represents an increase of 4.6% or \$268.5 million from the prior fiscal year.

The \$268.5 million increase in the State's net position for Governmental Activities was the result of the net effect of the following: (1) \$3.9 billion revenues (an increase from the prior fiscal year of \$12.7 million); less (2) \$3.8 billion expenses (a decrease from the prior fiscal year of \$14.5 million); plus (3) net transfers of \$125.6 million (primarily from the South Dakota Lottery Fund).

The following two charts illustrate the above program revenues and expenses for Governmental Activities for fiscal year ending June 30, 2018:

This fiscal year, the State received 44.2% of its revenues from taxes (sales, motor fuel, contractors excise, bank card, bank franchise, and other taxes), and 38.7% from federal grants and contributions. Charges for service accounted for 12.4%.

In fiscal year 2018, health, human, and social services (taking care of people) accounted for 39.6% of the State's expenses, followed by 25.7% to education (K-12 and post-secondary), 12.0% to transportation (constructing and maintaining roads and bridges), and 6.8% for law, justice, public protection, and regulation (protecting people).

Significant changes in revenues include a \$39.6 million increase in sales, use, and contractors excise tax due to a steadily growing economy with low unemployment rates; and a \$29.7 million increase in miscellaneous revenues attributed to increases in the Education Enhancement Trust Fund and an increase in unclaimed escheat property in the General Fund. Both of these increases are further discussed in the *Financial Analysis of the State's Funds* section in this document. These increases were offset with a \$32.6 million decrease in operating grants of which a majority is attributed to decreases in federal grant revenue in the Transportation fund. For more information, please refer to the Transportation Fund analysis in the *Financial Analysis of the State's Funds* section in this document. Additionally the state experienced a \$37.3 million decrease in investment earnings. Although the fiscal year 2018 investment earnings were strong, the Dakota Cement Trust, Education Enhancement Trust, Health Care Trust and Permanent funds investment earnings were less than that of the prior fiscal year due to less favorable markets. The total return for these funds was 6.8% during the fiscal year as compared to 11.5% from the prior fiscal year.

Significant changes in expenses include an increase of \$30.2 million in intergovernmental payments to school districts, which is further explained in the General Fund analysis of the *Financial Analysis of the State's Funds* section in this document. This increase is offset by decreases in expenses related to pensions across all functions of government.

Business-type Activities:

Net position of the Business-type Activities at the end of fiscal year 2018 was \$721.6 million, an increase of \$24.7 million due to total revenues exceeding total expenses and transfers out. Although net position for Business-type Activities only accounts for roughly 10.6% of the total net position, Business-type Activities provided \$125.6 million in net transfers to Governmental Activities to help fund current operations, most of which came from the South Dakota Lottery Fund.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

As noted earlier, the State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Some funds are required by law, while others are established internally to maintain control over a particular activity.

Governmental Funds

The focus of the State's governmental funds is to provide information on near-term inflows and outflows during the fiscal year and on balances of spendable resources as of fiscal year-end. Such information is useful in assessing the State's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. However, this measure must be used with care because large portions of the balance may relate to internally imposed limitations, such as constitutional or statutory language. which could limit resource use (e.g., General Fund Budget Reserve, Dakota Cement Trust Fund, Health Care Trust Fund, Education Enhancement Trust Fund, General Revenue Replacement Fund, and Permanent Fund), unless appropriated by legislative action as defined by state law.

As shown in the table below, at the end of the current fiscal year, the State's governmental funds reported combined ending fund balances of \$2.0 billion, an increase of \$87.3 million during the fiscal year. Of this amount, approximately 28.1%, or \$569.5 million of the combined ending fund balance is nonspendable; either due to its form or legal constraints. The nonspendable portion is predominately made up of the Education Enhancement Trust, the Health Care Trust, and the Permanent funds to be held as permanent investments. Approximately 53.5%, or \$1.1 billion of the combined ending fund balance is restricted by outside sources or enabling legislation. Another 1.8%, or \$36.9 million of the combined balance is committed by state law and 3.9%, or \$78.2 million, has been assigned internally for specific purposes. The remaining \$256.3 million, or 12.7% is reported as unassigned in accordance with GASB Statement 54. Certain resources within the \$256.3 million of the unassigned fund balance have other internally imposed limitations as discussed below. For additional explanation and breakdown of these balances, see Note 10. Fund Balance and Net Position in the Notes to the Financial Statements.

The following governmental funds are major funds and had significant impact on the State's financial position during fiscal year 2018 :

General Fund (\$338.1 million). The General Fund is the chief operating fund of the State. It accounts for all financial resources not accounted for and reported in another fund.

The General Fund receives a majority of its operating cash from sales and use tax and contractor's excise tax revenue. Other General Fund significant revenues include, but are not limited to, insurance company tax, cigarette excise tax, unclaimed property remittance, bank taxes, tourism tax, alcoholic beverage tax, and mineral tax. The General Fund also receives annual statutory transfers from the South Dakota Lottery Fund, the Securities and Insurance Fund, the Education Enhancement Trust Fund, the Dakota Cement Trust Fund, the South Dakota Gaming Commission Fund, and the Health Care Trust Fund.

A vast majority of the General Fund expenditures are for education (K-12 and post-secondary); health, human, and social services (taking care of people); and law, justice, public protection, and regulation (protecting people). The General Fund also makes annual transfers out for debt service and to various other funds.

The exhibit below details the General Fund revenue, expenditures, and transfers in a comparative table.

Total Transfers In	\$ 230,074	\$ 219,839	4.7%						

The General Fund experienced an increase in revenues of \$55.4 million or 4.0% from the prior fiscal year. A majority of this increase is attributed to a \$40.0 million increase in sales, use, and contractors excise tax (3.7% increase) due to a steady growing South Dakota economy, low unemployment, increasing construction activity as well as increases in construction material prices. The General Fund also received a \$9.0 million increase in unclaimed escheat property attributed to increased dormant property. The \$6.5 million increase in insurance company tax is attached to economic growth and continued increases in insurance premiums.

The General Fund expenditures increased only 2.9% from the prior fiscal year. A majority of that \$46.1 million increase was attributed to higher state support payments to K12 school districts. This increase in education expenditures is attributed to increased student numbers, an increase in target teacher salary, property tax valuations being lower than projected, and other one-time increases to schools.

At the end of the fiscal year, the total fund balance of the General Fund was \$338.1 million, an increase of \$24.5 million, or 7.8% from the prior fiscal year.

Significant changes in the General Fund balance include the following:

- Assigned ending fund balance of \$60.7 million increased by \$5.9 million, or 10.7% from the prior fiscal year. . This increase is the result of small increases in encumbrances and legislatively approve budget carryovers.
- Unassigned ending fund balance of \$268.1 million increased by \$19.0 million, or 7.6% from the prior fiscal • year. Most of this increase is attributed to increases in the GFBR as previously discussed.

It is important to note that some of this unassigned fund balance has other restricting factors that may limit or decrease its availability for general appropriations because it either has another purpose as intended by state law or has internally imposed limitations. Those limitations on the unassigned fund balance include: \$132.4 million in the General Fund Budget Reserve and \$44.0 million in the General Revenue Replacement Fund, which is created by state law and to be used only to address emergency situations without having to raise taxes or cut spending.

Additionally, \$84.5 million of the unassigned fund balance is not part of cash and cash equivalents, but rather a net effect of receivables and other assets in excess of liabilities. Of those receivables, \$127.9 million was recognized as revenue in the General Fund in fiscal year 2018 for financial reporting purposes, but not distributed on a cash basis to the General Fund until fiscal year 2019. This revenue was budgeted for and will be used in fiscal year 2019 cash basis operations.

As a measure of the General Fund's liquidity, it may be useful to compare both the assigned and unassigned fund balances to total fund expenditures. The assigned fund balance represents 3.7% of the total General Fund operating expenditures, while the unassigned fund balance (including the GFBR and GRRF) represents 16.3% of that same amount or 20.0% in total.

See the Budgetary Highlights – General Fund section in this document for more discussion on the General Fund.

Transportation (\$203.3 million). The Transportation Fund is a major special revenue fund that accounts for the construction and maintenance of the State's highways and bridges and funding public transportation. Its revenue is comprised of federal grants, state motor fuel taxes, and state motor vehicle excise taxes. All revenues of the Transportation Fund are used and expended under the direction of the State's Department of Transportation. The total fund balance at the end of the current fiscal year for this fund was \$203.3 million, an increase of \$8.8 million, or 4.5% from the prior fiscal year.

Total revenues for the Transportation Fund decreased by \$52.5 million or 8.1% from the prior fiscal year while total expenditures decreased by \$20.6 million, or 3.4%. These decreases are the result of fewer federally supported highway construction projects let as compared to the prior fiscal year. This variation in construction activity is a normal fluctuation in the four-year Statewide Transportation Improvement Plan.

Social Services Federal (\$2.2 million). The Social Services Federal fund is a major special revenue fund that consists of over sixty federal grants and entitlement programs administered to provide social, financial, and medical services to eligible South Dakotans with the goal of fostering independence and personal responsibility. This fund is administered by the State's Department of Social Services. Some of the major grants included in this fund are Medicaid, Low Income Heating and Energy Assistance Payments, Temporary Assistance to Needy Families, State Children's Health Insurance Program, State Administrative Matching Grants for the Supplemental Nutrition Assistance Program, Child Care and Development Fund Mandatory, Child Care and Development Block Grant, Foster Care - Title IV-E, and Child Support Enforcement.

Revenue in the fund consists of federal grants from the U.S. Department of Health and Human Services, the U.S. Department of Agriculture, the U.S. Department of Energy, the U.S. Department of Justice, and federal pass-through grants from various State entities. The majority of the funding is expended on entitlement programs, service contracts to providers, and the administration of these programs. A majority of the state match to these federal grants is accounted for and expended out of the General Fund. The total fund balance at the end of the current fiscal year for the Social Services Federal Fund was \$2.2 million, relatively unchanged from the prior fiscal year.

Total program revenue of \$621.9 million decreased by \$94.1 million, or 13.1% and expenditures of \$621.4 million dropped by \$93.6 million, or 13.1% from the prior fiscal year. These decreases are predominantly attributed to a department reorganization that moved a federal program from the Department of Social Services to the Department of Human Services.

Dakota Cement Trust Fund (\$325.5 million). As created in Article XIII, Sections 20 and 21 of the Constitution of the State of South Dakota, this fund consists of the proceeds from the sale of the State Cement Plant and all investment earnings. "Four percent of the lesser of the average market value of the trust fund determined by adding the market value of the trust fund at the end of the sixteen most recent calendar quarters as of December thirty-first of that year and dividing that sum by sixteen, or the market value of the trust fund at the end of that calendar year" shall be transferred to the General Fund in support of education. The Dakota Cement Trust Fund transferred \$12.4 million to the General Fund in fiscal year 2018 and \$12.0 million in fiscal year 2017.

The fund balance in the Dakota Cement Trust Fund at June 30, 2018, was \$325.5 million and is restricted for education. This is an increase of \$9.0 million from the previous fiscal year. The increase resulted primarily from healthy net investment income of \$22.5 million which exceeded the statutory required transfer to the General Fund.

Education Enhancement Trust Fund (\$582.2 million). This fund consists of monies received from the Tobacco Settlement Agreement, monies transferred from the Tobacco Securitization Fund, and General Fund appropriations for scholarship purposes. The fund is authorized by state law to make an annual distribution equal to 4.0% of its market value (less the investment expenses) into the General Fund for educational enhancement programs. Article XII, Section 6 of the Constitution of the State of South Dakota also states that, "the Education Enhancement Trust Fund may not be diverted for other purposes, nor may the principal be invaded unless appropriated by a three-fourths vote of all the members-elect of each house of the legislature." The Education Enhancement Trust Fund transferred \$20.4 million to the General Fund in fiscal year 2018 and \$19.4 million in fiscal year 2017.

The fund balance in the Education Enhancement Trust Fund at June 30, 2018, was \$582.2 million, an increase of \$47.1 million from the prior fiscal year. During the fiscal year this fund experienced strong net investment income of \$38.8 million. Additionally, the transfer into the Education Enhancement Trust Fund from the Tobacco Securitization Fund increase by \$22.5 million from the prior fiscal year as the result of an additional one-time settlement agreement payment of the Tobacco Master Settlement Agreement. The investment income and transfer into the Education Enhancement Trust Fund exceeded the statutory required transfer out to the General Fund creating the increase in fund balance.

Proprietary Funds

The State's proprietary funds are presented on the accrual basis of accounting and include the State's enterprise and internal service funds. The following proprietary funds had significant activity or changes to net position during fiscal year 2018:

Lottery Fund (\$6.1 million). The Lottery Fund accounts for the operations of the South Dakota State Lottery, which markets instant tickets and lotto games and regulates video lottery to raise revenue for state programs and projects. At the end of the current fiscal year, the Lottery Fund reported total net position of \$6.1 million, an increase of \$0.2 million in comparison with the prior fiscal year. Pursuant to state law, the State Lottery Fund distributed approximately \$117.6 million to the General Fund, \$7.0 million to the Capital Construction Fund, and \$0.2 million to the Department of Social Services. For financial reporting purposes the \$7.0 million transfer to the Capital Construction Fund is reported as a \$4.9 million transfer to Water and Environment Fund, \$1.7 million transfer to the Ethanol Fuel Fund, and a \$0.4 million transfer to the Transportation Fund.

The State Lottery produced income (before transfers) in the amount of \$124.9 million on total revenue of \$170.0 million, compared to the previous fiscal year's income (before transfers) of \$117.1 million on total revenue of \$156.8 million. In fiscal year 2018, on-line ticket sales realized an increase of \$5.0 million bolstered by Powerball jackpots of \$559.7 million, \$456.7 million, and \$315.3 million; and Mega Millions jackpots of \$451.0 million and \$521.0 million. Fiscal year 2017 failed to see any jackpots that approached these levels. In addition, fiscal year 2018 also included the first full year of sales from the Lucky for Life game.

Clean Water State Revolving Fund (\$242.9 million). The Clean Water State Revolving Fund program was federally authorized by the 1987 Clean Water Act amendments. The United States Environmental Protection Agency awards capitalization grants to the State. These grants along with 5:1 matching state funds provide low interest loans to governmental entities for wastewater, storm sewer, and nonpoint source pollution projects. Projects with compliance or health and safety concerns receive highest priority.

During the fiscal year total assets increased by \$50.8 million or 12.6% and total liabilities increased by \$42.6 million or 24.2%. Those increases are mainly attributed to bond issuance. Additional information on the State's long-term debt obligations can be found in *Note 14. Long-Term Liabilities* in the Notes to the Financial Statements.

At the end of the current fiscal year, the Clean Water State Revolving Fund reported total net position of \$242.9 million, an increase of \$12.3 million, or 5.3% in comparison to the prior fiscal year. Most of this increase is attributed to an increase in the federal capitalization grant receipts from the United States Environmental Protection Agency.

Drinking Water State Revolving Fund (\$196.5 million). The Drinking Water State Revolving Fund program was federally authorized by the Safe Drinking Water Act amendments of 1996. The United States Environmental Protection Agency awards capitalization grants to the State. These grants along with 5:1 matching state funds are

used to provide low interest loans to finance drinking water projects. Projects with compliance or health and safety concerns receive highest priority.

During the fiscal year total assets increased by \$16.1 million or 6.4% and total liabilities increased by \$12.6 million or 20.3%. Those increases are mainly attributed to bond issuance. Additional information on the State's long-term debt obligations can be found in *Note 14. Long-Term Liabilities* in the Notes to the Financial Statements.

At the end of the current fiscal year, the Drinking Water Revolving Fund reported total net position of \$196.5 million, an increase of \$3.8 million, or 2.0% in comparison with the prior fiscal year. This small increase resulted primarily from the operating revenue, federal grant revenues, and investment income exceeding total expenses.

Budgetary Highlights - General Fund

The following analysis is based on the Budgetary Comparison Schedules included in the Required Supplementary Information that immediately follows the Basic Financial Statements.

The original budget is defined as the first complete appropriated budget, adjusted by reserves, transfers, allocations, supplemental appropriations, and other legally authorized legislative and executive changes before the beginning of the fiscal year. Any such transaction that is authorized as a legislative or executive change before the beginning of the fiscal year is included in the original budget, regardless of the effective date of the document loaded on the accounting system. The original budget also includes employee compensation allocations and any actual appropriation amounts carried forward by law from prior fiscal year; including special appropriations, maintenance and repair, and carryovers. The final budget is defined as the original budget, adjusted by all reserves, transfers, allocations, supplemental appropriations, and other legally authorized legislative and executive changes after the beginning of the fiscal year.

General Fund

The difference between the original and the final budget was a \$11.7 million net increase in appropriations. The net increase is comprised of two separate appropriations types; emergency special appropriations and net general bill adjustment appropriations (both increases and decreases). The net increase was due to actual bank franchise tax and contractors excise tax revenues exceeding previous estimates, and a one-time legislatively approved transfer to the General Fund from the General Fund Budget Reserve.

Increases to the General Fund Budget

Emergency Specials. During the 2018 Legislative Session, the Legislature approved emergency special appropriations to the General Fund of \$5.6 million in fiscal year 2018. They consisted of the following:

- \$2.4 million was appropriated from the General Fund to various state agencies for budget adjustments in rural healthcare recruitment program, tax refunds for the elderly and disabled, National Guard Readiness Center, Special Election for Constitutional Amendment, and the State Veterans Cemetery.
- \$2.0 million was appropriated from the General Fund to Higher Education for costs related to the South Dakota State University Precision Agriculture Building.
- \$0.8 million was appropriated from the General Fund to the Department of Agriculture for costs related to
 fighting wildfires in the State, and \$0.4 million was appropriated from the General Fund to the Bureau of
 Administration for the payment of legal expenses associated with litigation against the State. Due to the
 unpredictable nature of these items, the State does not budget estimated expenditures for fighting wild fires
 and defending the State against litigation. Instead the Legislature allows for payment of actual expenditures
 as costs are incurred and backfills the budget for the actual expenditure after the costs have been paid.

General Bill Increases. The 2018 Legislature approved general bill adjustments that increased the General Fund original budget by \$21.9 million during fiscal year 2018. This increase consisted of the following:

- \$15.5 million increase in appropriation to the Department of Education for programs in state aid to general education, sparsity payments, postsecondary vocational education, and education resources.
- \$6.3 million increase in appropriation to the Bureau of Finance and Management related to employee compensation and billing pools and the Obligation Recovery Center.
- \$0.1 million total increase in appropriations to various state agencies for various other increases.

Decreases to the General Fund Budget

General Bill Decreases. The 2018 Legislature approved general bill adjustments that decreased the General Fund original budget by \$15.8 million during fiscal year 2018. These decreases consisted of the following:

- \$15.1 million decrease in appropriation to the Department of Social Services for programs in economic assistance, medical and adult services, children's services, and behavioral health.
- \$0.5 million decrease in appropriation to the Department of Human Services for programs in administration, developmental disabilities, South Dakota Developmental Center, and services to the blind and visually impaired.
- \$0.2 million total decrease in appropriations to other state agencies.

The net effect of the emergency special appropriations and general bill adjustments resulted in a \$11.7 million increase in appropriations. Overall, there were no over-expenditures by any State departments in the General Fund. The difference between the final amended budget and actual spending was \$38.3 million below final budgeted estimates.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The State's capital assets are capitalized at historic cost. The State's investment in capital assets for its Governmental and Business-type Activities as of June 30, 2018 is \$4.2 billion (net of accumulated depreciation). This investment in capital assets includes: land, land improvements, buildings, equipment, vehicles, infrastructure, intangible assets, and construction in progress.

State of South Dakota
Capital Assets - Primary Government
(Expressed in Thousands)

	Govern	mental	Busines	ss-type	Total Primary Government		
	Activ	vities	Activ	ities			
	FY2018	FY2017	FY2018	FY2017	FY2018	FY2017	
Land	\$ 121,501	\$ 119,725	\$ 295	\$ 295	\$ 121,796	\$ 120,020

Construction in Progress	368,445	395,196	154	82	368,599	395,278	
Total Capital Assets	6,448,373	6,287,351	16,409	16,095	6,464,782	6,303,446	
Accumulated Depreciation	(2,220,169)	(2,145,113)	(9,380)	(9,044)	(2,229,549)	(2,154,157)	
Total Capital Assets, Net	\$ 4,228,204	\$ 4,142,238	\$ 7,029	\$ 7,051	\$ 4,235,233	\$ 4,149,289	

The most significant capital asset the State reported in fiscal year 2018 is infrastructure. Infrastructure assets are long-lived capital assets that normally are stationary in nature and can be preserved for a significantly greater number of years than most capital assets. Examples of infrastructure assets include roads, bridges, tunnels, drainage systems, water and sewer systems, dams, and lighting systems. Infrastructure assets account for \$2.4 billion (net of accumulated depreciation), which is 56.7% of total net capital assets.

The State's investment in capital assets (net of accumulated depreciation) increased \$85.9 million, or 2.1% during the fiscal year. This change was primarily due to an increase in infrastructure from continued highway construction projects funded by federal grants and state motor fuel taxes in the Transportation Fund.

More detailed information on the State's capital assets can be found in *Note 6. Capital Assets* in the Notes to the Financial Statements.

Debt Administration

Issuer Credit Rating of the State. On May 4, 2015, Standard & Poor's upgraded the issuer credit rating (ICR) for the State to AAA with a stable outlook. Likewise, on June 17, 2017, and July 11, 2017, Fitch Rating Service and Moody's Investors Service also upgraded the ICR for the State to AAA and Aaa both with a stable outlook. This represents the highest credit ratings a state can obtain. All three rating agencies have since reaffirmed the AAA ratings with a stable outlook.

The authority of the State to incur limited debt for specific purposes is described in Article XIII, Section 2, of the State's Constitution. This section prohibits the State from having general obligation indebtedness in excess of \$100,000.

South Dakota Building Authority. The South Dakota Building Authority (SDBA) was created and organized by Chapter 5-12 of the South Dakota Codified Laws to issue debt on behalf of the primary government. Although legally separate from the State, SDBA is a blended component unit of the State, and accordingly, is included in the State's financial statements.

SDBA issues bonds, certificates of participation, and trust certificates to finance the cost to acquire, construct, remodel, maintain, and equip buildings and other facilities of state departments and institutions. These obligations are payable from revenue generated through lease agreements between SDBA and the state departments and institutions. The indebtedness, bonds, or obligations incurred or created by SDBA may not be or become a lien, charge, or liability against the State. The bonds and all related financial transactions used to finance buildings of state departments and institutions are reported as part of the Governmental Activities in the State's Basic Financial Statements, except for the debt of the universities, which is reported as part of the discretely presented component unit information.

On June 30, 2018, the uninsured rating for SDBA from both Standard & Poor's and Fitch was AA+ with a stable outlook and Moody's Rating was Aa1 with a stable outlook, all one notch lower than the State's ICR.

SDBA did not issue any new long-term indebtedness for the State in fiscal year 2018.

Educational Enhancement Funding Corporation. The Educational Enhancement Funding Corporation (EEFC) is a special purpose corporation organized by Chapter 5-12 of the South Dakota Codified Laws. EEFC is an instrumentality of, but separate and apart from the State. Although legally separate from the State, EEFC is a blended component unit of the State and is included in the State's financial statements.

Pursuant to a Purchase and Sale Agreement with the State, the State sold to EEFC its future rights, title, and interest in the Tobacco Settlement Revenues (TSRs) under the Master Settlement Agreement. The purchase price of the State's future right, title, and interest in the TSRs has been financed by the issuance of bonds and the Residual Certificate. The Residual Certificate represents the right of the State to receive all amounts required to be distributed after payment of all outstanding bonds and other liabilities of EEFC as set forth in the Trust Indenture. Pursuant to the Resolution, EEFC is prohibited from selling additional bonds, other than refunding bonds. The bonds represent limited obligations of EEFC, payable solely from and secured solely by the pledged TSRs and the pledged amounts. The bonds are not a debt or liability of the State or of any political subdivision or agency thereof. EEFC has no taxing power. The bonds and all related financial transactions of EEFC are reported as part of the Governmental Activities in the State's Basic Financial Statements.

EEFC did not issue any bonds in fiscal year 2018.

South Dakota Conservancy District. The South Dakota Conservancy District (SDCD) was created by the Legislature under Chapter 46A-2 of the South Dakota Codified Law as a body politic and corporate for the purpose of constructing water resource facilities for the conservation, storage, distribution, and utilization of water for multiple purposes within the State. Although legally separate from the State, SDCD is a blended component unit of the State and is included in the State's financial statements.

SDCD issues revenue bonds for the Clean Water State Revolving Fund (CWSRF) and for the Drinking Water State Revolving Fund (DWSRF). These funds provide low interest loans or other types of financial assistance for the construction of publicly-owned wastewater treatment facilities; implementation of nonpoint source management programs; and construction and maintenance of drinking water facilities respectively. The bonds are paid solely from CWSRF and DWSRF loan repayments. The SDCD bonds do not constitute a debt or liability of the State or a pledge of the faith and credit of the State. The revenue bonds and related financial transactions for the CWSRF and DWSRF are reported as part of the Business-type Activities in the State's Basic Financial Statements.

At June 30, 2018, the SDCD had maintained its long-term rating of Aaa from Moody's and AAA from Standard & Poor's on all outstanding State Revolving Fund Program Bonds.

In fiscal year 2018, SDCD issued \$72.2 million in bonds for CWSRF and \$22.4 million in bonds for the DWSRF programs. A portion of these bonds are being used for advanced refunding of certain prior issued bonds. Net proceeds of \$36.7 million (CWSRF) and \$5.5 million (DWSRF) were deposited in an irrevocable trust with an escrow agent to provide for all the future debt service payments on the refunded portions. As a result, the refunded bonds are considered to be defeased and the liability for those bonds has been removed from the Statement of Net Position. The SDCD completed the advanced refunding for a net economic gain of \$2.8 million and \$0.6 million respectively.

Total Outstanding Notes and Bond Debt. The primary government had total notes and bonded debt outstanding as follows:

State of South Dakota Outstanding Notes and Bonded Debt (Expressed in Thousands)

Additional information on the State's long-term debt obligations can be found in *Note 14. Long-Term Liabilities* in the Notes to the Financial Statements.

ECONOMIC CONDITIONS AND OUTLOOK

Nonfarm employment in South Dakota increased during fiscal year 2018 and continues to expand at a steady pace. In fiscal year 2018, nonfarm employment in the State increased 0.9%, or 3,800 jobs. The unemployment rate in South Dakota remained among the lowest in the nation in fiscal year 2018. South Dakota's unemployment rate was 3.2% in June 2018, while the U.S. unemployment rate was 4.0% the same month. In calendar year 2017, the most recent annual data that is available, South Dakota's nonfarm personal income grew 2.1%, lower than the U.S. growth rate of 4.4% and the Plains' State Region growth rate of 3.4%. South Dakota's per capita personal income increased to \$48,818 in 2017, less than the United States average per capita personal income of \$51,640.

Further information on the South Dakota economy and economic outlook is included in the transmittal letter.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. If you have any questions about this report, or need additional financial information, please contact the Bureau of Finance and Management, 500 East Capitol Avenue, Pierre, South Dakota 57501, (605) 773-3411 or visit our website at http://bfm.sd.gov.

The State's discretely presented component units, with the exception of Higher Education and the South Dakota Value Added Finance Authority, issue their own separately audited financial statements. These statements may be obtained by directly contacting the Department of Legislative Audit at 427 South Chapelle, c/o 500 East Capitol, Pierre, South Dakota 57501, (605) 773-3595 or visit their website at http://legislativeaudit.sd.gov.

BASIC FINANCIAL STATEMENTS

The *Basic Financial Statements* include the government-wide financial statements, the governmental funds financial statements, the proprietary funds financial statements, the fiduciary funds financial statements, and the accompanying Notes to the Financial Statements. STATE OF SOUTH DAKOTA RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION June 30, 2018

(Expressed in Thousands)

Total Fund Balances - Governmental Funds		\$ 2,025,106
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and are		
therefore not reported in the funds. These assets consist of:		
Land and Construction in Progress	\$ 1,130,469	
Infrastructure	4,056,800	
Other Capital Assets	1,153,468	
Accumulated Depreciation	(2,144,559)	
Total Capital Assets		4,196,178
Net pension asset used in governmental activities is not a financial resource		
and is therefore not reported in the governmental funds.		1,776
Deferred outflows of resources are not reported in the governmental funds:		
Related to Pension	191,935	
Related to Debt Refunding	4,282	
Total Deferred Outflows of Resources		196,217
Internal service funds are used by management to charge costs of certain activities to		
individual funds. The assets and liabilities of the internal service funds are included in		
governmental activities in the Statement of Net Position.		39,945
Some liabilities are not due and payable in the current period and therefore are not		
reported in the funds. Those liabilities are:		
Bonds and Notes	(176,322)	
Accrued Interest on Bonds	(674)	
Capital Leases	(122,115)	
Compensated Absences	(54,975)	
Pollution Remediation	(11,707)	
Total Long-Term Liabilities		(365,793)
Deferred inflows of resources are not reported in the governmental funds:		
Revenues not available soon enough after year-end to pay for the		
current period's expenditures	28,025	
Related to Pensions	(34,611)	
Total Deferred Inflows of Resources		(6,586)
Net Position of Governmental Activities		\$ 6,086,843

STATE OF SOUTH DAKOTA RECONCILIATION OF THE CHANGE IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2018 (Expressed in Thousands)

Net Change in Fund Balances - Governmental Funds		\$	87,267
Amounts reported for governmental activities in the Statement of Activities are different because:			
Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of capital assets is allocated over the useful lives as depreciation expense. In the current period, these amounts are:			
Capital Outlay Depreciation Expense Excess of Capital Outlay Over Depreciation Expense	\$ 235,071 (117,000)		118,071
The net effect of various miscellaneous transactions involving capital assets, including sales, donations, and trade-ins, is to decrease net position.			(30,815)
Capital leases entered into during the fiscal year are reported as other financing sources in the governmental funds. However, it is not reported in the Statement of Activities as it is shown as an increase in long-term liabilities in the Statement of Net Position.			(1,322)
Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. In the current year, these amounts consist of:			
Bond Principal Retirement Capital Lease Payments Total Long-Term Debt Repayment	14,962 7,085		22,047
Internal service funds are used by management to charge costs of certain activities to individual funds. The net revenue (expense) of certain activities of internal service funds is reported in governmental activities.			3,947
Net effect of revenues reported on the accrual basis in the Statement of Activities that do not provide current financial resources and thus are not reported as revenues in the funds until available.			6,402
The issuance of bonds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are recognized in future periods in the Statement of Activities.			
Bond Refunding Costs Bond Premium Total Amounts Related to Bond Issuance	(57) 661		604
Some items reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:			
Net (Increase) Decrease in Accrued Interest (Increase) Decrease in Compensated Absences (Increase) Decrease in Net Pension Costs (Increase) Decrease in Pollution Remediation	32 (1,148) 63,493 (54)		
Total Additional Expenditures		¢	62,323 268,524
Change in Net Position of Governmental Activities		Þ	200,324

NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2018

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GAAP allows for and requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

B. Reporting Entity

For financial reporting purposes, the State of South Dakota (the State) reporting entity includes the primary government and its component units. The primary government consists of state departments, bureaus, boards, and commissions. Component units are legally separate governmental organizations for which the State is considered to be financially accountable and other organizations for which the nature of their relationship is such that exclusion would cause the State's financial statements to be misleading or incomplete.

Blended Component Units

Blended component units are legally separate entities that are, in substance, part of the State's primary government. A component unit is blended if: (1) services are provided, or almost entirely provided, to the primary government or otherwise exclusively, or almost exclusively, benefits the primary government; (2) the governing body is substantively the same as the governing board of the primary government; (3) the component unit's total debt outstanding is expected to be repaid entirely, or almost entirely, by the primary government, or (4) the primary government is the sole corporate member of a component unit incorporated as a not-for-profit corporation.

The State's blended component units are:

The South Dakota Building Authority (SDBA) was created and organized by Chapter 5-12 of the South Dakota Codified Laws. The purpose of the SDBA is to build and otherwise provide certain facilities for use by the State. Amounts issued by the SDBA shall not be deemed to constitute a debt of the State of South Dakota or any political subdivision thereof. SDBA is authorized to issue revenue bonds, notes, or other obligations on behalf of state institutions for the purpose of constructing, equipping and improving facilities, or refinancing of outstanding debt. SDBA is comprised of a seven member board that is appointed by the Governor, with the advice and consent of the Senate. No person shall be appointed to SDBA who is an elected official of the State of South Dakota or any subdivision thereof. One of the members shall be designated by the Governor as chairman. The indebtedness or obligations incurred or created by SDBA may not be or become a lien, charge, or liability against the State of South Dakota. Because the State of South Dakota is able to impose its will over SDBA and the services provided by SDBA are almost entirely provided to the State of South Dakota, SDBA is considered a blended component unit. This financial presentation does not change the legal liability of the indebtedness.

The South Dakota Conservancy District (SDCD) was created by the Legislature under Chapter 46A-2 of the South Dakota Codified Law as a body politic and corporate for the purpose of constructing water resource facilities for the conservation, storage, distribution, and utilization of water for multiple purposes within the State of South Dakota. SDCD has two funds: the Clean Water State Revolving Fund and the Drinking Water State Revolving Fund. The Clean Water State Revolving Fund is a low interest loan program used to finance the construction of wastewater facilities, storm sewers, and non-point source pollution control projects. The Drinking Water State Revolving Fund is a low interest loan program used to finance the constitute a debt or liability of the State of South Dakota, or a pledge of the faith and credit of the State. Because the State of South Dakota is able to impose its will over SDCD and the governing body is substantively the same as the governing body of the primary government, SDCD is considered a blended component of the primary government. This financial presentation does not change the legal liability of the indebtedness.

The Educational Enhancement Funding Corporation (EEFC) is a special purpose corporation, organized under Chapter 5-12 of the South Dakota Codified Law. EEFC was established to purchase all of the State of South Dakota's future right, title, and interest in the Tobacco Settlement Revenues (TSRs) under the Master Settlement Agreement. The purchase price of the State's future right, title, and interest in the TSRs has been financed by the issuance of the bonds and the residual certificate. The residual certificate represents the right of the State to receive all amounts required to be distributed after payment of all outstanding bonds and other liabilities of EEFC as set forth in the Trust Indenture. Obligations issued by EEFC shall not be deemed to constitute a debt, liability, or obligation of the State. Because there is a financial benefit/burden relationship between EEFC and the State of South Dakota and the services provided by the EEFC are entirely provided to the State of South Dakota, EEFC is considered a blended component unit. This financial presentation does not change the legal liability of the indebtedness.

The South Dakota Trust Company Receivership and Liquidation Captive Insurance Company, LLC (Trust Captive), a nonprofit limited liability company, was established December 31, 2016. The Trust Captive was established to provide insurance to pay for losses if the South Dakota Department of Labor and Regulation, Division of Banking must take over a trust company chartered and regulated by the Division. The obligations of the Trust Captive shall not be deemed to constitute a debt, liability, or obligation of the State. Because the State of South Dakota is able to impose its will over the Trust Captive, and is the sole corporate member, the Trust Captive is considered a blended component unit. This financial presentation does not change the legal liability of the indebtedness. The Trust Captive has a fiscal year end of December 31 and is presented accordingly.

Discretely Presented Component Units

Discretely presented component units are legally separate organizations that are either financially accountable to the State, or their exclusion would cause the State's financial statements to be misleading or incomplete. Discretely presented component units are reported in separate columns or rows in the Government-wide Financial Statements to emphasize that they are legally separate from the State.

The State's major discretely presented component units are:

The South Dakota Housing Development Authority (HDA) was created by the Legislature under Chapter 11-11 of the South Dakota Codified Law for the purpose of encouraging the investment of private capital and stimulating the construction and rehabilitation of residential housing for the people of the State of South Dakota. HDA issues negotiable notes and bonds. If an issue utilizes private activity bond cap, authorization is needed by the Governor of South Dakota. Notes and bonds of HDA do not constitute a debt or liability of the State of South Dakota, or a pledge of the faith and credit of the State. These notes and bonds are payable solely from the revenues or assets of HDA. Because the State of South Dakota appoints a voting majority of the board and is able to impose its will over HDA, but does not meet any of the GASB's criteria for blending, HDA is considered a discretely presented component unit of the State. This financial presentation does not change the legal liability of the indebtedness.

The South Dakota Science and Technology Authority (STA) was created by the Legislature under Chapter 1-16H of the South Dakota Codified Law to foster and facilitate science and technology investigation, experimentation, and development. The initial focus of STA was to support the transfer of the Homestake Gold Mine in Lead, South Dakota for development by the research community to become the world's premier underground Science and Engineering Laboratory. Because the State of South Dakota appoints a voting majority of the board and past history has established a pattern of the State of South Dakota assuming the obligation to finance STA which creates a financial benefit/burden relationship, but does not meet any of GASB's criteria for blending, STA is considered a discretely presented component unit of the State. This financial presentation does not change the legal liability of the indebtedness.

Higher Education (Higher Ed) consists of six state public universities (Black Hills State University, Dakota State University, Northern State University, South Dakota School of Mines and Technology, South Dakota State University, and University of South Dakota), two special schools (South Dakota School for the Deaf and South Dakota School for the Blind and Visually Impaired), and the governing board, South Dakota Board of Regents (BOR). BOR was created under Article XIV of the Constitution of the State of South Dakota. Chapter 13-49 of the South Dakota Codified Law establishes the authority for BOR to govern the system of public higher education in the State of South Dakota. The system's primary goal is to provide high quality, diverse educational opportunities, and services to the people of South Dakota through the effective use of the

resources entrusted to it. Because the State of South Dakota is able to impose its will over the Higher Ed system and BOR and a financial benefit/burden relationship exists, but does not meet the GASB's criteria for blending, Higher Ed is considered a discretely presented component unit of the State.

Included in the balances and operating results for Higher Ed are six foundations that contribute financially to the six state public universities through fundraising. The foundations include Black Hills State University Foundation, Dakota State University Foundation, Northern State University Foundation, South Dakota School of Mines and Technology Foundation, South Dakota State University Foundation, and University of South Dakota Foundation. The universities do not control the timing or amount of receipts from their foundations. However, a majority of resources or income the foundations hold and invest are restricted by the donors for activities of the respective universities. These restricted resources held by the foundations can only be used by, or for the benefit of the specific universities; therefore, the foundations are considered component units of the universities and are included in Higher Ed.

Black Hills State University Foundation, South Dakota State University Foundation, and University of South Dakota Foundation have fiscal year ends of December 31.

The foundations are private not-for-profit entities that report under Financial Accounting Standards Board (FASB) pronouncements. As such, certain revenue recognition criteria and presentation features are different from that of the Governmental Accounting Standards Board (GASB). The foundations' financial statements have not been restated to reflect GASB pronouncements, but have been reformatted to comply with the classification and display requirements in GASB pronouncements. The foundations' notes to the financial statements have not been reformatted to reflect GASB pronouncements and thus are not reported in the notes to the financial statements of the primary government.

The State's nonmajor discretely presented component units are:

The South Dakota Economic Development Finance Authority (EDFA) was created by the Legislature under Chapter 01-16B of the South Dakota Codified Law for the purpose of making loans to businesses to spawn economic growth. Obligations issued by EDFA shall not be deemed to constitute a debt, liability, or obligation of the State. Because the State of South Dakota appoints a voting majority of the board and is able to impose its will over EDFA, but does not meet the GASB's criteria for blending, EDFA is considered a discretely presented component unit of the State. This financial presentation does not change the legal liability of the indebtedness.

The South Dakota Value Added Finance Authority (VAFA) was created by the Legislature under Chapter 1-16E of the South Dakota Codified Law for the purpose of administering the beginning farmer bond and agribusiness bonding programs and making annual recommendations to the Legislature and Governor on programs to develop and promote agricultural processing activity in the State of South Dakota. The principal and interest on the bonds do not constitute an indebtedness of the State of South Dakota. Because the State of South Dakota appoints a voting majority of the board and is able to impose its will over VAFA, but does not meet the GASB's criteria for blending, VAFA is considered a discretely presented component unit of the State. This financial presentation does not change the legal liability of the indebtedness.

The South Dakota Ellsworth Development Authority (EDA) was established by the Legislature under Chapter 01-16J of the South Dakota Codified Law for the purpose of protecting and promoting the economic impact of Ellsworth Air Force Base and associated industry. Payments of the principal of, or interest on, the bonds, notes, instruments, or obligations issued by EDA shall not be deemed to constitute a debt, liability, or obligation of the State. Because the State of South Dakota appoints a voting majority of the board and a financial benefit/burden relationship exists, but does not meet the GASB's criteria for blending, EDA is considered a discretely presented component unit of the State. This financial presentation does not change the legal liability of the indebtedness.

The South Dakota Authority Captive Insurance Company, LLC (The Authority Captive), a nonprofit limited liability company, was established August 12, 2015, to cover some of the liability risks of six authorities of the State (South Dakota Science and Technology Authority, South Dakota Building Authority, South Dakota Health and Educational Facilities Authority, Educational Enhancement Funding Corporation, South Dakota Ellsworth Development Authority, and South Dakota Housing Development Authority). The Authority Captive's coverage includes: commercial general liability; directors, officers, and entity coverage; employment practices liability; and errors and omissions. The obligations of The Authority Captive shall not be deemed to constitute a debt,

liability, or obligation of the State. Because the State of South Dakota appoints a voting majority of the board and is able to impose its will over The Authority Captive, but does not meet the GASB's criteria for blending, The Authority Captive is considered a discretely presented component unit of the State. This financial presentation does not change the legal liability of the indebtedness. The Authority Captive has a fiscal year end of December 31.

The South Dakota Property and Casualty Captive Insurance Company, LLC (The Property Captive), a nonprofit limited liability company, was established September 14, 2015, to provide property, including content, business income, and extra expense coverage on the State's buildings, including Higher Education buildings. Because the State of South Dakota appoints a voting majority of the board and is able to impose its will over The Property Captive, but does not meet the GASB's criteria for blending, The Property Captive is considered a discretely presented component unit of the State. This financial presentation does not change the legal liability of the indebtedness. The Property Captive has a fiscal year end of December 31.

Related Organizations

The South Dakota Health and Educational Facilities Authority (HEFA) is a body politic, corporate, and public instrumentality of the State of South Dakota. The HEFA was created in 1972 to enhance the health and education of citizens of the State of South Dakota by providing healthcare, educational, and other non-profit institutions access to low cost capital. The State's accountability does not extend beyond appointing a voting majority of HEFA's board members. This relationship does not meet the GASB criteria of a component unit; therefore, HEFA is not included as part of the primary government reporting entity.

Separately Issued Financial Statements

Separately issued financial statements for the entities listed below are available from the Department of Legislative Audit, 427 South Chapelle, c/o 500 East Capitol, by calling (605) 773-3595, or online at

http://legislativeaudit.sd.gov/reports/reports.aspx:

- South Dakota Building Authority
- South Dakota Conservancy District
- Educational Enhancement Funding Corporation
- South Dakota Trust Company Receivership and Liquidation Captive Insurance Company
- South Dakota Housing Development Authority
- South Dakota Science and Technology Authority
- South Dakota Economic Development Finance Authority
- South Dakota Ellsworth Development Authority
- South Dakota Authority Captive Insurance Company
- South Dakota Property and Casualty Captive Insurance Company
- South Dakota Health and Educational Facilities Authority

Higher Education and South Dakota Value Added Finance Authority do not have separately issued financial statements.

C. Government-wide and Fund Financial Statements

The Government-wide Financial Statements include the Statement of Net Position and the Statement of Activities. The Statement of Net Position and the Statement of Activities report all nonfiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities are generally supported by taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The focus of the Government-wide Financial Statements and Notes to the Financial Statements is the primary government. A separate column is presented for each major discretely presented component unit and a column for all nonmajor discretely presented component units in the aggregate.

The Statement of Net Position presents the reporting entity's nonfiduciary assets and deferred outflows of resources less liabilities and deferred inflows of resources, with the difference reported as net position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program

revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included as program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the Government-wide Financial Statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements, with nonmajor funds being combined into a single column.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide Financial Statements

The Statement of Net Position and Statement of Activities are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the State receives value without directly giving equal value in exchange, include taxes, grants, and donations. Tax revenue is recognized in the fiscal year in which the related sales, income, or activity being taxed occurred. At June 30, 2018, there was \$19,825,086 of bank tax receipts that were not recognizable in the State's financial statements because a reasonable estimate was unable to be determined for how much is considered measurable. Revenue from grants and similar items are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period, or soon enough thereafter to pay liabilities of the current period. Sales tax, motor fuel taxes, grant revenue, investment income, and charges for goods and services are all considered to be susceptible to accrual if collected within 60 days of the end of the current fiscal year. Bank taxes are considered measurable when returns are filed, not when payments are received. All other revenue is considered to be measurable and available only when cash is received.

Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting. However, expenditures related to debt service, compensated absences, capital leases, and claims and judgments are recorded only when payment is due and payable.

Proprietary, Fiduciary, and Similar Component Units Financial Statements

The financial statements of the proprietary funds, fiduciary funds, and similar component units are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the Government-wide Financial Statements described above. Proprietary funds include both enterprise and internal service fund types.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenues and expenses not meeting this definition, such as subsidies and investment earnings, are reported as nonoperating.

Financial Statement Presentation

The State reports the following major governmental funds:

The General Fund is the State's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

The Transportation Fund accounts for dedicated state tax revenue for the construction, maintenance, and supervision of state highways and bridges and federal grants received by the Department of Transportation.

The Social Services Federal Fund accounts for federal grants received by the Department of Social Services to fund social welfare programs.

The Dakota Cement Trust Fund was created with the proceeds from the sale of the State Cement Plant which is invested by The South Dakota Investment Council. Transfers from this fund are made to the General Fund for the support of education in South Dakota.

The Education Enhancement Trust Fund primarily accounts for revenue from the Tobacco Settlement and securitization of future tobacco revenue. Income from the fund is used to fund education enhancement programs.

The State reports the following major proprietary funds:

The Clean Water State Revolving Fund is used to provide loans to local governments for wastewater, storm sewer, and nonpoint source pollution control projects.

The Drinking Water State Revolving Fund is used to provide loans to local governments for drinking water projects.

The Lottery Fund accounts for the operations of the State Lottery.

In addition, the State reports the following fund types:

Governmental Funds:

Special Revenue Funds account for specific revenue sources that are legally restricted or committed to expenditures for specific purposes. Special revenue funds account for federal grant programs, taxes with distributions defined by the State Constitution or state laws, and other resources restricted or committed as to purpose.

Debt Service Funds account for the accumulation of resources for the retirement of long-term debt principal and interest.

The Capital Projects Fund administered by the South Dakota Building Authority accounts for resources used for the acquisition or construction of major capital facilities, other than those financed by proprietary and fiduciary funds, or component units.

The Permanent Fund administered by South Dakota School and Public Lands accounts for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs.

Proprietary Funds:

Enterprise Funds report activities for which a fee is charged to external users for goods or services. This fund type is also used when the activity is financed with debt that is secured by a pledge of the net revenues from the fees.

Internal Service Funds report activities that provide goods or services to other funds, departments, or agencies of the primary government and its component units or to other governments, on a cost-reimbursement basis. These goods and services include information services, telecommunications, insurance risk pools, and fleet and travel management. In the Government-wide Financial Statements, internal service funds activity is included in Governmental Activities.

Fiduciary Funds:

Pension Funds account for resources that are required to be held in trust for the members and beneficiaries of the State's defined benefit pension plan.

Private Purpose Trust Funds account for resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments. The Common School Fund accounts for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support local school districts.

Agency Funds report assets and liabilities of resources held for temporary investment and remittance of the resources to individuals, private organizations, or other governments. Examples of funds in this category include local government tax collections by the Department of Revenue, child support payments collected by the Department of Social Services, and employee payroll withholdings by the State Auditor.

E. Budgetary Accounting

Agencies and departments submit budget requests to the Bureau of Finance and Management. The commissioner approves the Bureau's budget recommendation that is presented to the Governor for his consideration. The Governor's decisions are presented to the Legislature in the Governor's budget book.

The financial plan for each fiscal year is adopted by the Legislature by the passage of a general appropriations bill, special appropriations bills, and deferred maintenance appropriations. The formal budget approved by the Legislature does not include budgeting for revenues and other financing sources/uses.

The General Appropriations Act includes only appropriations for ordinary current and capital expenses of the executive, legislative, and judicial branches of the State. State law classifies appropriations into general, federal, and other fund budget classifications. The budget is controlled at the program level for personal services and operating expenses. Detailed appropriation information at this level is presented in the Available Funds Report that is available from the Bureau of Finance and Management.

The State's annual budget is prepared on the cash basis of accounting. Encumbrance accounting is utilized to reserve a portion of the budget to future periods for payment of purchase orders, contracts, and other commitments. Encumbrances at June 30, 2018 totaled \$30,797,618. The encumbrance amount is broken down by major fund and nonmajor fund below:

		Amount				
Fund	E	Encumbered				
Major Fund:						
General Fund	\$	5,902,956				
Transportation		6,264,907				
Non-Major:						
Non-Major Total		18,629,755				
Total	\$	30,797,618				

F. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position/Fund Balance

Cash and Cash Equivalents and Investments

Cash includes cash on hand, demand deposits, and foreign currency balances. Foreign currency cash balances are translated into United States Dollars (USD) using year-end spot foreign currency exchange rates. Cash equivalents include non-negotiable certificates of deposit, which are reported at cost. The State Investment Officer is responsible for the investment of state public funds. State public funds in the Cash Flow Fund are invested using the pooled deposit and investment concept which preserves the integrity of the fund cash balances of each state fund while simultaneously allowing the deposit and investment of aggregate idle fund monies. Investment income is allocated to participating funds per South Dakota law. Participating funds are determined by the Bureau of Finance and Management and approved by the Joint Interim Appropriations Committee of the Legislature. Investment income from the state trust funds is deposited into their respective funds.

Investments, as reported on the balance sheet, represent all investments not considered cash equivalents. Investments include corporate stocks, bonds, convertible debt, U.S. government and agency securities, mortgage backed securities, negotiable certificates of deposit, repurchase agreements, annuity contracts, investment contracts, international securities, private equity, and real estate. Investments are reported at fair value, in accordance with GASB Statement No. 72 – *Fair Value Measurement and Application*.

Investments denominated in foreign currencies are translated into USD using the year-end spot foreign currency exchange rates. Foreign exchange rate gains or losses are included with the net appreciation in fair value of investments.

The preparation of financial statements in accordance with GAAP requires management to make estimates that affect the reported amounts of net position as of June 30, 2018. Actual results could differ from those estimates.

For additional information see Note 3. Cash, Deposits, and Investments in the Notes to the Financial Statements.

Receivables

Receivables in the governmental and business-type activities consist mainly of amounts due from component units, other governments, loans, and customers.

Inventories

Inventories reported in the governmental fund types are reported at cost using the weighted average cost method. Proprietary fund type inventories are valued at the lower of cost or market, using the moving average cost method. Inventories reported in the Higher Education component unit discrete presentation are reported at cost using the FIFO method. Inventories are expensed using the consumption method.

Federal commodities on hand are reported as inventories, offset by unearned revenue. Commodities are reported at fair value established by the federal government at the date received. At June 30, 2018, the commodities inventory was reported in the amount of \$760,985.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the Government-wide Financial Statements. Capital assets are capitalized at cost, or estimated historical cost, if original cost records are not available. Donated property, plant, and equipment are valued at fair market value at the date of donation. Property, plant, and equipment acquired through capital leases are capitalized at fair market value at the inception of the lease. Donated capital assets, donated works of art and similar items, and capital assets received in service concession arrangements are capitalized at acquisition value.

All land is capitalized regardless of cost. Land improvements are capitalized when the cost of the improvement is \$50,000 or more. Buildings and building improvements are capitalized when the cost is \$100,000 or more. Equipment is capitalized when the cost of individual items is \$5,000 or more. Infrastructure assets are capitalized when the cost of the asset is \$1,000,000 or more for governmental funds and fiduciary funds, and \$50,000 or more for proprietary funds and component units. Intangible assets such as easements, patents, trademarks, internally generated computer software, etc. (as defined by GASB Statement 51) are capitalized when the cost is \$250,000 or more, except for purchased software licenses which are capitalized when the cost is \$5,000 or more. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

Depreciable capital assets of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

Land Improvements	20-30
Buildings and Improvements	15-50
Infrastructure	20-99
Equipment	3-17
Intangible Assets	3-25

The State owns works of art and historical treasures that have not been capitalized and depreciated because the assets cannot be reasonably valued and/or the assets have inexhaustible useful lives. Works of art and historical treasures include items such as statues, monuments, historical documents, paintings, artifacts, etc. Higher Education, a business-type activity discretely presented component unit, adopted the State's policy on capitalizing historical treasures and collections. The exceptions to this policy are the Memorial Art Center Collection at the South Dakota State University and the Oscar Howe paintings collection at the University of South Dakota. The collections are valued at the historical cost or estimated fair market value at the time of donation. The reported capitalized value of these collections was \$8,917,596 and \$375,585 respectively, as of June 30, 2018. All proceeds from the sale of items within these collections will be used to acquire other items for the collections.

Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net position by the government that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources are reported on the Government-wide Statement of Net Position in the applicable columns for governmental activities, business-type activities, or component units. Deferred outflows of resources of governmental funds, proprietary funds, and component units are reported in detail in their respective fund statements.

Long-term Obligations

In the Government-wide Financial Statements and Proprietary Fund Financial Statements, long-term obligations are reported as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the bonds outstanding method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Inflows of Resources

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources are reported on the Government-wide Statement of Net Position in the applicable columns for governmental activities, business-type activities, or component units. Deferred inflows of resources of governmental funds, proprietary funds, and component units are reported in detail in their respective fund statements.

Net Position and Fund Balances

"Net position" on the Government-wide, Proprietary, and Fiduciary Funds Financial Statements and "fund balance" on the Governmental Fund Financial Statements consists of assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position is reported in three categories:

Net investment in capital assets is a category reported in the Government-wide Statement of Net Position and consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances for bonds, notes, and other debts that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position consists of assets that have externally imposed constraints placed on them by either creditors, grantors, contributors, laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation of the State.

Unrestricted net position consists of assets that do not meet the definition of the two preceding categories.

The State's policy is that unrestricted amounts are spent first, when expenditures are incurred for purposes of which multiple resources are available within a fund.

In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the State is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances can be reported in five different categories:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable, as well as property acquired for resale.

Restricted fund balance consists of assets that have externally imposed constraints placed on them by either creditors, grantors, contributors, laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation of the State.

Committed fund balance represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the State Legislature through legislation passed into law.

Assigned fund balance includes amounts that are constrained by the State's intent to be used for specific purposes, but are neither restricted nor committed. Assignments of fund balance are created by the executive branch or by directive of the Appropriations Committee of the Legislature or in some cases by passage of an appropriation. In governmental funds other than the General Fund, assigned fund balance also represents the remaining amount that is not restricted or committed.

Unassigned fund balance represents the fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. Unassigned fund balance also includes negative residual balances in other governmental funds.

The State does not use separate funds to segregate restricted, committed, and assigned resources. It instead uses the accounting structure to track sources of resources. The State's policy is that assigned amounts are spent first, then committed, restricted, and finally unassigned when expenditures are incurred for purposes of which multiple resources are available within the accounting structure.

G. Compensated Absences

All full-time and permanent part-time employees earn vacation leave and sick leave. Employees earn fifteen days of vacation leave per year that can be accumulated to thirty days, except for employees with more than fifteen years of employment, who earn twenty days of vacation leave per year that can be accumulated to forty days. Upon termination, employees receive payment for their accumulated vacation leave. Employees earn fourteen days of sick leave per year. Unless dismissed for cause, employees who terminate after seven years of continuous employment receive payment for one-fourth of their accumulated sick leave balance, not to exceed four hundred eighty hours.

A liability has been recorded in the Government-wide and Fund Financial Statements for compensated absences in accordance with GASB statements.

H. Lottery Security Deposits

State law requires video lottery operators to furnish security to the Lottery. Security may be in the form of a surety bond, deposit in cash, an irrevocable letter of credit, or a certificate of deposit issued by a South Dakota financial institution with the Lottery endorsed on it as a payee. As of June 30, 2018, the amount of certificate of deposits and deposits in cash being held by the Lottery was \$482,344 and is included in restricted cash and investments on the balance sheet. The amount of \$5,953,400 was in the form of surety bonds or irrevocable letters of credit and is not reported on the Statement of Net Position.

I. Interfund Activity and Balances

Interfund activity, as a general rule, has been eliminated from the Government-wide Financial Statements. An exception to this rule is activities between funds reported as governmental activities and funds reported as business-type activities. An example is the transfer of profits from the Lottery Fund to the General Fund. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

In the fund financial statements, transfers represent flows of assets (such as goods or cash) without equivalent flows of assets in return, or a requirement for repayment. In addition, transfers are recorded when a fund receiving revenue provides it to the fund which expends the resources. An example is securities taxes collected by the Department of Labor and Regulation which are deposited into a special revenue fund but are transferred to and expended by the General Fund.

Interfund balances and interfund receivables and payables have been eliminated from the Statement of Net Position.

J. Pensions

For the purposes of measuring the net pension asset, deferred outflows of resources and deferred inflow of resources related to pensions and pension expense, information about the fiduciary net position of the South Dakota Retirement System (SDRS), and additions to/deductions from SDRS fiduciary net position have been determined on the same basis as they are reported by SDRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

2. ACCOUNTING CHANGES, RESTATEMENTS, AND RECLASSIFICATIONS

Implementation of Recent GASB Pronouncements

For the fiscal year ended June 30, 2018, the State implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB):

GASB Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions

GASB Statement 81, Irrevocable Split-Interest Agreements

GASB Statement 85, Omnibus 2017

GASB Statement 86, Certain Debt Extinguishment Issues

GASB Statement 75. This Statement establishes new accounting and financial reporting standards for defined benefit other postemployment benefits (OPEB) and defined contribution OPEB that are provided to the employees of state and local governmental employers. This Statement has no effect on the State of South Dakota.

GASB Statement 81. This Statement establishes accounting and financial reporting standards for irrevocable splitinterest agreements in which a government is a beneficiary. Split-interest agreements are a type of giving agreement used by donors to provide resources to two or more beneficiaries, including governments. Split-interest agreements can be created through trusts, or other legally enforceable agreements in which a donor irrevocably transfers resources to an intermediary. The intermediary administers these resources for the unconditional benefit of a government and at least one other beneficiary. This Statement has no effect on the State of South Dakota.

GASB Statement 85. This Statement establishes accounting and financial reporting requirements for blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits). This Statement has no effect on the State of South Dakota.

GASB Statement 86. This Statement establishes standards of accounting and financial reporting for in-substance defeasance of debt transactions in which cash and other monetary assets acquired with only existing resources, resources other than the proceeds of refunding debt, are placed in an irrevocable trust for the purpose of extinguishing debt. It also provides guidance relating to prepaid insurance associated on debt that is extinguished. This Statement has no effect on the State of South Dakota.

Restatements - Primary Government

Beginning fund balance for the South Dakota Soybean Research and Promotion Council fund, reported as a nonmajor governmental fund, increased by \$305,429 for an error in reporting revenues. The beginning net position reported for governmental activities in the Government-wide Statement of Activities increased by the same amount.

Beginning fund balance for the Department of Agriculture Corn Check-Off fund, reported as a non-major governmental fund, increased by \$1,125,903 for an error in reporting revenues. The beginning net position reported for governmental activities in the Government-wide Statement of Activities increased by the same amount.

Restatements - Component Units

The beginning net position balance reported for Higher Education, reported as a major discretely presented component unit, decreased by \$428,000 for errors in the reporting of cash, receivables, liabilities, capital assets and other miscellaneous reporting errors in prior years. This restatement will have the same effect on the government-wide financial statements.

3. CASH, DEPOSITS, AND INVESTMENTS

South Dakota Codified Laws (SDCL) and administrative rules authorize the types of deposits and investments. Most State public funds are invested in the Cash Flow Portfolio using the pooled deposit and investment concept. This concept allows for the deposit and investment of aggregate idle fund monies, while preserving the integrity of fund cash balances of each State fund.

Negative cash balances in funds participating in the Cash Flow Portfolio are reclassified at year-end as interfund payables. The cash and cash equivalents balance in the General Fund was reduced by \$23,668,051 for deficit cash balances that existed in various state funds at June 30, 2018, and is reported as an interfund receivable.

Certain funds and component units have statutory authority to make deposits and investments in specific types of securities, which may be more or less restrictive than the general authority covering the Cash Flow Portfolio. Additionally, bond provisions may require restrictions on types of investments. The State was in compliance with legal requirements governing deposit and investing activities.

Securities that are unclaimed at financial institutions are transferred to the State. The securities or proceeds can be claimed by the owners under established procedures. The Office of the State Treasurer administers any unclaimed securities per SDCL §43-41B, Uniform Unclaimed Property Act. Effective July 1, 2018, any stocks, bonds, and other negotiable instruments will be sold within one hundred eighty days of confirmed receipt, unless involved in an open claim. As of June 30, 2018, the securities, for which cost at the time of acquisition is not readily available, have a market value of \$1,026,639, and are shown as securities held as escheat property in the General Fund.

A. Primary Government

Investments of the Primary Government are grouped into four categories based upon investment objectives and risk. The first category is the Cash Flow Portfolio. This category represents the pooled public funds of the Primary Government (comprising 78% of the Cash Flow Portfolio) and discretely presented component units (comprising 22% of the Cash Flow Portfolio). Higher Education, the Science and Technology Authority, the Housing Development Authority, the Property and Casualty Captive Insurance Company, and the Authority Captive Insurance Company are discretely presented component units and have deposits and investments in the Cash Flow Portfolio. Because of the pooled deposit and investment concept of the Cash Flow Portfolio, the discretely presented component units' share of the portfolio cannot be broken out separately for risk disclosure purposes. For risk disclosure purposes, their share of the Cash Flow Portfolio is included in the Primary Government. The second category is the Retirement Portfolio. This category represents the investments of the South Dakota Retirement System. The third category is the Trust Portfolios. This category includes the portfolios of School and Public Lands, Dakota Cement Trust Fund, Education Enhancement Trust Fund and Health Care Trust Fund. The fourth category is Other Funds. This category represents funds that are not managed by the South Dakota Investment Council (SDIC) and includes Educational Enhancement Funding Corporation, Clean Water State Revolving Fund, Drinking Water State Revolving Fund, and the Vocational Education Program.

Deposits

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of a depository institution, the State of South Dakota will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The Cash Flow Portfolio's certificates of deposit and other deposits in state financial institutions in excess of depository insurance must be 100% collateralized. Collateral is valued at the lower of cost or market as reported in the quarterly call reports prepared by the qualified public depositories pursuant to SDCL 4-6A-7. Collateral is required to be segregated by each depository as approved by the South Dakota Public Deposit Protection Commission. Collateral may not be held in any safety deposit vault owned or controlled either directly or indirectly by the pledging financial institution, but must be deposited for safekeeping in a financial institution that is a member of the Federal Reserve. As of June 30, 2018, pledged collateral for one depository did not equal at least 100 percent of the total public deposits in excess of depository insurance. As a result, \$48,820 of the Cash Flow Portfolio's certificates of deposit was exposed to custodial credit risk.

The Retirement Portfolio has a formal deposit policy specific to custodial credit risk and foreign currencies. The policy states that the United States Dollar (USD) equivalent of any non-USD currency cannot exceed 2.0% of the portfolio fair value on a trade date +7 days basis. At June 30, 2018, the Retirement Portfolio had bank balances in foreign currencies in various foreign countries. These deposits are not collateralized or covered by depository insurance. As a result, the Retirement Portfolio was exposed to custodial credit risk of \$6,205,000.

The Trust Portfolios have a formal deposit policy specific to custodial credit risk. The policy states that the USD equivalent of any non-USD currency cannot exceed 2.0% of the portfolio fair value on a trade date +5 days basis. At June 30, 2018, the Trust Portfolios had bank balances in various foreign currencies. These deposits are not collateralized or covered by depository insurance. As a result, the Trust Portfolios were exposed to custodial credit risk of \$61,128.

The Other Funds have no formal deposit policy specific to custodial credit risk. At June 30, 2018, the Other Funds had bank balances that are not collateralized or covered by depository insurance. As a result, the Other Funds were exposed to custodial credit risk of \$108,261.

Investments

Securities Lending

State statutes and SDIC policies permit the use of investments for securities lending transactions. These transactions involve the lending of corporate debt, foreign equity securities, and domestic equity securities to broker-dealers for collateral in the form of securities, with the simultaneous agreement to return the collateral for the same securities in the future. All securities loans can be terminated on demand by either the SDIC or the borrower. As of June 30, 2018, the fair value of securities on loan was \$272,087,535, and the collateral held on the same date was \$278,286,884. At year-end, the SDIC has no credit risk exposure to borrowers because the amounts the SDIC owes the borrowers exceed the amounts the borrowers owe the SDIC.

The SDIC's securities custodian is an agent in lending securities and shall accept only U.S. Government securities or its agencies as collateral for any loan or loaned securities. The collateral required must equal 102% of fair value plus accrued interest for corporate debt securities, 102% of fair value for U.S. equity securities, and 105% of fair value for foreign securities except in the case of loans of foreign securities which are denominated and payable in USD, in which event the collateral required is 102% of fair value. The earnings generated from the collateral investments results in the gross earnings from lending activities, which is then split on a percentage basis with the lending agent.

The contract with the lending agent requires the agent to indemnify the SDIC if the borrowers fail to return the loaned securities and the collateral is inadequate to replace the securities lent.

The SDIC does not have the ability to pledge or sell collateral securities unless the borrower defaults, therefore no asset and corresponding liability for the collateral value of securities received has been established on the Statement of Net Position. Regarding restrictions on loans, the securities lending agreement does limit the total value of securities that can be out on loan on any given day.

Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. SDIC securities lending policies are detailed in the preceding Securities Lending section. As of June 30, 2018, the SDIC does not have custodial credit risk with regards to security lending collateral. The Other Funds do not have a policy for custodial credit risk. The Other Funds had custodial credit risk totaling \$251,030,683 in guaranteed investment contracts, Federal agency bonds, U.S. Treasury bonds, and U.S. Treasury notes not held in their name at June 30, 2018.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. SDIC policy limits or establishes ranges for the durations of the fixed income portfolios held by the various funds.

The Cash Flow Portfolio short term portfolio policy limits average portfolio duration to 2.88 years, and no holding's maturity can exceed 5.25 years. The Retirement Portfolio fixed income portfolio duration must fall between 70% and 130% of the duration of the FTSE US Broad Investment Grade (BIG) Index. The Cash Flow Portfolio intermediate term portfolio and the Trust Portfolios investment-grade fixed income portfolios are benchmarked to the duration of the FTSE BIG Index. No formal interest rate risk policy exists for the fixed income portfolios of the Other Funds.

The weighted modified durations (in years) of the various funds are listed in the following table (Dollars Expressed in Thousands):

	Cash Flow Portfolio Re		Retirement F	ortfolio	Trust Port	Trust Portfolios		unds
		Mod.		Mod.		Mod.		Mod.
Investment Type	Fair Value	Dur.	Fair Value	Dur.	Fair Value	Dur.	Fair Value	Dur.

Portfolio Modified Duration		3.01		2.79		4.35		4.94

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the State of South Dakota. SDIC policy establishes a percentage range and a normal allocation to various credit risk categories. The Cash Flow Portfolio short term portfolio can invest 4% of the portfolio into each corporate security rated Aaa or Aa, 2% in A-rated, 1% in Baa1 or Baa2, and 0.5% in individual holdings of corporate securities rating Baa3. The SDIC sets the investment policy annually for the Cash Flow Portfolio intermediate term portfolio, Trust Portfolios, and the Retirement Portfolio. This policy establishes the benchmark percentage invested in each asset category and the minimum and maximum range of each asset category.

The Clean Water State Revolving Fund and Drinking Water State Revolving Fund Master Trust Indenture requires any investment agreement to be with a guarantor whose long-term rating category is no lower than the two highest long-term rating categories.

Statutes authorize the Vocational Education Program to invest in the following: (1) direct obligations of the U.S.; (2) obligations issued by any agency or instrumentality of the U.S.; (3) certificates of deposit or time deposits of any bank which is a qualified public depository or any savings and loan association which is a savings and loan depository; (4) obligations of any solvent insurance company or other corporation existing under the laws of the U.S., or any state thereof provided the company or corporation is rated in one of the two highest rating classifications established by a standard rating service of insurance companies or a nationally recognized rating agency; (5) short-term discount obligations of the FNMA; or (6) obligations issued by any state of the U.S.

The Education Enhancement Funding Corporation does not have a formal policy on investment credit risk.

As of June 30, 2018, the portfolios held the following investments, excluding those issued by or explicitly guaranteed by the U.S. Government which are not considered to have credit risk. The investments are grouped as rated by Moody's Investors Service (Expressed in Thousands):

	Cash Flow Portfolio	Retirement Portfolio	Trust Portfolios	Other Funds
Moody's Rating	Fair Value	Fair Value	Fair Value	Fair Value
Aaa	\$ 442,066	\$ 2,035,317	\$ 532,438	\$ 30,935

Unrated		172,418	76,114	
Total	\$ 1,033,031	\$ 3,612,154	\$ 760,306	\$ 175,744

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. The Retirement and Trust Portfolios' exposure to foreign currency risk is derived from their positions in foreign currency and foreign currency-denominated equity investments. The Retirement and Trust Portfolios do not hedge foreign currency back to USD (to match the unhedged benchmark) but do allow hedging under certain circumstances when deemed appropriate by the State Investment Officer and portfolio manager.

The Retirement and Trust Portfolios' exposure to foreign currency risk at June 30, 2018, are as follows (Expressed in Thousands):

,	Re	tirement Port	folio	Trust Portfolios					
_	Equities U.S. Dollar	Cash U.S. Dollar		Equities U.S. Dollar	Cash U.S. Dollar				
Currency	Fair Value	Fair Value	Total	Fair Value	Fair Value	Total

Thai Baht	898		898						
Total Fair Value	\$1,048,091	\$ 6,204	\$ 1,054,295	\$ 75,421	\$61	\$ 75,482			

Investments with limited partnerships and certain global equity investments with outside managers, which are not included in the table above, may expose the State to additional foreign currency risk. For the Trust Portfolios, the total fair value of investments in real estate and private equity limited partnerships as of June 30, 2018, was \$167,625,093. For the Retirement Portfolio, the total fair value of investments in real estate and private equity limited partnerships as of June 30, 2018, was \$1,974,600,660. The total fair value of global equity investments and high-yield fixed income investments managed by outside managers was \$187,058,008 and \$22,989,263, respectively.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issuer. The Cash Flow Portfolio has a policy in place limiting its investments in individual holdings. Information regarding the Cash Flow Portfolio policy is located in the Credit Risk section. The SDIC does not have a formal policy in place to limit investments in any particular issuer for the Retirement Portfolio and Trust Portfolios. Additionally, there are no single issuer exposures (excluding those issued by or explicitly guaranteed by the U.S. Government, or involving mutual funds or investment pools) within the portfolios that comprise 5% of the overall portfolios at June 30, 2018.

Derivative Financial Instruments in Primary Government

Retirement Portfolio and Trust Portfolios

Derivatives are generally defined as a contract whose values depend on, or derive from, the value of an underlying asset, reference rate or index. The Retirement Portfolio is exposed to a variety of derivative products through the investment management of the SDIC and their outside managers. The Trust Portfolios utilized no derivative instruments in SDIC's internally managed portfolios, but may be exposed to a variety of derivative products through their outside managers. The following notes detail the derivative instruments used in the SDIC's internally managed portfolios. All of the SDIC's derivatives are classified as investment derivatives.

Futures Contracts

A futures contract is a contract to buy or sell units of an index or financial instrument at a specified future date at a price agreed upon when the contract is originated. The SDIC purchases and sells futures contracts as a means of adjusting the Retirement Portfolio's mix at a lower transaction cost than the transactions, which would otherwise occur in the underlying portfolios. During fiscal year ended June 30, 2018, S&P 500 futures and 10-year U.S. Treasury note futures were utilized. Upon entering into such a contract, SDIC pledges to the broker cash or U.S. government securities equal to the minimum initial margin requirement of the futures exchange. Additionally, the portfolio receives or pays a daily variation margin, which is an amount of cash equal to the daily fluctuation in value of the contract. The change in fair value of the futures contracts is presented in the Statement of Changes in Net Position as "Net appreciation in fair value of investments." The net change in fair value from futures contracts for fiscal year ended June 30, 2018 was (\$226,396,078).

At June 30, 2018, futures contracts outstanding were as follows:

	Open Position	Contracts	Notional Contract size	Fair Value (Exposure)
U.S. Treasury Note Future Due September 2018	Long	4,325	\$100,000 par value 6% U.S. Treasury note	\$ 519,810,983
S&P 500 Index Future Due September 2018	Short	15,370		\$ (2,091,472,750)

Foreign Currency Forward Contracts

The SDIC enters into foreign exchange forward contracts to manage foreign currency exposure, as permitted by portfolio policies. The fair values of the contracts are presented in the Statement of Net Position as "Investments at fair value – Equities." The change in fair value of the forward contracts is presented in the Statement of Changes in Net Position as "Net appreciation in fair value of investments." For fiscal year ended June 30, 2018, the net change in fair value from foreign currency forward contracts was \$1,251,454. At June 30, 2018, the foreign currency forward contracts outstanding were as follows:

		Maturity	Fair	Value (U.S.
Description	Notional Amount	Date		Dollars)
Forward Sale	(20,770,519) CHF	8/8/18	\$	(136,988)

Credit Risk

SDIC is exposed to credit risk on derivative instruments that are in asset positions. The SDIC attempts to minimize credit risk by entering into derivatives contracts with major financial institutions. At June 30, 2018, the net fair value of foreign currency forward contracts was \$0. This represents the maximum loss that would be recognized at the reporting date if all counterparties failed to perform as contracted.

Interest Rate Risk

The SDIC is exposed to interest rate risk on its 10-year U.S. Treasury Note futures contract. As interest rates increase, the value of the futures contract decreases.

Foreign Currency Risk

SDIC is exposed to foreign currency risk on its foreign currency forward contacts because they are denominated in foreign currencies. The net fair value of the foreign currency forward contracts in USD is (\$136,988).

Fair Value Measurement

Investments are reported at fair value as of June 30, 2018 to the extent available. GASB Statement No. 72- *Fair Value Measurement and Application*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are other than quoted prices included within Level 1 that are observable; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the hierarchy below.

The following tables summarize the Cash Flow Portfolio, Retirement Portfolio, Trust Portfolios, and Other Funds investments within the fair value hierarchy as of June 30, 2018 (Expressed in Thousands):

Cash Flow Portfolio:

		Cas	h Flow Fu	nd Portfolio

Equity securities classified in Level 1 of the fair value hierarchy are valued using quoted prices in active markets for identical securities as of the measurement date as issued by pricing vendors.

Equity securities classified in Level 2 of the fair value hierarchy are valued using a quoted price for a similar security in an active market, and valuations from various pricing vendors/brokers using observable inputs other than quoted prices for identical securities. Fixed income securities classified in Level 2 of the fair value hierarchy are valued using observable inputs other than quoted prices for identical securities. The prices are determined by the use of matrix pricing techniques maintained by the various pricing vendors for these securities. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

In the Retirement Portfolio, real estate funds classified in Level 3 of the fair value hierarchy are real estate alternative investments that invest primarily in overseas commercial real estate. These are investments which quoted prices are not readily available and are valued at estimated values as determined by the General Partner (GP). Investments are valued by the GP using one or more valuation methodologies with reference to the International Private Equity and Venture Capital Valuation Guidelines. The estimated fair values are subjective and based on judgment.

In the Trust Portfolios, the Other Fund classified in Level 3 of the fair value hierarchy is valued at zero. It is an investment in an alternative investment fund that invested in distressed and defaulted debt securities and equities of financially troubled companies. All positions in the fund have been liquidated and only cash remains. The fund holds contingent liabilities that offset cash. Due to the highly questionable outcome of the contingent liabilities it has been determined that a value of zero best reflects the fair value considering the information available as of June 30, 2018.

The portfolios may hold shares or interests in investments where the fair value of the investments are measured on a recurring basis using net asset value per share (or its equivalent) of the investment as a practical expedient. The NAV valuations are based on valuations of the underlying companies as determined and reported by the fund manager or general partner.

In the Retirement Portfolio, derivative instruments classified in Level 2 of the fair value hierarchy are valued using observable inputs other than quoted prices for identical securities. The foreign currency forward contract valuations are determined by interpolating FX rates for various settlement dates as of June 30, 2018.

The following table summarizes the fair value, unfunded commitments, and redemption rules of those investments as of June 30, 2018 (Expressed in Thousands):

Investments Measured at the NAV

			Cash Flow I	Fund Portfolio

a. Short Term Investment Funds. This type includes investments in open-end mutual funds that invest exclusively in high-quality, short-term securities that are issued or guaranteed by the U.S. government or by U.S. government agencies and instrumentalities. The fair value of the investment in this type has been determined using the NAV per share of the investment.

b. High Yield Bond Mutual Funds. This type includes an investment in one open-end mutual fund that invests mainly in a diversified group of high-yielding, higher risk corporate bonds with medium and lower range credit-quality ratings. The fair value of the investment in this type has been determined using the NAV per share of the investment.

c. Real Estate Funds. This type includes 15 (Trust Portfolios) and 26 (Retirement Portfolio) real estate funds that invest primarily in commercial real estate. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the portfolio's ownership interest in partners' capital. These investments can never be redeemed from the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over the next 20 years.

Because it is not probable that any individual investment will be sold, the fair value of each individual investment has been determined using the NAV per share (or its equivalent) of the portfolio's ownership interest in partners' capital.

d. Private Equity Funds. This type includes 11 (Trust Portfolios) and 36 (Retirement Portfolio) private equity funds that invest primarily in leveraged buyouts. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the portfolio's ownership interest in partners' capital. These investments can never be redeemed from the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over the next 20 years. Because it is not probable that any individual investment will be sold, the fair value of each individual investment has been determined using the NAV per share (or its equivalent) of the portfolio's ownership interest in partners' capital.

e. Other Funds. This type includes 2 other alternative investments that invest primarily in a broad range of debt, debtrelated, and real estate-related investments. The fair values of the investment has been determined using the NAV per share (or its equivalent) of the portfolio's ownership interest in partners' capital. These investments can never be redeemed from the fund. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over the next 5 years. Because it is not probable that any individual investment will be sold, the fair value of each individual investment has been determined using the NAV per share (or its equivalent) of the portfolio's ownership interest in partners' capital.

f. Emerging Markets Small Cap Equity Mutual Funds. This type included one investment in an open-end mutual fund that emphasizes broad diversification and consistent exposure to emerging market small company stocks. The fair value of the investment in this type has been determined using the NAV per share of the investment.

g. Multi Strategy Hedge Funds. This type includes two investments in funds that may invest in a wide range of asset classes in order to meet fund objectives. The fair values of the investments in this type have been determined using the NAV per share of the investments.

B. Component Units

Deposits

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of a depository institution, the component unit's deposits may not be returned to it. The Housing Development Authority deposit policy requires deposits in excess of the depository insurance maximums be collateralized 100%. Collateral must be deposited for safekeeping in a financial institution that is not owned or controlled either directly or indirectly by the pledging financial institution. The financial institution where the collateral is held must be a member of the Federal Reserve. The additional component units do not have deposit policies for custodial credit risk. As of June 30, 2018, the SD Science and Technology Authority's deposits were exposed to an immaterial amount of custodial credit risk that was resolved in July. The other component units had no deposits that were not collateralized or covered by depository insurance.

Investments

Custodial Credit Risk

Custodial credit risk is the risk that in the event of the failure of the counterparty, the component unit will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The component units do not have investment policies for custodial credit risk. At June 30, 2018, investments in the amount of \$1,670,498 were uninsured and unregistered, with the securities held by the counterparty, or by its trust department or agent, but not in the component unit's name.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Housing Development Authority has limits on the maturities of investments for their restricted accounts. Investments of the Capital Reserve accounts must provide for the purposes thereof as estimated by the Housing Development

Authority. The investments must not mature later than the final maturity of the related Series of the Bonds. The average duration of individual securities will not exceed twenty years. Investments of the Mortgage Reserve accounts must provide for the purposes thereof as estimated by the Housing Development Authority. The duration of fifty percent of individual securities will not exceed two years from the date of purchase or deposit. The Housing Development Authority assumes that its callable investments will not be called. The Housing Development Authority invests in mortgage pass-through securities issued by GNMA, FNMA, and FHLMC. Because prepayments of mortgages underlying these securities affect the principal and interest payments received by these securities, the securities are considered highly sensitive to interest rate risk.

The Economic Development Finance Authority limits the maturities of investments for its restricted accounts (all accounts other than the General Account) to terms of two years or less from the date of the investment.

The Ellsworth Development Authority and the Science and Technology Authority do not have policies for interest rate risk.

As of June 30, 2018, the Housing Development Authority and the Economic Development Finance Authority had investments maturing as follows (Expressed in Thousands):

		Ir	s)		
Investment Type	Fair Value	Less than 1	1 to 5	6 to 10	Greater than 10
U.S. Government Obligations	\$ 118,776	\$ 17,747	\$ 82,989	\$ 17,660	\$ 380
U.S. Treasury Notes	1,059	782	277		
Certificates of Deposit	13,160	6,284	6,876		
U.S. Agencies	861,261	117,079	48,572	44,992	650,618
Mutual Funds	169,673	169,673			
Municipal Bonds	366		285	81	
State Obligations	2,585		1,691	894	
Investment Agreements					
Total	\$ 1,166,880	\$ 311,565	\$ 140,690	\$ 63,627	\$ 650,998

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. It is the investment policy of the Housing Development Authority to invest in securities limited to direct general obligations of the U.S. Government, U.S. Government agencies, direct and general obligations of any state within the United States, mutual funds invested in securities mentioned above, and investment agreements secured by securities mentioned above. If securities are downgraded after purchase, the Authority will analyze the reason for the downgrade and determine what, if any, action is needed. Investments issued by or explicitly guaranteed by the U.S. Government are not considered to have a credit risk.

The investment management policy of the Economic Development Finance Authority limits investments in Corporate Bonds to those rated in either of the two highest rating categories by either Moody's Investors Service or Standard & Poor's Corporation.

The Ellsworth Development Authority and the Science and Technology Authority are limited to investments permitted by State statue.

As of June 30, 2018, the Housing Development Authority and Economic Development Finance Authority investments had the following ratings (Expressed in Thousands):

Moody's Rating	Fair Value							
Aaa	\$	654,006						
Aa		627						
Α		81,167						
Unrated		8,743						
Total Fair Value	\$	744,543						

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

As of June 30, 2018, the Economic Development Finance Authority permits the maximum portfolio exposure to permitted investments:

	Restricted	d Account	Unrestricte	ed Account
_	Portfolio	Exposure	Portfolio	Exposure
-	Total	Individual	Total	Individual
U.S. Governments	100%	100%	100%	100%
U.S. Agencies	100%	100%	100%	100%
Repurchase Agreements	50%	25%	50%	25%
Corporate Bonds	0%	0%	50%	10%
Municipal Bonds	0%	0%	50%	10%
Certificates of Deposit	100%	100%	100%	100%
Money Market Funds	25%	25%	25%	25%

The Housing Development Authority will minimize Concentration Credit Risk by diversifying the investment portfolio and reducing the impact of potential losses from any one type of security or issuer. As of June 30, 2018, Housing Development Authority's investments held 5% or more of the following issuers: Federal Home Loan Mortgage Corporation (12.07%) and Federal National Mortgage Association (24.67%).

Hedging Derivative Financial Instruments in Component Units

South Dakota Housing Development Authority

The Authority has entered into interest rate swap agreements in connection with issuing variable rate mortgage revenue bonds. The intentions of the swaps are to create synthetic fixed rate debt at a lower interest rate than achievable from long-term fixed rate bonds and to achieve the Authority's goal of lending to low and moderate-income first-time home buyers at below market fixed interest rates.

Swap Terms

The terms, including the fair values and counterparty credit ratings of the outstanding swaps as of June 30, 2018, are contained in the table below. The initial notional amounts of the swaps match the principal amounts of the associated debt. The Authority has purchased the right to terminate the outstanding swap balances at par value on dates that are generally 10 years after the date of issuance of the related bonds (Dollars Expressed in Thousands).

Bond Series	Current Notional Amount		Effective Date	Fixed Payable Rate	Variable Rate Received	Termination Date	Counterparty Credit Rating*	air Iue
Wells Fargo Bank								
2015 E-1	\$	25,000	12/17/2015	2.11%	66.4% of LIBOR plus 0.22%	11/01/2037	Aa1	\$ 902
2015 E-2		25,000	12/17/2015	66.4% of LIBOR plus 0.22%	22yr MMD plus 0.87%	11/01/2037	Aa1	267
2016 E-1		50,000	11/01/2016	2.21%	66.4% of LIBOR plus 0.23%	05/01/2037	Aa1	1,559

* Moody's Investors Service					1			

The fair values presented on the prior page were estimated by the Housing Development Authority's counterparty to the swaps. The valuation was determined by calculating the difference between the present values of each fixed cash flow to be paid and each floating cash flow to be received by the Authority based upon the current market yield curve. The present value factors for each cash flow are based on the implied zero coupon yield curve determined by current market rates. Additionally, the values of the call options are determined by calculating the present value of each predicted option outcome, whose interest rate prediction variance is determined by current market implied volatility. Together these calculations, along with consideration for non-performance risk, determine the current fair value of the Authority's swap contracts. The fair values in the table on the prior page represent the termination payments that would have been due had the swaps been terminated as of June 30, 2018. A positive fair value represents money due the Authority by the counterparty upon termination of the swap, while a negative fair value represents money payable by the Authority.

Swap Risks

Credit Risk

The terms of the swaps expose the Housing Development Authority to potential credit risk with the counterparty upon the occurrence of a termination event. The fair value of a swap represents the Authority's current credit exposure to the counterparty with which the swaps were executed. The Authority has credit risk exposure to its counterparties when the swap positions have a positive value. Several of the swap agreements require that, upon demand, a party post collateral to secure its obligation to make a termination payment to the extent the fair value exceeds a collateral threshold specified in the agreement. The collateral thresholds are based on the prevailing ratings, as determined by Moody's and Standard & Poor's, of each counterparty, in the case of the counterparties, or hedged bonds, in the case of the Authority. These bilateral requirements are established to mitigate potential credit risk exposure. As of June 30, 2018, neither the Authority nor any counterparty had been required to post collateral.

Basis Risk

The Authority incurs the potential risk that the variable interest payments on its bonds will not equal the variable interest receipts from its swaps. This basis risk exists because the Authority pays the actual variable rate on its bonds, but under the terms of its swaps receives a variable rate based upon the one-month, taxable LIBOR rate. Basis risk will vary over time due to inter-market conditions. For the year ended June 30, 2018, the weighted average interest rate on the Authority's variable rate debt associated with swaps was 1.16% per annum, while the weighted average interest rate on the swaps was 1.26% per annum. In order to reduce the cumulative effects of basis risk, the variable rate determination structure for interest receipts within the swap is based upon a regression analysis of the long-term relationship between variable tax exempt rates and the one-month taxable LIBOR rate.

Termination Risk

The Authority's swap contracts are based upon the International Swap Dealers Association Master Agreement, which includes standard termination events. The swap contracts may be terminated by either party if the other party fails to perform under the terms of the contract. Upon termination, a payment is due to one party irrespective of causality based upon the fair value of the swap. The potential termination risks to the Authority are the liability for a termination payment to the counterparty or the inability to replace the swap under favorable financial terms. To reduce the Authority's termination risk, the swap contracts limit the counterparty's ability to terminate due to the following Authority actions or events: payment default, other defaults that remain uncured for 30 days after notice, bankruptcy and insolvency.

Amortization Risk

The Authority may incur amortization risk because prepayments from the mortgage loan portfolio may cause the outstanding amount of variable rate bonds to decline faster than the amortization of the swap. To ameliorate amortization risk, call options were structured within the swaps to enable the Authority to manage the outstanding balances of variable rate bonds and notional swap amounts. Additionally, the Authority may terminate the swaps at market value at any time.

Tax Risk

The structure of the variable interest rate payments the Authority receives from its swap contracts are based upon the historical long-term relationship between taxable and tax-exempt short-term interest rates. Tax risk represents a risk that may arise due to a change in the tax code that may fundamentally alter this relationship. The Authority has chosen to assume this risk because it was not economically feasible to transfer to the swap counterparty.

Concentration Risk

The total outstanding bonds associated with swaps will be limited to thirty percent (30%) of the total of all outstanding bonds under the related indenture at the time bonds associated with swaps are issued. The total outstanding notional amount of swaps with a single counterparty will not exceed \$150,000,000.

Swap Payments and Associated Debt

As rates vary, variable-rate bond interest payments and net swap payments will vary. Debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same for their term, were as follows using rates as of June 30, 2018 (Expressed in Thousands):

Year-end		Variable-rat	e Bor	nd	Inte	rest Rate					
June 30	Pri	ncipal	Int	terest	Sw	ap – Net	Total				
2019	\$	110	\$	2,914	\$	(1,190)	\$	1,834			
2020		120		2,912		(1,045)		1,987			
2021		120		2,910		(1,047)		1,983			
2022		130		2,908		(1,050)		1,988			
2023		130		2,906		(1,052)		1,984			
2024-2028		2,150		14,488		(5,302)		11,336			
2029-2033		37,475		11,587		(4,189)		44,873			
2034-2038		38,195		3,473		(939)		40,729			
2039-2043		1,410		211		256		1,877			
2044-2048		1,740		82		99		1,921			
Total	\$	81,580	\$	44,391	\$	(15,459)	\$	110,512			

Rollover Risk

Rollover risk is the risk that a swap associated with a bond issue does not extend to the maturity of that debt. When the swap terminates, the associated debt will no longer have the benefit of the swap. The Authority did not have any rollover risk as of June 30, 2018.

Mortgage-backed Security (MBS) Forwards Contracts

The South Dakota Housing Development Authority has entered into forward contracts to hedge the interest rate risk of delivering MBS securities guaranteed by Ginnie Mae and Fannie Mae in the future, before the securities are ready for delivery (referred to as "to-be-announced" or TBA Mortgage-Backed Securities). These securities represent pools of qualified mortgage loans originated by Authority approved lenders. The forward contracts offset the financial impact to the Authority of changes in interest rates between the time of loan reservations made to originating mortgage lenders and the securitization and sale of such loans as Ginnie Mae or Fannie Mae securities. The forward contracts are considered hedging derivative instruments and the fair values were obtained from an external pricing specialist using current trade pricing for similar financial instruments in active markets that the Authority has the ability to access. A positive fair value represents money due the Authority by the counterparty, while a negative fair value represents money payable by the Authority.

Outstanding forward sales contracts as of June 30, 2018, are as follows:

Forward Contracts to sell TBA Mortgage- Backed Securities	Notional Amount June 30	Trade Date	Delivery Date	Coupon Rate	Fair Values June 30	Moody's Credit Rating

Fair Value Measurement

Investments are reported at fair value as of June 30, 2018, to the extent available. GASB Statement No. 72- *Fair Value Measurement and Application,* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are other than quoted prices included within Level 1 that are observable; Level 3 inputs are significant unobservable inputs.

The following table summarizes the Housing Development Authority and Finance Authority investments within the fair value hierarchy as of June 30, 2018 (Expressed in Thousands):

	 Total	Level 1	Level 2	Lev	el 3
Investments by Fair Value Level					
U.S. Treasuries	\$ 119,835	\$	\$119,835	\$	
U.S. Agencies	861,261		861,261		
Money Market Mutual Funds	169,673	169,673			
Municipal Bonds	366		366		
Certificates of Deposit	13,160		13,160		
State Obligations	 2,585		2,585		
Total Investments by Fair Value Level	\$ 1,166,880	\$169,673	\$997,207	\$	0
Hedging Derivative Instruments					
Interest Rate Swaps	\$ 3,379	\$	\$ 3,379	\$	
Forward MBS Contracts	 (112)		(112)		
Total Hedging Derivative Instruments	\$ 3,267	\$0	\$ 3,267	\$	0

For the Finance Authority, First National Bank serves as trustee uses a pricing service, ICE Data Pricing and Referencing, LLC., to value investments. ICE Data Pricing and Referencing, LLC. uses market approach pricing which utilizes models and pricing systems as well as mathematical tools and pricing analyst judgment. All investments are priced by this service, which is not quoted prices in an active market, but rather significant other observable inputs; therefore, the investments are categorized as Level 2.

The Housing Development Authority obtains its fair value pricing on investments from their third party trustee. There are multiple pricing methodologies which are used to value the Authority's investments. These methods include, but are not limited to, gathering pricing from multiple market sources and vendor credit information, observed market movements, sector news into the pricing applications and models, or manual methods. Money Market Mutual Funds classified as Level 1 are valued using quoted prices in active markets for those securities. Since the Authority's debt security investments are not actively traded on an exchange and rely on significant observable inputs for fair value pricing, these securities are classified as Level 2.

The Housing Development Authority obtains its fair value pricing on interest rate swaps and forward MBS contracts from a third party vendor. For interest rate swaps, the valuation was determined by calculating the difference between the present values of each fixed cash flow to be paid and each floating cash flow to be received based upon the current market yield curve. The present value factors for each cash flow are based on the implied zero coupon yield curve determined by current market rates. Additionally, the values of the call options are determined by current market implied volatility. Together these calculations, along with considerations from non-performance risks, determine the current fair value of the Housing Development Authority's swap contracts. The forward MBS contracts fair values were obtained from an external pricing specialist using current trade pricing for similar financial instruments in active markets that the Authority has the ability to access.

4. DISAGGREGATION OF RECEIVABLES AND PAYABLES

Drinking Water State Revolving Fund							76						76	
Non-major Enterprise Funds	209						1,124						1,333	
Internal Service Funds	262												262	
Total	\$ 230,074	\$	7,127	\$	30,688	\$	30,897	\$	629	\$	1,766	\$	301,181	

Transfers are used to: 1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; 2) move receipts restricted for debt service from the funds collecting the receipts to the debt service funds as debt service payments become due; and, 3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

In fiscal year 2018, \$210,972,168 of State appropriations was used to support state-run universities, which are reported under Higher Education, a component unit. The amounts are reported as expenditures in the Governmental Fund Balance Sheet and as expenses in the governmental activities column of the Statement of Activities. They are reported as revenues in the component unit's column of the Statement of Activities.

Construction has been temporarily interrupted on a portion of a large computer software project. The State is evaluating options to continue construction or to abandon all or a portion of the software project. This decision could result in a future year impairment of all or a portion of \$8.4 million reported as Construction in Progress – Intangibles (computer software) within the Governmental Activities of the Primary Government.

7. RETIREMENT PLANS

A. South Dakota Retirement System

General Description of the System

The South Dakota Retirement System (SDRS or the System) is a cost sharing, multiple employer public employee retirement system (PERS) established to provide retirement benefits for employees of the State and its political subdivisions. Members of SDRS include full time employees of public schools, the State, the Board of Regents, city and county governments, and other public entities. Public schools, cities, and counties may choose not to include certain full time employees in the System.

SDRS is considered a part of the State financial reporting entity and is included in the State's financial report as a pension trust fund. Authority for establishing, administering, and amending plan provisions is found in South Dakota Codified Law (SDCL) 3-12. Copies of the audited SDRS financial statements are available at <u>http://www.sdrs.sd.gov/</u>.

The South Dakota Retirement System Board of Trustees (the Board) is the governing authority of SDRS. The Board consists of 14 elected representatives from participating groups, two appointees of the governor, and an ex officio nonvoting representative of the South Dakota Investment Council. The elected representatives of the Board are two teacher members; two State employee member; a participating municipality member; a participating county member; a participating county member; a participating classified employee member; a current contributing Class B member other than a justice, judge, or magistrate judge; a county commissioner of a participating county; a school district board member; a justice, judge, or magistrate judge; an elected municipal official of a participating municipality; a retiree; and a faculty or administrative member employed by the Board of Regents. The two Governor's appointees consist of one head of a principal department established pursuant to SDCL 1-32-2, or one head of a bureau under the office of executive management and one individual from the private or public sector.

SDRS is a hybrid defined benefit plan designed with several defined contribution plan type provisions. The system includes three classes of members: Class A general members, Class B public safety and judicial members, and Class C Cement Plant Retirement Fund members. Members and their employers make matching contributions, which are defined in State statute. SDRS may expend up to 3% of the annual contributions for administrative expenses subject to approval by the executive and legislative branches of the State.

Members that were hired before July 1, 2017 are Foundational members. Class A Foundation members and Class B Foundation judicial members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirement benefits that do not meet the above criteria may be payable at a reduced level. Eligible spouses of Class A and B Foundation members will receive a 60% joint and survivor benefit.

Members that were hired on/after July 1, 2017 are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60% joint and survivor benefit, or a 100% joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5% of compensation funded by part of the employer contribution. The VRAs will receive investment earnings based on investment returns.

Class C Cement Plant Retirement Fund members have a normal retirement age of 65 and early retirement is age 55 with the required credited service. Class C Cement Plant provides for disability payments for those disabled on or before March 16, 2001. All members of the Cement Plant Retirement Plan on March 15, 2001 were 100% vested. Class C members may elect a single-life benefit, or joint and survivor benefits as described in their plan documents.

The annual increase in the amount of the SDRS benefits payable on each July 1st is indexed to the consumer price index (CPI) and based on SDRS funded status:

- If the SDRS fair value funded ratio is 100% or more 3.1% COLA
- If the SDRS fair value funded ratio is 80.0% to 99.9%, index with the CPI
 - * 90.0% to 99.9% funded 2.1% minimum and 2.8% maximum COLA
 - * 80.0% to 90.0% funded 2.1% minimum and 2.4% maximum COLA
- If the SDRS fair value funded ratio is less than 80% 2.1% COLA

The 2017 legislation modified the COLA, effective for the July 1, 2018 increase:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to the long-term inflation assumption of 2.25%.
- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:
 - * The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than 3.5%.

- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
 - * The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost of Living Adjustment.

SDRS is a qualified defined benefit retirement plan under Section 401(a) of the Internal Revenue Code and is exempt from federal income taxes. SDRS last received a favorable determination letter dated October 3, 2016, in which the Internal Revenue Service stated that the System, as then designated, was in compliance with the applicable requirements of the Internal Revenue Code. SDRS believes that the system currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Solution for income taxes has been included in SDRS's financial statements.

Summary of Significant Accounting Policies

SDRS's financial statements are prepared using the accrual basis of accounting in accordance with U.S. generally accepted accounting principles applicable to governmental accounting for a pension trust fund. Employee and employer contributions are recognized when due pursuant to formal commitment, as well as statutory requirements. Pension benefit payments are due the first day of the month following the retirement of a member, and the first of each month thereafter. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investments are reported at fair value, in accordance with GASB Statement No. 72. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additional required disclosures can be found in *Note 1, Summary of Significant Accounting Policies*.

Foreign exchange rate gains and losses are included with the net appreciation in fair value in investments. Futures contracts are marked to market based on quoted futures prices with changes in fair value reflected in the current period.

Interest is accrued in the period in which it is earned and dividend income is recorded on the ex-dividend date.

The arithmetically calculated money-weighted return net of fees was 7.94% in 2018. The money-weighted rate of return considers the changing amounts actually invested during a period and weights the amount of pension plan investment by the proportion of time they are available to earn during that period. The rate of return equates the sum of weighted external cash flows into and out of pension plan investments to the ending fair value of the pension plan investment.

The preparation of SDRS's financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Contributions

Covered employees are required by statute to contribute a percentage of their salary to SDRS as follows:

Class A members	6% of salary
Class B judicial members	9% of salary
Class B public safety members	8% of salary

All participating employers are required to contribute an amount equal to the members' contributions. Members may make an additional contribution of 1.5% of compensation for optional spouse coverage (closed to new enrollees after July 1, 2010).

SDRS is funded by fixed member and employer contributions at a rate established by South Dakota law. On an annual basis, an actuarial valuation of SDRS is performed to determine the adequacy of the fixed contributions to pay the normal costs and expenses, if the System is fully funded or pay the normal costs, expenses and amortize the unfunded actuarial accrued liability (UAAL) if the System is not fully funded. The June 30, 2017 actuarial valuation of the plan determined that the System is fully funded and that the statutorily required employer contributions meet the requirements for the annual required contributions of the employers under Governmental Accounting Standards Board (GASB) Statement No. 25, Financial reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans along with amendments included in Statement No. 67, Financial Reporting for Pension Plans; and the statutorily required employer contributions are sufficient to pay the employer normal cost and expenses.

Contributions for the primary government during fiscal year 2018 were \$26,231,321, during fiscal year 2017 were \$26,313,146, and during fiscal year 2016 were \$25,405,798. Contributions for the State's component units during 2018 were \$19,135,349, during fiscal year 2017 were \$19,150,787, and during fiscal year 2016 were \$18,149,387.

State's Proportionate Share of SDRS

For fiscal year 2018, the State and its component units used a July 1, 2016 to June 30, 2017 measurement date for reporting purposes.

The State's proportionate share of SDRS's collective net pension asset is 21.5782463% or \$1,958,248 using a June 30, 2017 measurement date. This percentage was measured based on all employer contributions from July 1, 2016 through June 30, 2017. Pension revenues for the state were \$43,905,980 and contributions subsequent to the measurement date were \$26,231,321. The State's proportionate share decreased by .6899573% over the prior fiscal year's proportionate share of 22.2682036%.

The State's component unit's proportionate share of SDRS's collective net pension asset is 15.7102259% or \$1,425,719 using a June 30, 2017 measurement date. This percentage was measured based on all employer contributions from July 1, 2016 through June 30, 2017. Pension revenues for component units were \$31,721,903 and contributions subsequent to the measurement date were \$19,135,349. The State's component unit's proportionate share decreased by .2135693% over the prior fiscal year's proportionate share of 15.9237952%.

The components of the net pension asset of the System at June 30, 2017, were as follows:

259%
327,879,049
329,304,768)
(1,425,719)

Fiduciary Net Position as a Percentage		
of Net Pension Liability	100.1%	100.1%

Actuarial Assumptions - The total pension liability was determined by an actuarial valuation as of June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation:	2.25%
Salary Increase:	6.50% at entry to 3.00% after 25 years of service
Discount Rate:	6.50%, net of pension plan investment expenses

Mortality rates were based on 97% of the RP-2014 Mortality Table, projected generationally with Scale MP-2016, white collar rates for females and total dataset rates for males. Mortality rates for disabled members were based on the RP-2014 Disabled Retiree Mortality Table, projected generationally with Scale MP-2016.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period of July 1, 2011 to June 30, 2016.

Discount rate – The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that matching employer contributions will be made at rates equal to the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension (asset) liability.

Investments – The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	58%	4.8%
Fixed Income	30%	1.8%
Real Estate	10%	4.6%
Cash	2%	0.7%
Total	100%	

Sensitivity of (asset) liability to changes in the discount rate – The following presents the net pension (asset) liability of the State's proportionate share of SDRS's collective net pension asset of \$1,958,248 using a June 30, 2017 measurement date, calculated using the discount rate of 6.50%, as well as what the System's net pension (asset) liability would be if it were calculated using a discount rate that is 1% point lower (5.50%) or 1% point higher (7.50%) than the current rate:

	Current					
	1%		Discount Rate		1% Increase	
State's Proportionate Share of SDRS's Net Pension (Asset) Liability	\$	358,652,798	\$	(1,958,248)	\$	(295,612,910)
Discretely Presented Component units Proportionate Share of SDRS Net Pension (Asset) Liability		261,120,240		(1,425,719)		(215,223,496)

Deferred Outflows and Inflows of Resources Related to Pensions – The Deferred Outflows and Inflows of Resources related to pensions at June 30, 2018, were as follows:

State of South Dakota Deferred Outflows and Inflows of Resources Related to Pensions (Expressed in Thousands)

		Primary Go	overnm	ent	Discretely Presented Component Units				
Source	Ou	eferred tflows of sources	In	eferred flows of sources	Ou	eferred atflows of esources	In	eferred flows of sources	
Differences between Expected and Actual Experience	\$	31,377	\$		\$	22,844	\$		
Changes in Assumptions		152,046				110,699			
Net Differences between Projected and Actual Earnings on Pension Plan Investments				37,649				27,410	
Changes in Proportionate Share and Differences between Contributions and Proportionate Share of Contributions		2,146		514		1,279		71	
Contributions Subsequent to the Measurement Date		26,231				19,134			
Total	\$	211,800	\$	38,163	\$	153,956	\$	27,481	

The \$26.2 million and the \$19.1 million reported above as deferred outflows of resources by the primary government and the discretely presented component units are the result of employer contributions made subsequent to the measurement date of June 30, 2017. These contributions will be recognized as an increase of the net pension asset in the upcoming year. The remaining amounts reported above as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows (dollars expressed in thousands):

Recognition of Remaining Deferred Outflows and (Inflows) of Resources

Year Ending June 30		Primary vernment	Discretely Presented Component Units				
2019	\$	39.538	\$	28,786			
2020	•	66,741	Ŧ	48,596			
2021		49,168		35,802			
2022		(8,041)		(5,844)			
Total	\$	147,406	\$	107,340			

B. Department of Labor Employment Security Retirement Plan

Employees of the Department of Labor and Regulation hired prior to July 1, 1980 had the option to become a member of the SDRS or maintain membership in the Employment Security Retirement Plan. Per SDCL 61-2-15, the Department of Labor and Regulation may establish this retirement program and contract with a retirement plan administrator selected by the employee's retirement board. In addition this SDCL further specifies that no obligation may be incurred against the State's General Fund to pay for this program. The assets of the plan are not included in the accompanying financial statements because the assets are remitted to a third-party who administers the plan for the participants. The State has no liability for losses under the plan. The Employment Security Retirement Plan was established as a defined benefit single employer plan administered through a private insurance carrier, however; the plan can be changed at any time. If the plan should terminate, the full amount in the employee account will be used to provide a retirement benefit to the employee. The plan assets over and above employee accounts will be used up on a priority basis to provide retirement income for plan members.

On July 1, 2017, the most recent actuarial valuation date, the plan had 6 active participants, 1 vested terminated participant, and 209 retired participants and beneficiaries.

8. DEFERRED COMPENSATION PLAN

The State of South Dakota (through the South Dakota Retirement System) maintains a deferred compensation plan known as the Supplemental Retirement Plan (SRP), created in accordance with Internal Revenue Code Section 457. The SRP is available to all public employees and permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the SRP, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are at all times held in trust for the exclusive benefit of the participants until made available to a participant or the participant's beneficiary. The State has no liability for losses under the plan.

The assets of the deferred compensation plan are not included in the accompanying financial statements because the assets are remitted to a third party who administers and markets the plan for the participants. A copy of the South Dakota Retirement System financial statements is available to the public at <u>www.sdrs.sd.gov</u>.

9. SPECIAL PAY PLAN

The State of South Dakota (through the South Dakota Retirement System) offers the Special Pay Plan (SPP) that was established in July 2004 as a qualified plan pursuant to Internal Revenue Code Section 401(a) under the administrative responsibility of the SDRS Board of Trustees. South Dakota state government and Higher Education are participating units and every state political subdivision may become a participating unit in the plan. The SPP mandates that qualifying employees (over age 55 and \$600 or more in special pay) of participating units defer 100% of their special lump-sum termination pay to the plan. The participating unit transfers the deferred pay to the fund. This deferred pay is available to a participant immediately after termination, upon later retirement, or to beneficiaries or an estate upon the participant's death. A copy of the South Dakota Retirement System financial statements is available to the public at www.sdrs.sd.gov.

10. FUND BALANCES AND NET POSITION

Fund Balance Classifications - Governmental Funds

The following table provides additional detail regarding the fund balances reported on the Governmental Fund Balance Sheet at June 30, 2018, (Expressed in Thousands):

* This amount includes \$132,366,000 of equity from the Budget Reserve established by the 1991 South Dakota Legislature and \$44,000,000 of equity from the General Revenue Replacement Fund established by the 2015 South Dakota Legislature, as discussed further in the following paragraphs.

Budget Reserve Account

The 1991 South Dakota Legislature established a budget reserve funded from any unobligated cash in the General Fund. The maximum balance of the budget reserve is 10% of the prior year's General Fund appropriation. Expenditures out of the budget reserve fund shall only be used by special appropriation (which requires a two-thirds vote of all the members of each house of the Legislature) and shall only redress such unforeseen expenditure obligations or such unforeseen revenue shortfalls as may constitute an emergency pursuant to South Dakota Constitution, Article III, Section 1. The balance in the budget reserve at June 30, 2018, was \$132,366,000 and is reported as unassigned fund balance within the General Fund.

General Revenue Replacement Fund

House Bill 1050, passed during the 2015 Legislative Session, created the General Revenue Replacement Fund (GRRF). This fund is to be used to balance the General Fund annual budget due to an unforeseen revenue shortfall. Revenues deposited in the GRRF include unobligated General Fund cash remaining at the end of a fiscal year after the transfer into the Budget Reserve, if the amount in the GRRF does not exceed 15% of the General Fund appropriations in the General Appropriations Act for the previous fiscal year. The balance in the GRRF at June 30, 2018, was \$44,000,000 and is reported as unassigned fund balance within the General Fund.

General Fund

GASB 54

Since the implementation of GASB 54 in fiscal year 2011, 12 statutorily created funds no longer qualify as Special Revenue Funds and are required to be combined with the State's General Fund. As of June 30, 2018, the following equity balances are included within the State's General Fund in accordance with GASB 54 (Expressed in Thousands):

Fund Balance - June 30, 2018 as reported	\$ 338,140
Less: Statutorily Created Funds Combined with the General Fund	
Tourism Promotion - assigned for Tourism Promotion	3,250
Investment Council Operating - assigned for Other	2,135
Private Activity Bond - assigned for Other	464
Teen Court - assigned for Other	14
Proof of Concept - assigned for Economic Development	10
Fine Arts - assigned for Other	284
Economic Development - assigned for Economic Development	709
Local Infrastructure Improvement - assigned for Economic Development	5,691
Workforce Education - assigned for Education	3,777
Extraordinary Litigation Expense - unassigned	(822)
Legislative Contingency Fund - unassigned	845
Unclaimed Property - unassigned	27
Fund Balance - June 30, 2018 excluding GASB 54 combinations	\$ 321,756

The Immigrant Investor Program (EB-5 Program)

In evaluating the contract between SDRC, Inc. and GOED, relating to the EB-5 program, it was determined the SDRC Indemnification Fund One Account should be reported in the State's General Fund. As of June 30, 2018, the following equity balance was included within the State's General Fund (Expressed in Thousands):

The Immigrant Investor Program (EB-5 Program):

Fund Balance - June 30, 2018 excluding GASB 54 combinations	\$ 321,756
Less: SDRC Funds Combined with the General Fund	
SDRC Indemnification Fund One Account - restricted for Economic Development	3,300
Fund Balance - June 30, 2018 excluding all combinations	\$ 318,456

Net Position Restricted by Enabling Legislation

The Government-wide Statement of Net Position reports \$1.75 billion of restricted net position for the primary government of which \$165.6 million was restricted by enabling legislation. Restrictions imposed by enabling legislation could be changed by future legislative action.

Funds Held as Permanent Investments

Funds held as permanent investments represent amounts that have been legally restricted for the purpose of providing a long-term source of investment income. Funds held in special revenue funds for this purpose have their principal balance classified as nonspendable in the governmental fund financial statements since these amounts are not available for appropriation. In the Government-wide Statement of Net Position, the principal balance is shown as nonexpendable and the investment earnings remaining in these funds at June 30, 2018, is shown as expendable.

Education Enhancement Trust Fund. This fund consists of monies received from the Tobacco Settlement Agreement, monies transferred from the Tobacco Securitization Fund, monies from the Youth-at-Risk Fund and General Fund appropriations for scholarship purposes. The Fund is authorized by state law to make an annual distribution equal to 4.0% of its market value (less the investment expenses) into the General Fund for educational enhancement programs. Article XII, section 6 of the Constitution of the State of South Dakota also states that, "the Education Enhancement Trust Fund may not be diverted for other purposes, nor may the principal be invaded unless appropriated by a three-fourths vote of all the members-elect of each house of the legislature."

Health Care Trust Fund. This fund is authorized by state law to make an annual distribution equal to 4.0% of its market value (less the investment expenses) into the General Fund for health care related programs. Article XII, section 5 of the Constitution of the State of South Dakota also states that, "the Health Care Trust Fund may not be diverted for other purposes, nor may the principal be invaded unless appropriated by a three-fourths vote of all of the members-elect of each house of the legislature."

Permanent Fund. This fund is administered by the Office of School and Public Lands and accounts for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs.

Fund	E	Expendable	able Nonexpendable		Total Restriction		
Education Enhancement Trust	\$	184,978	\$	397,235	\$	582,213	
Health Care Trust	56,089		85,631			141,720

Total	\$	240,682	\$	539,870	\$	780,552	

These balances at June 30, 2018, are summarized as follows (Expressed in Thousands):

Individual Fund Deficits

The following individual funds had deficit fund equity at June 30, 2018 (Expressed in Thousands):

Fund Type/Fund	Deficit		
Internal Service:			
State Worker's Compensation	\$ 26,377		
Special Revenue:			
State Fire Suppression	9,267		
Law Enforcement Revolving	370		
Land Acquisition & Development	150		
Animal Damage Control	98		
Public Utilities Commission Federal	85		
Emergency Management Federal	58		

11. COMMITMENTS

At June 30, 2018, the Primary Government had commitments of \$862,899,563, and the State's discretely presented component units had commitments of \$164,096,788 broken down by fund as follows:

Primary Government

Major Governmental Funds

General Fund: The total amount committed for the General Fund is \$72,068,842 broken down by departments as follows:

- Department of Corrections has commitments totaling \$1,000,000 for utilizing towards building repairs and maintenance.
- Bureau of Administration has commitments totaling \$4,543,016 for multiple statewide maintenance and repair projects.
- Department of Education has commitments totaling \$10,088,576 for grants, computer systems maintenance, and various K-12 programs.
- Bureau of Information and Telecommunications has commitments totaling \$5,614,095 for various service contracts and encumbered purchase orders.
- Department of Social Services has commitments totaling \$50,823,155 for alcohol and drug services, community mental health services, food services, janitorial services, and various other contractual commitments.

Transportation Fund: The total amount committed for the Transportation Fund is \$316,032,280 broken down by departments as follows:

- Department of Transportation has commitments totaling \$315,390,866 for construction commitments, various highway projects, work in progress, maintenance projects such as weed spraying, asphalt and concrete surface repairs, bridge repairs, pavement markings, drainage repairs, deer and debris pickup, snow plowing, and street sweeping.
- Department of Public Safety has commitments totaling \$641,414 for purchase orders.

Social Services Federal Fund: Department of Social Services has commitments totaling \$48,187,486 for various contractual commitments.

Nonmajor Governmental Funds

Capital Projects Fund: South Dakota Building Authority has commitments totaling \$44,237,324 for contracts and other construction commitments.

Education Federal Fund: Department of Education has commitments totaling \$49,406,924 for various grants, providing professional coaching for Birth to Three Bright Beginnings, and various K-12 programs and support.

Labor Fund: Department of Labor and Regulation has commitments totaling \$1,352,585 for various grants and contractual commitments.

Health Federal Fund: Department of Health has commitments totaling \$8,170,280 for clerical services, maintenance of several computer systems, medical case management services, HIV prevention services, covered breast and cervical cancer screening services, WIC misuse investigations, and mass reach communication services for the South Dakota Tobacco Control Program.

Governor's Office and State Development Federal Fund: Governor's Office of Economic Development has commitments totaling \$13,194,605 for SD Works Loan, Community Development Block Grant, and Energy Efficiency Community Block Grant Loan Program.

Public Safety Emergency Management Fund: Department of Public Safety has commitments totaling \$1,425,661 for grant payments, to instruct emergency management courses, and update SD multi-hazard plan.

Natural Resources Federal Fund: Department of Environment and Natural Resources has commitments totaling \$2,172,085 in federal subgrant outstanding obligations.

Game and Fish Fund: Department of Game, Fish, and Parks (GFP) has commitments totaling \$1,742,159 for call center for real time hunting and fishing, GFP BB Gun Range, and encumbered purchase orders.

Parks and Recreation Fund: Department of Game, Fish, and Parks has commitments totaling \$957,136 for various contractual commitments.

Health Fund: Department of Health has commitments totaling \$1,759,015 for clerical services, medical case management, covered breast and cervical cancer screenings services, and courier services for the rapid of samples to the Public Health Laboratory and Correctional Health.

Motor Vehicle Fund: Department of Public Safety has commitments totaling \$8,726,405 for encumbrances and contracts for driver's licensing services.

Revenue Fund: Department of Revenue has commitments totaling \$12,625,343 for the centralized production and distribution of license plates.

Future Fund: Governor's Office of Economic Development has commitments totaling \$15,720,720 for future fund grants.

Water and Environment Fund: Department of Environment and Natural Resources has commitments totaling \$30,290,610 for consolidated water facilities construction program, solid waste management program, and SWRMS grants/loans.

Energy Conservation Fund: Governor's Office of Economic Development has commitments totaling \$657,790 for School Loan Program and Ethanol Infrastructure Program.

Other Nonmajor Governmental Funds: The total amount committed for the Other Nonmajor Special Revenue Funds is \$59,782,827 broken down by agency as follows:

- Tourism has commitments totaling \$9,880,000 to be used for public relations; advertising consultants; and to design, fabricate, and install exhibits.
- Governor's Office of Economic Development has commitments totaling \$3,860,063 for local infrastructure improvement program grants.
- Unified Judicial System has commitments totaling \$612,818 for rural attorney contracts and office equipment.
- Department of Public Safety has commitments totaling \$30,350,894 for highway safety grant payments, produce public safety announcements, deliver announcements for public education partnership program, computer system installation and support, conducting surveys, provide support and monitoring of educational opportunities, and new 911 system designing and maintenance.
- Department of Health has commitments totaling \$3,702,567 for covered breast and cervical cancer screening services, HIV prevention services, and various activities aimed at tobacco prevention and control.
- Department of Education has commitments totaling \$2,963,716 for various grants and contractual commitments.
- South Dakota Soybean Research and Promotion Council has commitments totaling \$4,221,505 for various contractual projects.
- Department of Social Services has commitments totaling \$1,591,264 for medical transcription services, alcohol and drug services, and various other contractual commitments.
- South Dakota Animal Industry Board has \$2,600,000 construction commitments.

Major Proprietary Funds

Clean Water State Revolving Fund: Department of Environment and Natural Resources has commitments totaling \$78,545,532 worth of loan commitments with borrowers.

Drinking Water State Revolving Fund: Department of Environment and Natural Resources has commitments totaling \$44,779,151 worth of loan commitments with borrowers.

Nonmajor Proprietary Funds

Self-Insurance Fund: Bureau of Human Resources has commitments totaling \$9,247,062 for claims administration, medical management, and wellness services.

Accounting and Payroll Fund: Bureau of Finance and Management has commitments totaling \$797,363 for various consulting fees.

Revolving Economic Development and Initiative Fund: Governor's Office of Economic Development has commitments totaling \$26,003,803 for REDI Fund loans.

Information Services Fund: The Bureau of Information and Technology has commitments totaling \$5,317,953 for encumbrances and services contracts.

Telecommunications Fund: The Bureau of Information and Technology has commitments totaling \$8,731,485 for encumbrances and services contracts.

Other Nonmajor Proprietary Funds: Department of Public Safety has commitments totaling \$967,137 to upgrade current computer system.

Discretely Presented Component Units

Housing Authority: South Dakota Housing Development Authority has commitments totaling \$78,548,345 to fund the Homeownership Mortgage Program.

Science and Technology Authority: South Dakota Science and Technology Authority has commitments totaling \$2,420,000 for the remaining committed amount for xenon procurement.

Higher Education: Higher Education has \$83,128,443 of construction and coaching contract commitments.

12. SELF-INSURANCE

A. Workers' Compensation Benefits and Unemployment Insurance

Various funds accumulate assets to cover risks that the State incurs in its normal operations. The State (rather than an insurance carrier) assumes the risk associated with claims of state employees for unemployment compensation benefits. "Premiums" charged to state funds to cover the costs of claims servicing and claims payments are based on a percentage of wages paid to state employees. Related transactions are accounted for in the State Unemployment Compensation Fund.

The State is self-insured for workers' compensation through the creation of reserves derived from a percentage of wages paid to state employees. This activity is accounted for in an internal service fund. Claims payable for workers' compensation is reported using an actuarial estimate based on historical experience that includes actual claims submitted as well as claims incurred, but not reported. Allocated claim adjustment expenses (those relating to a specific claim) are included in the determination of claims payable. Unallocated claim adjustment expenses are not included. Estimated recoveries on unsettled and/or settled claims reduce claims liability and are considered in the actuarial estimate. The claims liability is funded as claims are paid resulting in an actuarially determined unfunded liability of \$26,457,851 at June 30, 2018. The Workers' Compensation Fund liability at June 30, 2018, and the changes to the liability during fiscal years ended June 30, 2018 and 2017 listed on the following page were as follows (Expressed in Thousands):

FY2018

FY2017

112010	112017
\$ 27,103	\$ 25,941
5,732	5,728
1,341	(263)
7,073	5,465
1,217	1,393
2,969	2,910
4,186	4,303
\$ 29,990	\$ 27,103
	5,732 1,341 7,073 1,217 2,969 4,186

B. Health Insurance

The State (rather than an insurance carrier) assumes substantially all risk associated with claims of covered public employees for health insurance (However, an insurance carrier provides claims administration services for health insurance). The health and life insurance programs are accounted for in the Self-Insurance Fund, reported as an internal service fund. "Premiums" are charged to state funds for all covered employees. Employees may purchase varying levels of health and/or life coverage for their spouses and/or dependents. Effective January 1, 2014, the life insurance program switched from being self-insured to a fully insured product. Claims payable for health insurance is reported using an actuarial estimate based on historical experience that includes actual claims submitted as well as claims incurred, but not reported. Allocated claim adjustment expenses are included in the determination of claims payable. Unallocated claim adjustment expenses are not included. Estimated recoveries on unsettled and/or settled claims reduce claims liability and are considered in the actuarial estimate. Allocated claim adjustment expenses are not included.

The health insurance program liability at June 30, 2018 and the changes to the liability during fiscal years ended June 30, 2018 and 2017 were as follows (Expressed in Thousands):

..

	Health Insurance		
	FY2018	FY2017	
Unpaid claims and claim adjustment expenses			
at beginning of fiscal year	\$ 13,651	\$ 12,375	
Incurred claims and claim adjustment expenses	118,496	116,250	
Payments:			
Claims and claim adjustment expenses attributable			
to insured events of current fiscal year	105,800	102,599	
Claims and claim adjustment expenses attributable			
to insured events of prior fiscal years	13,651	12,375	
Total payments	119,451	114,974	
Unpaid claims and claim adjustment expenses			
at end of fiscal year	\$ 12,696	\$ 13,651	

C. Public Entity Pool for Liability

The State is insured through a Public Entity Pool for Liability Fund (PEPL), reported as an internal service fund. The PEPL Fund covers risks associated with automobile liability and general tort liability (including public officials' errors and omissions liability, medical malpractice liability, law enforcement liability, and products liability).

All funds and agencies of the State participate in the PEPL Fund. The PEPL Fund allocates the cost of providing claims servicing and claims payment by charging a "premium" to each fund and agency based on the number of automobiles titled to each agency (for automobile liability) or approved full-time employees (for general tort liability). The PEPL Fund initially limited claims to \$1,000,000 per occurrence, subject to limitations set forth in SDCL 3-22. The State claimed sovereign immunity for all other tort liabilities. A State Supreme Court opinion allows noneconomic damages against employees of the State while they are performing ministerial acts; therefore, beginning in FY1996, the PEPL Fund coverage document was amended to provide liability coverage for noneconomic damages that are the result of these acts and commercial reinsurance was purchased. For the current fiscal year, the State purchased reinsurance for claims costs over \$500,000 with 100% of the remaining \$500,000. Claims expenses and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred, but not reported, based on historical experience. Allocated and unallocated claim adjustment expenses are included in the determination of claims payable. Estimated recoveries on unsettled and/or settled claims reduce claims liability and are considered in the actuarial estimate. At the end of fiscal year 2018, \$5,388,955 of the net position balance in the PEPL Fund was designated for future catastrophic losses.

The PEPL Fund liability at June 30, 2018 and the changes to the liability during fiscal years ended June 30, 2018 and 2017 were as follows (Expressed in Thousands):

EV2019

EV2017

	FIZ	018	F1	12017
Unpaid claims and claim adjustment expenses at beginning of fiscal year Incurred claims and claim adjustment expenses	\$	4,046	\$	4,525
Provision for insured events of current fiscal year		1,970		627
Changes in provision for insured events of prior fiscal years		311		401
Total incurred claims and claim adjustment expenses		2,281		1,028
Payments:				
Claims and claim adjustment expenses attributable to insured events of current fiscal year		259		254
Claims and claim adjustment expenses attributable to insured events of prior fiscal years		1,465		1,253
Total payments		1,724		1,507
Unpaid claims and claim adjustment expenses at end of fiscal year	\$	4,603	\$	4,046

D. Risk Management

The State is commercially insured for aircraft and crime bonds through outside insurance companies. Entities participating in these insurance coverages are only billed for premiums applicable to their coverage needs. Prior to April 13, 2015, the State was uninsured for property losses with the exception of all bonded buildings, all higher education facilities and buildings, and certain other revenue-producing buildings that are covered through outside insurance companies. On April 13, 2015, additional insurance was purchased resulting in the majority of all State buildings being covered. Beginning October 1, 2015, the South Dakota Property and Casualty Insurance Company, a component unit of the State of South Dakota, started providing property, including content, business income, and extra expense coverage on the State's buildings.

13. OPERATING LEASES

The State of South Dakota has entered into numerous agreements to lease land, buildings, and equipment. Most operating leases contain a provision that the State may renew leases on a year-to-year basis. In most cases, management expects the leases will be renewed or replaced by other leases of a similar nature.

The following schedule is a summary of future minimum rental payments by years required under operating leases with lease terms in excess of one year as of June 30, 2018 (Expressed in Thousands):

Year Ending June 30	Primary Government		nponent Units
2019	\$	8,046	\$ 3,140
2020		7,394	2,686
2021		6,896	2,231
2022		6,192	1,846
2023		4,450	1,576
2024-2028		12,316	2,225
2029-2033		2,239	39
2034-2038		288	39
2039-2043		11	 39
Total Minimum			
Payments	\$	47,832	\$ 13,821

The total rental expenses for all operating leases for the fiscal year ended June 30, 2018, was \$20,343,723 for the primary government and \$4,164,628 for component units.

14. LONG-TERM LIABILITIES

Long-term obligations at June 30, 2018, and changes to long-term liabilities during the fiscal year then ended are as follows (Expressed in Thousands):

, , , , , , , , , , , , , , , , , , ,	eginning Balance	А	dditions	De	ductions	Ending Balance	e Within ne Year

*Governmental Activities Other Long-Term Obligations - The General Fund, special revenue, and internal service funds in which the leases are recorded will liquidate the capital lease obligations. The compensated absence and net pension liability will be liquidated by the applicable governmental and internal service funds that account for the salaries, wages, and employer pension contributions of the related employees. The workers' compensation and policy claims liabilities will be liquidated by applicable internal service funds which will ultimately be billed out to the applicable funds that account for the salaries and wages of the related employees. The pollution remediation obligations will be liquidated by the Petroleum Release Compensation Fund and the Department of Environment and Natural Resources – Other Fund. The escheat property obligation will be liquidated by the State's General Fund.

**Beginning balance does not agree with last year's ending balance due to Higher Education compensated absences restatement. For more information, see *Note 2. Accounting Changes, Restatements, and Reclassifications* in the Notes to the Financial Statements.

Revenue Bonds and Trust Certificates

A. Governmental Activities

1. South Dakota Building Authority

The South Dakota Building Authority (SDBA) issues bonds and trust certificates to finance the cost to acquire, construct, remodel, maintain, and equip buildings and other facilities of state departments and institutions. Bonds and certificates of participation are payable from revenues generated through lease agreements between the SDBA and state departments and institutions. Lease payments for bonds and certificates of participation are paid from the General Fund and other state dedicated fees of state departments, boards, and commissions, and an annuity.

The SDBA sold trust certificates to a trustee bank and assigned the right to receive lease rental payments over to the trustee bank. The principal and interest payments on the certificates are payable solely from amounts payable by the State under lease agreements. The certificates are not an indebtedness of the State within the meaning of any constitutional or statutory debt limit, nor may the certificates be a claim against the property of the SDBA.

The indebtedness or obligations incurred or created by the SDBA may not be or become a lien, charge, or liability against the State of South Dakota. This financial presentation does not change the legal liability of the indebtedness.

Following are SDBA bonds outstanding at June 30, 2018 (Dollars Expressed in Thousands):

	Maturity	Interest		
Bond Series	Through	Rates	A	mount
2010B	2035	4.250% - 6.200%	\$	4,210

2. Educational Enhancement Funding Corporation

During the 2001 Legislative Session, the Legislature authorized the South Dakota Building Authority to provide for the establishment of a corporation for the purpose of selling a portion or all of the State's rights, title, and interest in the proceeds of the tobacco companies master settlement agreement. On July 26, 2002, the Educational Enhancement Funding Corporation was created pursuant to South Dakota Codified Law 5-12-48 through 5-12-60. The State of South Dakota gave up its rights to any proceeds of the tobacco companies master settlement while the bonds are outstanding, or over the term of the bonds, whichever is shorter.

Following are Educational Enhancement Funding Corporation bonds outstanding at June 30, 2018 (Dollars Expressed in Thousands):

	Maturity	Interest		
Bond Series	Through	Rates	A	mount

B. Business-type Activities

South Dakota Conservancy District - State Revolving Funds

The South Dakota Conservancy District issued tax-exempt revenue bonds for the Clean Water State Revolving Fund (CWSRF) and for the Drinking Water State Revolving Fund (DWSRF). The SRF's provide low interest loans or other types of financial assistance to political units for the construction of publicly-owned wastewater treatment facilities, implementation of nonpoint source management programs, development and implementation of plans under the Estuary Protection Program, and construction and maintenance of drinking water facilities. To date, the programs have been used to make loans and refinance existing debt with a maximum of twenty years for repayment. Loans for the DWSRF can be made for 30 years, if the funds are for a disadvantaged community.

The South Dakota Conservancy District bonds do not constitute a debt or liability of the State of South Dakota, or a pledge of the faith and credit of the State. This financial presentation does not change the legal liability of the indebtedness.

The following is a schedule of outstanding bonds as of June 30, 2018 (Dollars Expressed in Thousands):

Bond	Maturity	Interest		
Series	Through	Rates		Amount

C. Component Units

1. South Dakota Housing Development Authority

The South Dakota Housing Development Authority (SDHDA) provides mortgage financing for construction, rehabilitation, and purchase of residential housing and assists in coordinating with federal, state, regional, and local public and private efforts with statewide housing planning. The SDHDA issues negotiable notes and bonds in amounts authorized by the Governor of South Dakota. Notes and bonds of the SDHDA do not constitute a debt or liability of the State of South Dakota, or a pledge of the faith and credit of the State. These notes and bonds are payable solely from the revenues or assets of the SDHDA.

Following is a schedule of bonds, consolidated by category, outstanding at June 30, 2018 (Dollars Expressed in Thousands):

	Maturity Through	Interest Rates	Amount

Total	\$ 1,173,001	\$ 516,050	\$ 1,689,051

2. South Dakota Economic Development Finance Authority

The South Dakota Economic Development Finance Authority (EDFA) was established for the purpose of making loans to businesses for the acquisition and/or construction of land, buildings, machinery and equipment to spawn economic growth. The EDFA is authorized by South Dakota Codified Law to provide sufficient funds for achieving any of its corporate purposes. The total outstanding amount of such notes and bonds shall not exceed \$300 million at any time. No obligation issued by the EDFA shall constitute debt or liability or obligation of the State of South Dakota, or any political subdivision or a pledge of the faith and credit of the State or any political subdivision.

The EDFA issues pooled and stand-alone bond issues. A pooled bond issue is secured by the EDFA's Capital Reserve Account. A stand-alone issue is based solely on the credit of the borrower and the EDFA acts only as a conduit to the financing. Therefore, the debt is not included in the accompanying financial statements.

The pooled bond issues require amounts to be deposited into the Capital Reserve Account. The money on deposit in the Capital Reserve Account is irrevocably pledged to the payment of all outstanding bonds and interest only when and to the extent that other monies are not available. The amount on deposit in the Capital Reserve Account must be equal to 12.5% of the related bond principal outstanding. Amounts in excess of the reserve requirements may be transferred to any state fund to be used for other purposes. At June 30, 2018, the balance in the Capital Reserve Account was \$5,000,000 and the reserve requirement was \$1,044,375.

The following is a schedule of outstanding bonds as of June 30, 2018 (Dollars Expressed in Thousands):

Bond Series	Maturity Through	Interest Rates	A	mount

3. Higher Education

a. Higher Education Facilities

Revenue bonds were issued for the purpose of constructing buildings. The bonds are payable only from and secured by a pledge of net revenues of the University Housing and Auxiliary Facilities System. Net revenue is defined as gross revenue, less reasonable and necessary costs of currently maintaining, repairing, insuring, and operating the University Housing and Auxiliary Facilities System. Total net revenue pledges for fiscal year 2018 equaled \$34,630,437. Following are revenue bonds outstanding at June 30, 2018 (Dollars Expressed in Thousands):

b. South Dakota Building Authority (Higher Education Portion)

The South Dakota Building Authority issues bonds and trust certificates to finance the cost to acquire, construct, remodel, maintain, and equip buildings and other facilities for Higher Education institutions. Lease payments are made from tuition and fees paid by students. The obligations incurred or created by the South Dakota Building Authority may not be a lien, charge, or liability against the State of South Dakota.

Capital Leases

The State has entered into various agreements to lease buildings, vehicles, and equipment. GASB standards require a lease that transfers substantially all of the benefits and risks of ownership to the lessee be accounted for as the acquisition of a capital asset and the incurrence of an obligation by the lessee (a capital lease).

Capital lease obligations are recorded as liabilities in the Government-wide and Proprietary Fund Financial Statements.

The following schedule is a summary of the future minimum lease payments under capital leases, together with the present value of the net minimum lease payments as of June 30, 2018 (Expressed in Thousands):

Fiscal Year Ending June 30	 ernmental ctivities	nponent Units

Conduit Debt Obligations

Conduit debt obligations are certain limited-obligation revenue bonds, certificates of participation, or similar debt instruments issued by state governments for the express purpose of providing capital financing for a specific third party that is not a part of the issuer's financial reporting entity. The State has no obligation for such debt beyond the resources provided by a lease or loan with the third party on whose behalf they are issued and the debt is not included in the accompanying financial statements.

1. South Dakota Value Added Finance Authority

The South Dakota Value Added Finance Authority provides low interest financing to agricultural enterprises in the State of South Dakota. The loans can be used to acquire agricultural property. The Authority is authorized to issue federal tax-exempt bonds. The bond proceeds are lent to qualifying applicants. The applicant assumes the bond payment obligation to the bond purchaser in the form of a loan with the third party bond purchaser.

As of June 30, 2018, there were 114 Beginning Farmer Bond Program series Revenue Bonds outstanding. The aggregate principal amount payable on June 30, 2018, could not be determined; however, the original issue amount totaled \$23,163,213.

As of June 30, 2018, there were 5 Agribusiness Bonding Program series Revenue Bonds outstanding. The aggregate principal amount payable on June 30, 2018, could not be determined; however, the original issue amount totaled \$8,592,500.

As of June 30, 2018, there were 17 Livestock Nutrient Management Bond Program series Revenue Bonds outstanding. The aggregate principal amount payable on June 30, 2018, could not be determined; however, the original issue amount totaled \$13,563,490.

As part of the American Recovery and Reinvestment Act, the South Dakota Value Added Finance Authority issued 3 recovery zone bonds in state fiscal year 2011. The outstanding balance at June 30, 2018, could not be determined; however, the original issue amount totaled \$24,750,000.

2. South Dakota Economic Development Finance Authority

The Authority issues tax-exempt debt for the purpose of financing a company's acquisition and construction of land, buildings, machinery, and equipment to spawn economic growth. The bonds are special obligations of the Authority to which the payments paid by the company pursuant to a loan agreement have been and are hereby irrevocably pledged.

As of June 30, 2018, the aggregate amount of stand-alone bond principal outstanding was \$280,000. The original issue amount of stand-alone bonds totaled \$4,840,000.

Refunded and Defeased Bonds

1. South Dakota Housing Development Authority

In December 2017, the Authority issued \$54,680,000 of fixed rate Homeownership Mortgage Bonds, 2017 Series E and 2017 Series F (the Refunding Bonds) The Refunding Bonds, totaling \$54,680,000 along with premium generated from the bond sale, were used to refund \$56,000,000 of Homeownership Mortgage Bonds, 2008 Series F and 2009 Series C (the Refunded Bonds). The purpose of the refunding was to reduce the Authority's borrowing cost on debt that was optionally redeemable at par, which decreased total debt service payments by approximately \$21.8 million. Assuming a mortgage prepayment speed of 100% FHA, the difference between the present value of the cash flow required for debt service of the Refunding Bonds and the Refunded Bonds, net of cost of issuance, will result in an economic gain of approximately \$7.6 million.

2. South Dakota Building Authority

On September 1, 2017, the Series 1993A State Lease Revenue Trust Certificates were paid in full from escrowed funds.

On June 1, 2018, the Series 2008 bonds were called with funds held in escrow in the amount of \$26,030,000 and cash held with the South Dakota Investment Council in the amount of \$31,040,000. There was a gain from the defeasance of the Series 2008 bonds in the amount of \$432,063 as a result of the unamortized original issue premium.

3. South Dakota Conservancy District - State Revolving Funds

Clean Water State Revolving Fund

The 2017A refunding portion had an average interest rate of 1.73 percent which was used to refund \$725,000 of outstanding Taxable Series 2012B bonds with an average interest rate of 4.34 percent. The Series 2017B refunding portion had an average interest rate of 4.98 percent which was used to refund \$26,190,000 Tax-exempt Series 2012B bonds and \$5,186,015 Tax-exempt Series 2010B bonds with an average interest rate of 5.03 percent. The net proceeds of the refunding portion of \$36,727,046 were deposited in an irrevocable trust with an escrow agent to provide for all the future debt service payments on the refunded portions. As a result, the refunded portion bonds are considered to be defeased and the liability for those bonds has been removed from the Statement of Net Position.

The advanced refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$4,626,031. This difference is being charged to operations through 2032 using the effective-interest method. The District completed the advanced refunding for a net economic gain of \$2,810,001. The difference between the cash flows of the refunded bonds and the refunding bonds is a \$3,472,275 reduction in debt service payments.

Fully defeased bonds not yet paid to bondholders as of June 30, 2018, are as follows:

Bond Issues	Year of Defeasance	-	jinal Amount Defeased
Series 2012B (01)	2018	\$	725,000
Series 2010B (08)	2018		5,186,015
Series 2012B	2018		26,190,000
Total		\$	32,101,015

Series 2010B (08) that was escrowed will be called on August 1, 2020. Series 2012B (01) and Series 2012B that were escrowed will be called on August 1, 2022.

Drinking Water State Revolving Fund

The 2017A refunding portion had an average interest rate of 1.73 percent which was used to refund \$790,000 of outstanding Taxable 2012B bonds with an average interest rate of 4.34 percent. The 2017B refunding portion had an average interest rate of 4.98 percent which was used to refund \$4,253,985 Tax-exempt Series 2010B bonds with an average interest rate of 5.03 percent. The net proceeds of the refunding portion of \$5,543,839 were deposited in an irrevocable trust with an escrow agent to provide for all the future debt service payments on the refunded portions. As a result, the refunded portion bonds are considered to be defeased and the liability for those bonds has been removed from the Statement of Net Position.

The advanced refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$499,854. This difference is being charged to operations through 2028 using the effective-interest method. The District completed the advanced refunding for a net economic gain of \$627,936. The difference between the cash flows of the refunded bonds and the refunding bonds is a \$765,664 reduction in debt service payments.

Fully defeased bonds not yet paid to bondholders as of June 30, 2018, are as follows:

Bond Issues	Year of Defeasance	-	Original Amount Defeased		
Series 2012B (01)	2018	\$	790,000		
Series 2010B (08)	2018		4,253,985		
Total		\$	5,043,985		

Series 2010B (08) that were escrowed will be called on August 1, 2020. Series 2012B (01) that were escrowed will be called on August 1, 2022.

4. Higher Education and the South Dakota Board of Regents

In December 2017, the South Dakota Board of Regents (SDBOR) issued \$88,260,000 in Revenue Bonds Series 2017 to advance refund a portion of the Series 2009 bonds and fund additional student housing projects. A refunding portion of \$29,745,000 with an average interest rate of 4.99 percent was used to refund \$32,510,000 of outstanding South Dakota State University (SDSU), South Dakota School of Mines & Technology (SDSMT), Northern State University (NSU) Series 2009 Bonds with an average interest rate of 6.11 percent. Additionally, \$32,490,000 with an average interest rate of 4.61 percent was used to refund \$34,570,000 of outstanding University of South Dakota (USD) Series 2009 Bonds with an average interest rate of 6.16 percent. The net proceeds of the refunding portion of \$71,574,342 (after payment of \$515,617 in underwriting fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide for all of the future debt service payments on the refunded portion of the Series 2009 bonds. Escrow balance as of June 30, 2018 was \$69,667,776. As a result, the refunded portion of the Series 2009 bonds are considered to be defeased and the liability for those bonds has been removed from the Statement of Net Position.

The purpose of the advanced refunding was to reduce the SDBOR borrowing cost on debt that will be optionally redeemable at par on April 1, 2019, which decreased total debt service payments by \$17,910,294. These bonds were also eligible for the Building America Bond rebate from the federal government. The rebate attributable to the debt service decrease was \$15,282,138. This resulted in a net decrease in the debt service of \$2,628,156. This resulted in a present value savings on the SDSU bonds of \$781,172, the USD bonds of \$995,415, the SDSMT bonds of \$248,781, and the NSU bonds of \$33,491.

Pollution Remediation Obligations

The State has pollution remediation obligation liabilities as of June 30, 2018, of \$11,707,416.

1. Gilt Edge Superfund Site

The State of South Dakota, acting through the Department of Environment and Natural Resources, has contracted with the United States Environmental Protection Agency (EPA) for participation in the reclamation and remediation of the former Brohm Mine, the Gilt Edge Superfund Site in Lawrence County. The EPA's current estimate of total cleanup cost is \$173.1 million. This is an increase from the estimate last year due to an increase in the expected yearly Operation and Maintenance costs. In FY17, the EPA entered into a contract for \$19.6 million in which the State was not required to match, due to settlement money acquired by the EPA. This makes the total amount of cleanup costs that the State needs to match an estimated \$153.5 million. The State is required by law to pay 10% of the total costs of reclamation and remediation of the site, which is estimated to be \$15.4 million. The State has already spent approximately \$6.6 million with an estimated remaining outstanding liability as of June 30, 2018 of \$8,786,316. The State's contribution to the costs of reclamation and remediation will come from the Regulated Response Fund, which has a cash balance of \$2.4 million, but will grow with future penalties collected for environmental violations deposited into the fund and interest earned on the cash deposit. After the EPA completes its involvement at the site, the State will take control of the site and use the reclamation bond and settlement money to pay 100% of the ongoing water treatment costs. The State had a cash balance of approximately \$8.3 million from the cash reclamation bond deposited by Brohm and \$10.0 million in cash settlements as of June 30, 2018. However, actual costs incurred when the State takes control of the site cannot be anticipated at this time because the final cleanup action has not been determined yet.

2. Petroleum Release Compensation Fund

The Petroleum Release Compensation Fund (PRCF) provides reimbursement for remediation of sites where a petroleum release has occurred. This fund and the requirement that the State provide reimbursement were established under SDCL 34A-13. As of June 30, 2018, PRCF was currently involved with 34 active cases, 21 active/monitoring cases, and 3 pending cases (spill report not yet filed), for a total of 58 cases. The estimated cost remaining for sites that have received at least one payment is \$321,100, the estimated cost for sites that haven't received any payments is \$2,000,000, and the estimated cost for the Abandoned Tank Removal Program is \$600,000. The total liability as of June 30, 2018, for this program is \$2,921,100. The cash balance in the PRCF on June 30, 2018, is \$2,141,126.

15. FUNCTIONAL DISTRIBUTION OF HIGHER EDUCATION OPERATING EXPENSES

The operating expenses on the Statement of Revenues, Expenses, and Changes in Net Position are presented in natural classifications. The following table presents those same expenses in functional classifications for Higher Education (excluding Foundations) as of June 30, 2018, as recommended by NACUBO (Expressed in Thousands):

	Personal			Supplies & Non- Capitalized	Grants &	Interest & Other		
Function	Services	Travel	Contractual	Equipment	Subsidies	Expenses	Depreciation	Total
Instruction	\$ 164,114	\$ 3,861	\$ 15,037	\$ 9,684	\$ 1,025	\$1	\$ 5,874	\$ 199,596
Research	40,523	2,537	6,190	9,601	9,035	1	4,675	72,562
Public Service	25,360	1,735	7,179	4,794	1,583		267	40,918
Academic Support	39,768	1,232	12,282	4,876	18	1	1,818	59,995
Student Services	37,492	7,999	10,021	6,944	280		1,207	63,943
Institutional Support	43,467	1,097	21,705	3,409	1	949	2,433	73,061
O&M of Plant	22,469	276	15,787	9,135			34,678	82,345
Scholarships and	1,205	9	14	196	24,701	172		26,297
Fellowships								
Auxilliary Enterprises	10,514	130	38,636	12,541	21	1	2,098	63,941
Other						145	787	932
Total	\$ 384,912	\$ 18,876	\$ 126,851	\$ 61,180	\$ 36,664	\$ 1,270	\$ 53,837	\$ 683,590

16. POSTSECONDARY TECHNICAL INSTITUTE SYSTEM

The primary government has an ongoing financial responsibility for funding the four postsecondary technical institutes. The postsecondary technical institutes are considered part of the local school districts in the district where they are located. The oversight of the postsecondary technical institutes resides within the primary government through the South Dakota Board of Technical Education (SDBTE). The SDBTE provides overall policies, goals, and objectives for the management of the postsecondary technical institutes. The SDBTE consists of nine members appointed by the Governor. The SDBTE may adopt rules governing the operation of the postsecondary technical institutes including curriculum, tuition payments and other charges, and plans for construction or renovation of facilities. During fiscal year 2018, the State provided \$25,138,000 in General Fund state aid payments to the postsecondary technical institutes.

Construction and renovation of facilities at the postsecondary technical institutes is funded with proceeds from debt issued by the Health and Educational Facilities Authority (HEFA). HEFA was created as a public instrumentality of the State to provide tax-exempt revenue bonds, notes, or other obligations on behalf of nonprofit health and educational institutions within the State. Although the primary government appoints a voting majority of HEFA's board, the State's accountability for this organization does not extend beyond making the appointments and is considered a related organization of the State.

The State enters into lease purchase agreements with HEFA and sub-leases the facilities at the postsecondary technical institutes to the school districts. The State makes lease payments to HEFA from a combination of General Fund appropriations, interest earnings from a special revenue fund, and from student facility fees collected by the postsecondary technical institutes and remitted to the State. Upon completion of payments under the lease agreements, titles to the facilities pass to the State. The sub-lease agreements with the school districts are then extended annually as long as the school districts pay the State \$100 per year and continue to use the facilities for postsecondary technical education. Facilities constructed or renovated and the lease purchase agreements between the State and HEFA are reported under the governmental activities column in the Government-wide Statement of Net Position.

17. TAX ABATEMENTS

The Reinvestment Payment Program is an economic development program authorized under SDCL 1-16G-56 to 1-16G-68. The program is designed to promote new employment opportunities and increase property tax revenues in South Dakota by offsetting the costs associated with relocation or expansion of operations and/or the upgrading of equipment in South Dakota through the reimbursement of South Dakota sales and use tax that has been paid on approved projects. The program is intended for projects that would not have occurred without the reimbursement payment.

The Reinvestment Payment Program is administered by the Governor's Office of Economic Development (GOED) with qualifying projects being approved by The Board of Economic Development. Companies pursuing new or expanded facilities with total project costs exceeding \$20 million, or equipment upgrade costs exceeding \$2 million are eligible for program consideration upon timely completion of an application. A key criterion considered when approving or denying an application is the likelihood the project would have occurred without the reimbursement payment. The Board of Economic Development can approve individual projects from the application for a reimbursement payment that is equal to or less than South Dakota sales and use tax paid on the project costs. All sales and use tax must continue to be paid on the approved projects. Reimbursement payments are made after the project is complete and cannot exceed actual sales and use tax paid.

During fiscal year 2018, the State abated \$10,736,062 of sales and use tax as estimated reimbursement amounts for approved projects that have not met all the reimbursement criteria. The State reimbursed \$923,397 of sales and use tax during fiscal year 2018, \$771,082 was abated in prior fiscal years and \$152,315 was abated in fiscal year 2018.

18. RELATED PARTY TRANSACTIONS

The South Dakota Development Corporation (SDDC) is a South Dakota non-profit corporation and a Certified Development Company created for the purpose of administering the U.S. Small Business Administration's (SBA) 503/504 loan programs and the Microloan Program. The Microloan Program is formed as a partnership between the SDDC and the Governor's Office of Economic Development (GOED). GOED has agreed to provide certain staff services and related support of the SBA 504 loans and Microloan Program loans made by SDDC. GOED provides these services out of GOED funds. The purpose of the SBA's 504 loan program and the Microloan program is to help facilitate economic development and the creation of jobs in South Dakota. These loans are used to assist companies either operating in the State or moving to the State. Businesses use the loan funds to expand their operations, improve their facilities, or set up operations in South Dakota. The 504 loans awarded during fiscal year 2018 were \$1,574,800. Funding for these loans came from the SBA. In addition, the SDDC has approved loans totaling \$858,884 for the Microloan Program as of June 30, 2018. Effective May 15, 2018, GOED ended the provision of all staff services and related support to SDDC pursuant to a Transition Agreement between the two parties. Pursuant to that Transition Agreement, the SDDC transferred \$12,894,560 of its net assets to GOED. The transition was complete June 26, 2018.

The Enterprise 605, Inc. (E605) is a South Dakota non-profit corporation created for the purpose of promoting economic interests and economic development in the State of South Dakota by fostering entrepreneurship opportunities, the expansion of businesses, and supporting the growth and development of business concerns in South Dakota. E605 accomplishes this through education, informing public opinion germane to economic development in South Dakota, an internship program focused on economic development, and providing financial support to South Dakota businesses or businesses who plan to do business in South Dakota. The primary goal of the E605 is to provide investment growth capital to early stage South Dakota companies that have proven their business concept is commercially viable, but are not yet established enough to attract the interest of venture capitalists. GOED has agreed to provide certain staff services and related support for E605's programs and will provide these services out of GOED funds. GOED has pledged \$7,000,000 in Future Funds to support the mission of E605. As of June 30, 2018, \$3,000,000 of the grant dollars have been disbursed to E605.

The following transactions occurred between discretely presented component units and between the State and discretely presented component units.

Governor's Office of Economic Development (GOED) on June 12, 2018, GOED entered into an agreement to provide a Future Fund grant of \$10,000,000 to Dakota State University (DSU) to enhance their cyber security program. As of June 30, 2018, GOED has paid \$5,000,000 to DSU.

The South Dakota Corn Utilization Council (SDCUC) is a functional subunit of the Department of Agriculture, which was created under South Dakota Codified Law (SDCL) 38-32 for market maintenance and expansion, research, education, transportation, and for the prevention, modification, or elimination of trade barriers which obstruct the free flow of corn and corn products to the market.

In June 2017, the SDCUC executed a letter of commitment to provide the SDSU Foundation with annual installments of no less than \$300,000 but not to exceed \$3,000,000. The SDSU Foundation is a blended component unit of Higher Education, which is a discretely presented component unit to the State of South Dakota. The commitment is conditional based on the construction of a new Precision Agriculture facility. As of June 30, 2018, all of the \$6,000,000 committed to the construction of the new facility has been paid to the SDSU Foundation.

In 2018, The SDCUC committed an additional \$2,000,000 to the SDSU Foundation to endow the director of Precision Agriculture. SDCUC has paid \$500,000 towards this commitment with a total of \$1,500,000 remaining.

The South Dakota Soybean Research and Promotion Council is certified as a Qualified State Soybean Board (QSSB) as defined in section 1220.228 of the Soybean Promotion and Research Order in the Federal Register (volume 56, 131) and is part of the Department of Agriculture, a state agency, established by SDCL chapter 38-29. The Council administers programs and activities that are subject to the 1990 Federal legislation titled Soybean Promotion, Research and Consumer Information Act. South Dakota State University (SDSU) is a blended component unit of Higher Education, which is a discretely presented component unit to the State of South Dakota. For the year ended June 30, 2018, Soybean Council has reimbursed SDSU in the amount of \$1,196,030 for research projects.

The South Dakota Ellsworth Development Authority (SDEDA) was created by SDCL 1-16J for the purpose of protecting and promoting the economic impact of Ellsworth Air Force Base and associated industry, and to promote the health and safety of those living or working near the base.

At June 30, 2018, the SDEDA has loans payable to the State Department of Environment and Natural Resources for \$1,337,128 and to the Clean Water State Revolving Fund for \$19,971,685. Proceeds from the loans provided financing for the construction of the waste water treatment plant. SDEDA has pledged future user charges as security under various loan agreements.

During the fiscal year ending June 30, 2018, the SDEDA received \$300,000 from GOED for general operating support. The SDEDA was also previously awarded \$3,000,000 from the GOED for the purpose of matching funds awarded by the U.S. Department of Defense for the Readiness and Environment Protection Integration Program (REPI). Land purchased by the SDEDA under the REPI program has easements sold to the United States Air Force at the Yellowbook appraised value of each property. SDEDA is providing 25 percent matching funds for the REPI program. The SDEDA records the GOED matching funds as revenue when the funds have been used to meet the objectives of the REPI program. At June 30, 2018, all GOED funds had been recognized as revenue, and the state of South Dakota owed the Authority \$695,222 for matches paid with Authority funds. A receivable was not recorded for this amount, as it is not certain if and when the GOED will appropriate funds to the Authority.

The South Dakota Housing Development Authority (SDHDA) was created in 1973 by an Act of the South Dakota Legislature as a body politic and corporate, and an independent public instrumentality for the purpose of encouraging the investment of private capital for the construction and rehabilitation of residential housing to meet the needs of persons and families in the state. SDHDA has a note receivable of \$1,620,404 from the South Dakota Ellsworth Development Authority (SDEDA), another component unit of the State of South Dakota. The note receivable is based on funding through the Neighborhood Stabilization Program (NSP) which is a non-interest bearing note that will be forgiven in 2033 if restrictive covenants related to providing low income housing are maintained for the 20 year duration.

The South Dakota Science and Technology Authority (SDSTA) was created and organized SDCL 1-16H. The purposes of SDSTA are to foster and facilitate scientific and technology, investigation, experimentation, and development by creating a mechanism through which laboratory, experimental, and development facilities may be acquired and operated. SDSTA has various agreements with the other State component units and agencies that include:

A contract with the South Dakota School of Mines and Technology to be the lead institution for the accelerator project known as Compact Acceleration System Performing Astrophysical Research (CASPAR) for \$999,334 was finalized in November 2017.

An agreement with the Governor's Office of Economic Development (GOED) whereby the State is granting up to \$6,000,000 between July 14, 2015, and September 30, 2018. The State has chosen to engage in a public-private partnership with SDSTA, the South Dakota Community Foundation, the South Dakota State University Foundation, and the University of South Dakota Foundation to assist with the costs of infrastructure and laboratory upgrades, procurement of xenon for future "Dark Matter" experiments, and interest payments to these foundations. As of June 30, 2017, the full \$6,000,000 has been received from the State. Loan agreements are in place between SDSTA and the three foundations for a total of up to \$6,000,000 to be used for the purchase of xenon for the future LZ experiment, of which \$2,000,000 has been received from the South Dakota Community Foundation, and \$1,000,000 each from the University of South Dakota Foundation and the South Dakota State University Foundation. The loans extend to the last quarter of 2026. The loans are unsecured nonrecourse loans with 2.5% simple interest to be paid quarterly to each lender and will be repaid at the end of the LZ experiment with the proceeds of the xenon previously purchased.

The SDSTA, along with the South Dakota Bureau of Administration, and five additional South Dakota Authorities, signed an agreement on June 1, 2015 to form a captive insurance company to insure against certain risks. \$2,500,000 was repurposed in August 2015 from a portion of the \$10,000,000 Indemnification Fund held by the SDSTA. The funds will be used to provide initial capital and pay expenses for the SDSTA's purposes in the captive insurance company per HB 1186 of the 2015 Legislative Session.

19. SUBSEQUENT EVENTS

Department of Environment and Natural Resources

On December 19, 2018, the South Dakota Conservancy District completed the sale of the Series 2018 Bonds with a par amount of \$96,355,000 to provide leveraged funds for the Clean Water and Drinking Water State Revolving Fund programs.

South Dakota Housing Development Authority

On December 18, 2018, the South Dakota Housing Development Authority issued \$99,000,000 of Homeownership Mortgage Bonds 2018 Series B with maturities from November 1, 2019 to November 1, 2048.

South Dakota Building Authority

On December 27, 2018, the South Dakota Building Authority issued the Series 2018A bonds in the amount of \$30,755,000. The bond proceeds will be used to fund the South Dakota State University Raven Precision Agriculture Center and the University of South Dakota renovation of the Dakota Dome.

20. CONTINGENCIES AND LITIGATION

The State of South Dakota is party to numerous legal proceedings, many of which occur in the normal course of governmental operation. The outcomes of these lawsuits could have an impact on the State's financial statements. Based on prior experience, it is unlikely that the outcome of these claims will materially affect the financial position of the State. The contingencies at June 30, 2018 are as follows:

Oglala Sioux Tribe and Rosebud Sioux Tribe et al v. State of South Dakota Department of Social Services

This case was filed on March 21, 2013. Plaintiffs are challenging the procedures of the South Dakota Department of Social Services in emergency removal hearings, claiming violations of constitutional rights and of the Indian Child Welfare Act. The State has filed a Motion to Dismiss which was denied by the court in January 2014. On March 30, 2015, the Court ruled in favor of the Plaintiffs on a partial summary judgment motion. All Defendants have filed Motions to Reconsider as of May 20, 2015. The District Court has issued a Declaratory Judgment and an Injunction in favor of the Plaintiffs. The Declaratory Judgement and Injunction have been appealed to the United States Eighth Circuit Court of Appeals (8th Circuit). On September 14, 2018, the 8th Circuit issued its decision reversing the District Court determining that the District Court lacked jurisdiction under the abstention doctrine. The Plaintiffs filed a Motion for Re-Hearing subsequent to the decision. There are other motions pending for this case. The State is vigorously defending this case. If this matter has an unfavorable outcome, there will be considerable costs for discovery expenses, travel, and attorney fees totaling over \$2,500,000. This case is being run through the State Office of Risk Management Extraordinary Litigation Fund which is reported as part of the State's General Fund.

South Dakota v. BP, et al

South Dakota Petroleum Release Compensation Fund, administered by the South Dakota Department of Environment and Natural Resources, brought claims against BP defendants for claims of fraud, misrepresentation, violations of their subrogation agreements, unjust enrichment, and is claiming that BP has strict liability under SDCL 34A-2-96, for the remediation of its environmental contamination at all of its divested former petroleum fuel dispensing facilities that were owned, operated, leased, controlled, distributed, and supplied by the defendant in the state. South Dakota is seeking damages that total \$12,149,249. Judge Barnett of the Sixth Judicial Circuit Court has vacated the scheduling order in this case until discovery is completed. Judge DeVaney is now assigned to the case.

United States of America v. State of South Dakota Department of Social Services

On November 3, 2016, a lawsuit was filed in the U. S. District Court by the U. S. Department of Justice (DOJ) against the South Dakota Department of Social Services (DSS) alleging that DSS has engaged in a pattern or practice of discrimination against Native Americans in its hiring practices on the Pine Ridge Reservation in South Dakota. DSS intends to vigorously defend and denies any discrimination whatsoever in its hiring or retention practices on the Pine Ridge Reservation or elsewhere. All depositions and discovery have been completed and both sides have made motions for summary judgment to the United States District Court. The Court entered its Order granting Plaintiff's motion for partial summary judgment and denying the State's motion for summary judgment on September 25, 2018. The State filed a motion for permission to petition for interlocutory appeal. That motion remains pending for this case. If that motion is denied, the case is set for trial beginning May 13, 2019. Counsel cannot offer an opinion at this time of the risk of unfavorable outcome. This case is being run through the State Office of Risk Management Extraordinary Litigation Fund which is reported as part of the State's General Fund.

U.S. Bank National Association v. South Dakota Department of Revenue

Department of Revenue (DOR) issued Certificate of Assessment (COA) on December 28, 2015, to U.S. Bank in the amount of \$508,926.11 (consisting of \$364,169 of tax and \$144,757 of interest), as a result of disallowing a bank franchise tax deduction claimed by U.S. Bank for the calendar year 2012 audit period. In issuing the assessment, the DOR also denied two refund requests for the periods ending December, 2010 and December, 2011, based on U.S. Bank's claim for the same deduction. The refunds requested were \$79,085 and \$77,899, respectively. A hearing was held by the Office of Hearing Examiners on September 28, 2017 on the U.S. Bank appeal of the COA and denial of refunds. On July 18, 2018, after reviewing the Proposed Decision of the hearing examiner, the Secretary of Revenue issued a Final Decision and Order. Notice of Entry of Final Decision and Order was served on July 19, 2018. On

August 17, 2018, U.S. Bank National Association filed a Notice of Appeal with the Sixth Judicial Circuit Court appealing DOR's final decision affirming the bank franchise tax assessment issued to U.S. Bank.

On September 20, 2017, DOR issued a second COA to U.S. Bank in the amount of \$511,138.69, (consisting of \$350,695.50 of tax and \$160,443.19 of interest), again, as a result of disallowing a bank franchise tax deduction claimed by U.S. Bank for the calendar year 2013 audit period. On September 19, 2018, DOR issued a third COA to U.S. Bank in the amount of \$705,422, (consisting of \$496,776 of tax and \$208,645 of interest for the calendar year 2014 audit period. U.S. Bank has appealed both of these assessments. Since the issue in the second and third matter is the same as the first matter, they are being held in abeyance pending the outcome of the first matter. The DOR is vigorously defending all matters. However, due to the nature of litigation, counsel is not in a position to give any opinion at this time as to the risk of a favorable or unfavorable outcome in these matters.

Planned Parenthood Minnesota, North Dakota, South Dakota, and Carol E. Ball, M.D. v. Dennis Daugaard, et al.

This is a challenge to the 2011 abortion legislation regarding mandatory informed consent advisements. The case was filed June 30, 2011, in the United States District Court for the District of South Dakota and is before Judge Schreier. Discovery has been initiated and is ongoing in this case. The State intends to vigorously defend against the plaintiffs' action. If this matter has an unfavorable outcome, there will be considerable costs for discovery expenses and attorney fees totaling over \$1,000,000. This case is being run through the State Office of Risk Management Extraordinary Litigation Fund which is reported as part of the State's General Fund.

REQUIRED SUPPLEMENTARY INFORMATION

The *Required Supplementary Information* includes the Budgetary Reporting and Pension Information. The following individual schedules are included:

- Budgetary Comparison Schedule General Fund
- Budgetary Comparison Schedule Transportation Fund
- Budgetary Comparison Schedule Social Services Federal Fund
- Budgetary Comparison Schedule Budget-to-GAAP Reconciliation
- Notes to Required Supplementary Information Budgetary Reporting
- Schedule of Proportionate Share of Net Pension Liability (Asset)
- Schedule of Contributions
- Notes to Required Supplementary Information Schedule of Proportionate Share of Net Pension Liability (Asset) and Schedule of Contributions

Required Supplementary Information Notes to Required Supplementary Information - Budgetary Reporting

The Budgetary Comparison Schedule is comprised of three sections: 1) Resources Available for Appropriation (Resources), 2) Charges to Appropriations and 3) Non-Budgeted Outflows. The first section presents comparisons of the legally adopted original estimated resources, the revised adopted estimated resources, and actual amounts for each category of resources for the State of South Dakota on a budgetary basis. The General Fund is the only fund that has legally adopted estimated resources by the Legislature. Therefore, the Transportation and Social Services Federal Funds do not have a resource section of their corresponding Budgetary Comparison Schedules. The original adopted estimated resources are defined as the estimated resources for the next fiscal year as referenced in SDCL 4-7-10(2), as adopted by the Legislature. The prior year carryover and encumbered amount is adopted before the current fiscal year and is carried over to subsequent years based on the expiration date. The revised adopted estimated resources are defined as the estimated resources in the current fiscal year as referenced in SDCL 4-7-10(2). The actual amounts are comprised of actual collections as of the close of the fiscal year.

The second section presents comparisons of the original charges to appropriations budget and legally revised final charges to appropriations budget, with actual amounts for each program of the State on a budgetary basis. A Budgetary Comparison Schedule is presented for the General Fund and for each major special revenue fund that has a legally adopted annual budget. There are currently two major special revenue funds that fit this criterion: the Social Services Federal Fund and the Transportation Fund. The Budgetary Comparison Schedule follows the same format, terminology, and classification as the State's General Appropriations Act (General Bill). Also included is a column that compares the variance between the final budget and actual amounts. A positive variance refers to unused budget, while a negative variance refers to an over-expended budget. For the year ended June 30, 2018, there were no over-expenditures by any State department. Informational budget units, when combined with specific continuous or annual appropriation designation, are able to over-spend the expenditure authority.

The original charges to appropriations budget is defined as the first complete appropriated budget, adjusted by reserves, transfers, allocations, supplemental appropriations, reorganizations, and other legally authorized legislative and executive changes before the beginning of the fiscal year. Any such transaction that is authorized as legislative or executive change before the beginning of the fiscal year is included in the original budget, regardless of the effective date of the document loaded on the accounting system. The amount appropriated for employee compensation in the General Bill is reported as distributed to the departments and programs. Any of these adjustments may change the format, terminology, or classification of a Budgetary Comparison Schedule. The original budget also includes any actual appropriation amounts carried forward by law from prior years, including special appropriations, maintenance and repair, and carryovers. The final budget is defined as the original budget, adjusted by all reserves, transfers, allocations, supplemental appropriations, reorganizations, and other legally authorized legislative and executive changes after the beginning of the fiscal year.

The third section presents non-budgeted outflows which account for items that are outflows but not charges to appropriations. An example of a non-budgeted outflow includes, statutorily required year-end transfers to the General Fund Budget Reserve Fund.

The Budgetary Comparison Schedule reports amounts on a budgetary basis. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with Generally Accepted Accounting Principles (GAAP). Since the budget is prepared principally on a cash basis, the Budgetary Comparison Schedule includes information presented on this basis for the fiscal year. A reconciliation of the two methods for the fiscal year ended June 30, 2018 has also been included as Required Supplementary Information.

Required Supplementary Information Notes to Required Supplementary Information – Schedule of Proportionate Share of Net Pension Liability (Asset) and Schedule of Contributions

Changes of Benefit Terms:

Legislation enacted in 2017 modified the SDRS COLA. For COLAs first applicable in 2018, the SDRS COLA will equal the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0.5% and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%. That condition exists this year and limits the maximum COLA payable in 2018 to 1.89%.

Legislation was also enacted in 2017 to:

- Modify the definition of Compensation to clarify included and excluded items,
- Expand the caps on increases in Compensation considered in Final Average Compensation,
- Extend the Final Average Compensation period from the current three years to five years for Foundation Members after a phase-in period, and
- Limit Compensation to the Internal Revenue Code Section 401(a)(17) limits for all Members, regardless of date of entry into SDRS.

Changes of Assumptions:

As a result of an experience analysis covering the period from July 1, 2011 to June 30, 2016, significant changes to the actuarial assumptions were recommended by the SDRS Senior Actuary and adopted by the Board of Trustees first effective for the June 30, 2017 Actuarial Valuation. The changes to economic assumptions were very significant, and included reducing the inflation assumption to 2.25%, reducing the investment return assumption to 6.5%, and reducing the payroll growth assumption to 3.00%. The demographic assumption changes were less impactful. Among those changes were new mortality assumptions, updated retirement, termination, and disability rates, and updated salary increase assumptions.

The Actuarial Asset Valuation Method was changed to the Fair Value of Assets. In addition, the Funding Method was changed from the Frozen Entry Age Actuarial Cost Method to the Entry Age Actuarial Cost Method, which was in use for GASB Statement Nos. 67 and 68 purposes.

COMBINING FINANCIAL STATEMENTS

The *Combining Financial Statements* include the Nonmajor Governmental Funds, Nonmajor Enterprise Funds, Internal Service Funds, Fiduciary Funds, Component Units, and Nonmajor Component Units. The following individual statements are included:

- Combining Balance Sheet Nonmajor Governmental Funds By Type

Notes:

(a) Due to confidentiality issues, the names of the ten largest sales tax revenue payers are not available. The categories presented are intended to provide alternative information regarding the sources of the State's sales tax resources, representing the largest source of funding for the General Fund.

(b) Taxable sales: This is the amount of sales and use taxable sales of tangible personal property, services, and products delivered electronically which are subject to state tax or reservation tax unless specifically exempted. No Contractors Excise taxes are included.

(c) Whenever there are less than 3 licenses in any one classification, the information is combined into the "Nonclassifiable Establishments" category.

(d) Prior to June 1, 2016, a tax was imposed upon gross receipts from selling, leasing, and renting tangible personal property and the sales of services. Beginning June 1, 2016, all items subject to the state sales tax will be taxed at 4.5% to conform to the HB 1182 passed during the 2016 Session. A use tax of the same rate as the sales tax rate was imposed on goods and services that are used, stored, or consumed in South Dakota on which South Dakota sales tax was not paid. An excise tax of the same rate as the sales tax rate was imposed on farm machinery and amusement device tax.

(e) The taxable figures could include amended returns that were due in prior periods.

Clean Water State Revolving Fund Financial Statements, Drinking Water State Revolving Fund Financial Statements, Education Enhancement Funding Corporation Annual Report, and Building Authority Lease Rental Schedules and Debt Service Schedules.

 Note:
 (a) The Building Authority, Educational Enhancement Funding Corporation, Clean Water State Revolving Fund, and Drinking Water State Revolving Fund are considered to be blended component units of the State.

 The Revenue Bonds and Trust Certificates issued by these entities may not be or become a lien, charge, or liability against the State.

(b) For the Educational Enhancement Funding Corporation, all turbo redemptions are excluded from this calculation.

(c) All funds are presented on an accrual basis except for the Building Authority Fund which is presented on a cash basis.

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

427 SOUTH CHAPELLE C/O 500 EAST CAPITOL PIERRE SD 57501-5070 (605)773-3595

MARTIN L. GUINDON, CPA AUDITOR GENERAL

INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

The Honorable Kristi Noem Governor of South Dakota

and

Members of the Legislature State of South Dakota

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of South Dakota as of and for the year ended June 30, 2018, which collectively comprise the State's basic financial statements as listed in the table of contents and have issued our report thereon dated December 28, 2018, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming our opinions on the financial statements that collectively comprise the State of South Dakota's basic financial statements. We have not performed any procedures with respect to the audited financial statements subsequent to December 28, 2018. Our opinion expressed therein, insofar as it relates to entities' financial statements that were audited by other auditors, was based solely on the reports of the other auditors. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Reguirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied by us and other auditors in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

Basis of Accounting

As described in Note 2C of the Notes to the Schedule of Expenditures of Federal Awards, the accompanying schedule is prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Unmodified Opinion

In our opinion, based on our audit and the reports of other auditors, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole in accordance with the cash basis of accounting described in Note 2C to the Schedule of Expenditures of Federal Awards.

Martin L. Guindon, CPA Auditor General

March 29, 2019

NOTE 1: Purpose of the Schedule

The Schedule of Expenditures of Federal Awards (Schedule) is a supplementary schedule to the State of South Dakota's (the State) basic financial statements and is presented for purposes of additional analysis. The Schedule is required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

NOTE 2: Significant Accounting Policies

- A. Reporting Entity The accompanying Schedule includes all federal financial assistance programs administered by the State, with the exception of South Dakota Housing Development Authority (SDHDA) as indicated in Note 3N, for the fiscal year ended June 30, 2018.
- **B.** Basis of Presentation The information in the Schedule is presented in accordance with Uniform Guidance.
 - 1. Federal Awards Federal financial assistance is defined in the Uniform Guidance as assistance that non-Federal entities receive or administer in the form of grants, cooperative agreements, non-cash contributions or donations of property, direct appropriations, food commodities, loans, loan guarantees, interest subsidies, insurance, and other financial assistance, but does not include amounts received as reimbursement for services rendered to individuals for Medicare and Medicaid.

The Schedule reports total disbursements for each federal financial assistance program as identified in the Catalog of Federal Domestic Assistance (CFDA). The CFDA is a government-wide compendium of individual federal financial assistance programs. Programs are assigned a five-digit program identification number (CFDA Number) and program name. Federal financial assistance programs and contracts which have not been assigned a CFDA number or, where management has been unable to determine the CFDA number, are identified with a two-digit number that identifies the federal awarding agency followed by 'UNKNOWN'.

- 2. Clusters of Programs Closely related programs with different CFDA numbers which share common compliance requirements are considered clusters of programs, as determined by the Office of Management and Budget (OMB). Most clusters of programs are contained within a single federal awarding agency and are reported on the Schedule under the respective awarding agency. Two clusters, the Research and Development Cluster and the Student Financial Assistance Cluster, have awards from two or more federal agencies. These clusters are reported on the Schedule in total under each federal awarding agency, with the detail for each individual award being shown by federal awarding agency at the bottom of the Schedule.
- **3. Type A and Type B Programs** The Uniform Guidance establishes the levels of expenditures or expenses to be used in defining Type A and Type B federal financial assistance programs. Type A programs for the State are those which equal or exceeded \$6,700,000 in expenditures/disbursements/issuances for the fiscal year ended June 30,

2018. Type B programs for the State are those which are less than \$6,700,000 in expenditures/disbursements/issuances for the fiscal year ended June 30, 2018.

C. Basis of Accounting - The information presented in the Schedule is presented on the cash basis of accounting, which is consistent with other federal grant reports. The State's basic financial statements are reported on the modified accrual or the accrual basis of accounting and, therefore, the Schedule's data may not be directly traceable to the basic financial statements.

The Schedule includes a portion of costs associated with general activities which are allocated to federal financial assistance programs under negotiated formulas commonly referred to as indirect cost rates. Several of South Dakota's state agencies have negotiated indirect cost rates or other approved cost allocation plans for the purpose of claiming indirect costs, while others do not. There were no state agencies that claimed the 10 percent de minimis cost rate during fiscal year 2018.

D. Expenditures and Expenses - All federal expenditures included in the Schedule are assistance received directly from the federal government or indirectly through entities from outside the State. When monies are received by one state grantee agency and re-distributed (expended) to another state grantee agency (i.e. a subaward of funds by the primary recipient state grantee agency to a subrecipient state grantee agency), the federal financial assistance is reflected in the primary receiving/expending state grantee agency's accounts. This is to avoid duplication and the overstatement of the aggregate level of federal financial assistance expended by the State.

NOTE 3: Other

- A. Commodities administered through distributing agencies totaling \$8,350,481 (\$7,307,261 under CFDA #10.555, \$2,112 under CFDA #10.559, and \$1,041,108 under CFDA #10.568) are included in the definition of expenditures of federal awards for the purpose of the accompanying Schedule. Commodities are valued at the last purchase price.
- B. As of June 30, 2018, donated federal surplus property (CFDA #39.003) reported on the Schedule totaled \$1,542,840, which represents 23.3% of the original acquisition cost of the federal surplus property received by the State. This percentage approximates the fair market value of the property at the time of distribution as determined by the General Services Administration.
- C. The amounts reported as federal expenditures for CFDA #64.014 and 64.015 represent cash received. Federal reimbursements are based on approved rates for services provided, rather than reimbursement for specific expenditures.
- D. Perkins Loan amounts (CFDA #84.038) include federal, state, and program revenues. The exact portion associated with federal dollars cannot be readily determined.

- E. Electronic benefits under the Supplemental Nutrition Assistance Program (SNAP) (CFDA #10.551) totaled \$133,001,069 and are included in the federal financial assistance reported on the Schedule.
- F. Federally funded loan programs had the following current fiscal year disbursement and outstanding loan balances at year end:

		Current	Outstanding	
CFDA		Administrative	Loan	Loan Balance
Number	Grant Program	Expense	Disbursement	June 30, 2018
66.458	Clean Water State Revolving Fund*	\$367,971	\$36,155,792	\$275,041,866
66.468	Drinking Water State Revolving Fund*	895,563	29,114,387	168,063,028
84.038	Perkins Loans Funds	238,517	3,464,450	24,634,535
93.264	Nurse Faculty Loan Program		191,099	935,023
93.342	Health Professions Student Loans/ Loans For Disadvantaged Students		1,499,178	9,627,370
93.364	Nursing Student Loans		649,100	2,316,161

* 83.333% of the loans receivable balance is federal funds.

G. Loans disbursed under the Federal Direct Student Loans program (CFDA #84.268) and issued to parents of eligible students or eligible students attending state universities had the following values:

Direct Subsidized Loans	\$ 49,978,483
Direct Unsubsidized Loans	90,253,229
Direct PLUS Program Loans	25,816,938

- H. During the fiscal year ended June 30, 2018, the South Dakota Department of Health (DOH) received \$4,061,074 in cash rebates from infant formula manufacturers on sales of formula to participants in the WIC Program (CFDA #10.557). Rebate contracts with infant formula manufacturers are authorized by 7 CFR 246.16(a) as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for WIC food. The rebate contract allowed the DOH to serve 5,537 more persons during fiscal year 2018.
- I. The South Dakota Department of Transportation (SDDOT) acts as a channeling state for the various Airport Improvement Program grants (CFDA #20.106) funded through the Federal Aviation Administration (FAA). The majority of these grants are between the FAA and cities, counties, and airport authorities that carry out the projects. Total reimbursements processed in fiscal year 2018 for channeling grants amounted to \$31,358,591. These monies are not reflected on the Schedule as expenditures of federal awards of the State. The \$280,829 reported on the Schedule under CFDA #20.106 was expended under a separate agreement

between the SDDOT and the FAA in which the SDDOT is considered the grant recipient and directly funds multiple small projects at these airports.

- J. The amount included as of June 30, 2018 on the unemployment insurance section of the Schedule (CFDA #17.225) includes the amount of federal unemployment insurance, the amount of the State's expenditure for unemployment insurance benefits, the amount of administrative expense, and the amount of Alternative Trade Adjustment Assistance as required by the U.S. Department of Labor and the Inspector General. The amounts are \$1,699,847, \$27,414,879, \$6,092,773, and \$89,956 respectively.
- K. The South Dakota Department of Agriculture, through the South Dakota Value Added Finance Authority (VAFA), participates in the United States Department of Agriculture Rural Business Cooperative Service (RBCS) Intermediary Relending Program (IRP). As of June 30, 2018, VAFA had drawn down \$2,197,831 of RBCS loan funds and had disbursed all of these RBCS funds. The total value of loans issued as of June 30, 2018 was \$3,561,600, with the total remaining loans outstanding as of June 30, 2018 equaling \$1,152,209.
- L. Department of Energy (DOE) programs were funded in part by Petroleum Violation Escrow (PVE) funds which represent the State's share of settlement proceeds in various lawsuits between the Federal Government and oil producers. During fiscal year 2018, the South Dakota Department of Tourism had \$914,479 in expenditures from the trust fund in support of DOE programs and received \$1,177,734 in loan payments. These expenditures are not included on the Schedule.
- M. The amount of expenditures reported for the Child Support Enforcement program (CFDA #93.563) was not reduced by \$1,874,368 which is the federal share of prior quarters' Title IV-A collections retained to fund the Child Support Enforcement program during fiscal year 2018.
- N. The South Dakota Housing Development Authority (SDHDA) is a discretely presented component unit of the State. Beginning with fiscal year 2018, the SDHDA has chosen to have its own separate Single Audit performed. The SDHDA has reported its federal expenditures, including loan information, previously reported on the State's Schedule in its own separate Single Audit. Copies of the SDHDA Single Audit are available from the Department of Legislative Audit, 427 South Chapelle, c/o 500 East Capitol, by calling (605) 773-3595, or online at http://legislativeaudit.sd.gov/reports/reports.aspx.

AUDITOR'S REPORTS ON INTERNAL CONTROL AND COMPLIANCE

AUDITOR'S REPORTS ON INTERNAL CONTROL AND COMPLIANCE

427 SOUTH CHAPELLE C/O 500 EAST CAPITOL PIERRE SD 57501-5070 (605)773-3595

MARTIN L. GUINDON, CPA AUDITOR GENERAL

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Dennis Daugaard Governor of South Dakota

and

Members of the Legislature State of South Dakota

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of South Dakota (State) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the State's basic financial statements and have issued our report thereon dated December 28, 2018. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. The financial statements of the discretely presented component units (foundations) of Higher Education were not audited in accordance with Government Auditing Standards, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the discretely presented component units (foundations) of Higher Education. Our report includes a reference to other auditors who audited the financial statements of the Unemployment Insurance Fund, the South Dakota Retirement System, the South Dakota Housing Development Authority, the South Dakota Ellsworth Development Authority and foundations of Higher Education as described in our report on the State's financial statements. Except for the discretely presented component units (foundations) of Higher Education, this report includes our consideration of the results of the other auditors' testing of internal control over financial reporting and compliance and other matters that are reported on separately by those other auditors. However, this report, insofar as it relates to the results of the other auditors, is based solely on the reports of the other auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying "Schedule of Findings and Questioned Costs," we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2018-001 and 2018-002 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as finding number 2018-003 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

State's Response to Findings

The State's responses to the findings identified in our audit are described in the accompanying "Schedule of Findings and Questioned Costs". The State's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

Martin L. Guindon, CPA Auditor General

December 28, 2018

427 SOUTH CHAPELLE C/O 500 EAST CAPITOL PIERRE SD 57501-5070 (605)773-3595

MARTIN L. GUINDON, CPA AUDITOR GENERAL

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Honorable Kristi Noem Governor of South Dakota

and

Members of the Legislature State of South Dakota

Report on Compliance for Each Major Federal Program

We have audited the State of South Dakota's (State's) compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the State's major federal programs for the year ended June 30, 2018. The State's major federal programs are identified in the "Summary of Auditor's Results" section of the accompanying "Schedule of Findings and Questioned Costs."

The State's basic financial statements include the operation of the South Dakota Housing Development Authority (discretely presented component unit), which expended \$114,673,391 in federal awards which are not included on the schedule of expenditures of federal awards for the year ended June 30, 2018. Our audit, described below, did not include the operations of the South Dakota Housing Development Authority because the component unit has a separately issued audit in accordance with the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the State's major federal programs based on our audit of the types of compliance requirements referred to above.

As stated in our report on the basic financial statements, we did not audit the financial statements of the Unemployment Insurance Fund, the South Dakota Retirement System, the South Dakota Housing Development Authority, the South Dakota Ellsworth Development Authority and foundations of Higher Education. Those statements were audited by other auditors whose reports, including reports on compliance and internal control over compliance, have been furnished to us. Our report on the basic financial statements and this report, insofar as it relates to the amounts included for these entities and their

compliance and internal control over compliance, excluding the South Dakota Housing and Development Authority, are based solely on the reports of the other auditors.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of the Uniform Guidance. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the State's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit and the reports of other auditors provide a reasonable basis for our qualified and unmodified opinions on compliance for major federal programs. However, our audit and the reports of other auditors do not provide a legal determination of the State's compliance.

Basis for Qualified Opinion on CFDA 93.889 National Bioterrorism Hospital Preparedness Program

As described in the accompanying "Schedule of Findings and Questioned Costs," the State did not comply with requirements regarding CFDA 93.889 National Bioterrorism Hospital Preparedness Program as described in finding number 2018-005 for Cash Management, Period of Performance, and Subrecipient Monitoring, and 2018-006 for Allowable Costs. Compliance with such requirements is necessary, in our opinion, for the State to comply with the requirements applicable to that program.

Qualified Opinion on CFDA 93.889 National Bioterrorism Hospital Preparedness Program

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the State complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on CFDA 93.889 National Bioterrorism Hospital Preparedness Program for the year ended June 30, 2018.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, based on our audit and the reports of other auditors, the State complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the "Summary of Auditor's Results" section of the accompanying "Schedule of Findings and Questioned Costs" for the year ended June 30, 2018.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying "Schedule of Findings and Questioned Costs" as items 2018-004, 2018-005, and 2018-006. Except for the noncompliance described in the Basis for Qualified Opinion paragraph, our opinion on each federal program is not modified with respect to these matters.

The State's response to the noncompliance findings identified in our audit is described in the accompanying "Schedule of Findings and Questioned Costs" and "Auditee Prepared Corrective Action Plan." The State's response and "Auditee Prepared Corrective Action Plan" were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

Report on Internal Control Over Compliance

Management of the State is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the State's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the

auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be a material weakness and significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying "Schedule of Findings and Questioned Costs" as items 2018-005 to be a material weakness.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying "Schedule of Findings and Questioned Costs" as items 2018-004 and 2018-006 to be significant deficiencies.

The State's response to the internal control over compliance findings identified in our audit is described in the accompanying "Schedule of Findings and Questioned Costs" and "Auditee Prepared Corrective Action Plan." The State's response and "Auditee Prepared Corrective Action Plan" were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

Martin L. Guindon, CPA Auditor General

DEPARTMENT OF REVENUE

CURRENT AUDIT FINDINGS AND RECOMMENDATIONS

Financial Statement Audit Finding:

<u>Finding No. 2018-001</u>: Inadequate Controls over Business Tax Revenue Reconciliations <u>Type of Finding</u>: Material Weakness

Criteria:

The Committee of Sponsoring Organizations of the Treadway Commission (COSO) in the *Internal Control – Integrated Framework (2013 Framework)* defined internal control as:

... a process, effected by an entity's board of directors, management, and other personnel, designed to provide reasonable assurance regarding the achievement of objectives relating to operations, reporting, and compliance.

The Government Accountability Office – *Standards for Internal Control in the Federal Government* principle of internal control 10 states, "The organization selects and develops control activities that contribute to the mitigation of risks to the achievement of objectives to acceptable levels." and principle 12 states, "The organization deploys control activities through policies that establish what is expected and procedures that put policies into action."

The Government Accountability Office – *Standards for Internal Control in the Federal Government* principle of internal control 16 states, "[m]anagement should establish and operate monitoring activities to monitor the internal control system and evaluate the results" and principle 17 states, "[m]anagement should remediate identified internal control deficiencies on a timely basis".

Condition:

The Department of Revenue (DOR) utilizes the CEDAR computer system to record business tax revenue received from individual taxpayers and the distributions of the revenue. The State's accounting system is used to record the gross revenue deposited from business taxes along with the taxes that were distributed to State funds or other governments. An important internal control is the reconciliation of the subsidiary record, the CEDAR system, to the State's accounting system.

As noted in prior audit finding No. 2017-001, the DOR had not completed reconciliations after April 2016. After discussion with our office the DOR completed a comparison between the two systems and identified reconciling items. However, the procedures performed by the DOR did not include identifying the adjustments needed to CEDAR or the State's accounting system for the reconciling items. For FY2018 we found that similar comparisons between the two systems were performed. We noted that the October 2017 reconciliation identified 48 documents dating back to 7/1/2015 as reconciling items. The absolute value of these documents was \$1,794.987.59. Reconciling items that are identified should be investigated and appropriately resolved on a timely basis.

Cause:

Internal controls over the business tax revenue reconciliation were not adequate to ensure the reconciliations are appropriately completed and business tax revenue is accurately reported.

DEPARTMENT OF REVENUE (Continued)

<u>Effect</u>:

As a result of inadequate internal controls over business tax reconciliations, there is an increased risk the DOR is not able to prevent, detect and correct errors on a timely basis, increasing the likelihood of improper revenue recognition and reporting.

Repeat Finding from Prior Year:

Yes – Finding No. 2017-001

Recommendations:

- 1. We recommend that controls be implemented to ensure effective reconciliations of Business tax revenue and timely resolution of any issues.
- 2. We recommend formal policies and procedures be developed that provide guidance on the duties to be performed by the personnel responsible for ensuring the accuracy of business tax revenue.
- 3. We recommend monitoring be improved to ensure controls are operating as intended.

Views of Responsible Officials:

The Department concurs with the finding and offers the following corrective action plans.

As discussed last year, the department had experienced turnover in a critical position for an extended period of time. Following filling that critical position, DOR had also conducted Lean events and identified gaps in our staffing efforts. During the 2018 Legislative Session, we requested and were approved to hire an additional accountant for the Finance team. We have filled that position and have been working diligently to train, document and re-distribute the work load to strengthen the internal controls of the reconciliations. The Legislative Audit team has provided helpful feedback as we are developing policies and procedures.

The DOR Finance team has identified a primary accountant and a back-up for the completion of each reconciliation to ensure proper coverage in the event of absence or vacancy. All variances will be investigated with assistance from accounting staff within the respective division. Completed reconciliations will be approved by the Director of Finance each month, including documentation on reconciling items carrying over. Additionally, an internal audit by independent staff will occur to assure policies and procedures are appropriately followed.

DEPARTMENT OF REVENUE

CURRENT AUDIT FINDINGS AND RECOMMENDATIONS

Financial Statement Audit Finding:

<u>Finding No. 2018-002</u>: Inadequate Controls Over Motor Fuel Tax Revenue Reconciliations <u>Type of Finding</u>: Material Weakness

Criteria:

The Committee of Sponsoring Organizations of the Treadway Commission (COSO) in the *Internal Control – Integrated Framework (2013 Framework)* defined internal control as:

... a process, effected by an entity's board of directors, management, and other personnel, designed to provide reasonable assurance regarding the achievement of objectives relating to operations, reporting, and compliance.

The Government Accountability Office – *Standards for Internal Control in the Federal Government* principle of internal control 10 states, "The organization selects and develops control activities that contribute to the mitigation of risks to the achievement of objectives to acceptable levels" and principle 12 states, "The organization deploys control activities through policies that establish what is expected and procedures that put policies into action."

The Government Accountability Office – *Standards for Internal Control in the Federal Government* principle of internal control 16 states, "[m]anagement should establish and operate monitoring activities to monitor the internal control system and evaluate the results" and principle 17 states, "[m]anagement should remediate identified internal control deficiencies on a timely basis".

Condition:

The Department of Revenue (DOR) utilizes the CEDAR computer system to record motor fuel tax revenue received from individual taxpayers and the distributions of the revenue. The State's accounting system (SDAS) is used to record the gross revenue deposited from motor fuel taxes along with the taxes that were distributed to State funds or other governments. An important internal control is the reconciliation of the subsidiary record, the CEDAR system, to the State's accounting system. Procedures performed by the DOR did not include identifying the adjustments needed to CEDAR or the State's accounting system for the reconciling items. Reconciling items that are identified should be investigated and appropriately resolved on a timely basis.

The following items were identified during testing of a sample of monthly reconciliations.

- a. The reconciliation for July 2017 included a reconciling item for a refund which was recorded on the taxpayer's account on CEDAR, but the refund was never made by the DOR and as such was not on SDAS. The CEDAR refund was initiated in July 2016.
- b. Multiple reconciling items were noted on the reconciliations dating back to FY2017. The DOR did not appear to be investigating and resolving these items.
- c. The January reconciliation contained a \$1.2 million amount that was used to balance the reconciliation. The \$1.2 million error occurred in a prior month and was not corrected for an additional three months after the reconciliation.

<u>Cause</u>:

The internal controls over motor fuel tax revenue reconciliations are not adequate to ensure the motor fuel tax revenue is accurately reported.

Effect:

As a result of inadequate internal controls over motor fuel tax reconciliations, there is a high risk the DOR is not able to prevent, detect and correct errors on a timely basis, increasing the likelihood of improper revenue recognition and reporting.

<u>Repeat Finding from Prior Year:</u> No.

Recommendations:

- 1. We recommend that controls be implemented to ensure effective reconciliations of motor fuel tax revenue and timely resolution of any issues.
- 2. We recommend formal policies and procedures be developed that provide guidance on the duties to be performed by the personnel responsible for ensuring the accuracy of motor fuel tax revenue.
- 3. We recommend monitoring be improved to ensure controls are operating as intended.

Views of Responsible Officials:

The Department concurs with the finding and offers the following corrective action plans.

As discussed last year, the department had experienced turnover in a critical position for an extended period of time. Following filling that critical position, DOR had also conducted Lean events and identified gaps in our staffing efforts. During the 2018 Legislative Session, we requested and were approved to hire an additional accountant for the Finance team. We have filled that position and have been working diligently to train, document and re-distribute the work load to strengthen the internal controls of the reconciliations. The Legislative Audit team has provided helpful feedback as we are developing policies and procedures.

The DOR Finance team has identified a primary accountant and a back-up for the completion of each reconciliation to ensure proper coverage in the event of absence or vacancy. All variances will be investigated with assistance from accounting staff within the respective division. Completed reconciliations will be approved by the Director of Finance each month, including documentation on reconciling items carrying over. Additionally, an internal audit by independent staff will occur to assure policies and procedures are appropriately followed.

The refund and payment policy has been updated to include a notification to the originator when a refund or requested payment has been processed. This will help to avoid the oversight that occurred with respect to the refund.

CURRENT AUDIT FINDINGS AND RECOMMENDATIONS

Financial Statement Audit Finding:

<u>Finding No. 2018-003</u>: Inadequate Controls over Motor Vehicle Titles & Registrations (T&R) Revenue Reconciliations Type of Finding: Significant Deficiency

Criteria:

The Committee of Sponsoring Organizations of the Treadway Commission (COSO) in the Internal Control – Integrated Framework (2013 Framework) defined internal control as:

... a process, effected by an entity's board of directors, management, and other personnel, designed to provide reasonable assurance regarding the achievement of objectives relating to operations, reporting, and compliance.

The Government Accountability Office – *Standards for Internal Control in the Federal Government* principle of internal control 10 states, "The organization selects and develops control activities that contribute to the mitigation of risks to the achievement of objectives to acceptable levels." Principle of internal control 12 states, "The organization deploys control activities through policies that establish what is expected and procedures that put policies into action."

The Government Accountability Office – *Standards for Internal Control in the Federal Government* principle of internal control 16 states, "[m]anagement should establish and operate monitoring activities to monitor the internal control system and evaluate the results" and principle 17 states, "[m]anagement should remediate identified internal control deficiencies on a timely basis".

Condition:

The Department of Revenue (DOR) utilized the SDCARS system to record and track T&R revenue from individual taxpayers and distributions of the revenue. The State's accounting system (SDAS) is used to record the gross revenue deposited from business taxes along with the taxes that were distributed to State funds or other governments. An important control is the reconciliation of the subsidiary record, the SDCARS system, to SDAS. The DOR had not performed adequate reconciliations of the T&R tax revenue and distributions from the SDCARS system to SDAS since 2016.

While a year-to-date (YTD) and monthly reconciliations were performed, reconciling items were not resolved. The YTD reconciliations listed several reconciling items dating back to July 2016 that remained on the FY2018 reconciliations and contained line items such as "out of balance" that could not be duplicated by the auditors.

The monthly reconciliations did not adequately compare SDAS to SDCARS and did not consider variances in county remittances. For the month of February, one county missed a payment of \$142,583.29 and another county overpaid by \$241,866.86. These payment variances were listed on a separate tracking worksheet, but not addressed as reconciling items on the face of the reconciliation. Two months had discrepancies that were caused by typos within the data used to build the reconciliation, causing reconciling items that didn't exist.

<u>Cause</u>:

Controls and formal policies and procedures are not adequate to ensure the T&R revenue is accurately reported.

Effect:

As a result of the inadequate internal controls over T&R reconciliations, there is a higher risk that DOR would not be able to prevent, detect, and correct errors on a timely basis increasing the likelihood of improper revenue recognition, inaccurate reporting and noncompliance with State laws.

Repeat Finding from Prior Year:

Yes – Finding No. 2017-005

Recommendations:

- 1. We recommend that controls be implemented to ensure effective reconciliations over the recording of T&R revenue and the timely resolution of any issues.
- We recommend formal policies and procedures be developed that provide guidance on the duties to be performed by the personnel responsible for ensuring the accuracy of T&R revenue
- 3. We recommend monitoring be improved to ensure controls are operating as intended.

Views of Responsible Officials:

The Department concurs with the finding and offers the following corrective action plans.

As discussed last year, the department had experienced turnover in a critical position for an extended period of time. Following filling that critical position, DOR had also conducted Lean events and identified gaps in our staffing efforts. During the 2018 Legislative Session, we requested and were approved to hire an additional accountant for the Finance team. We have filled that position and have been working diligently to train, document and re-distribute the work load to strengthen the internal controls of the reconciliations. The Legislative Audit team has provided helpful feedback as we are developing policies and procedures.

The DOR Finance team has identified a primary accountant and a back-up for the completion of each reconciliation to ensure proper coverage in the event of absence or vacancy. All variances will be investigated with assistance from accounting staff within the respective division. Completed reconciliations will be approved by the Director of Finance each month, including documentation on reconciling items carrying over. Additionally, an internal audit by independent staff will occur to assure policies and procedures are appropriately followed.

While the variances were not listed on the cover sheet of the reconciliation, they were documented and were actively investigated and resolved. We have also spent a significant amount of time working with Bureau of Information and Telecommunications (BIT) programmers to re-design monthly reports to improve the reconciliation efforts between SDCars and the state accounting system.

CURRENT AUDIT FINDING AND RECOMMENDATIONS

Federal Compliance Audit Finding:

<u>Finding No. 2018-004</u>: Inadequate controls over the calculation of Diagnosis Related Group (DRG) reimbursement rates <u>Type of Finding</u>: Significant Deficiency and Noncompliance

CFDA Titles: Medical Assistance Program (Medicaid), Children's Health Insurance Program, Refugee and Entrant Assistance State/Replacement Designee Administered Programs CFDA Numbers: 93.778, 93.767, 93.566 Federal Award Numbers: 1805SDMAP, 1805SD5021, 1801SDRCMA Federal Award Year: FFY18 Federal Agency: Department of Health and Human Services Category of Finding: Allowable Costs/Cost Principles. Questioned Costs: Total questioned costs - \$4,188,510.38 CFDA 93.778, Federal Award Number - 1805SDMAP = \$3,730,187.07

CFDA 93.778, Federal Award Number – 1805SDMAP = \$3,730,187.07CFDA 93.767, Federal Award Number – 1805SD5021 = \$445,256.31CFDA 93.566, Federal Award Number – 1801SDRCMA = \$13,067.00

Criteria:

The Medicaid State Plan, Attachment 4.19A outlines the method of reimbursement for inpatient services provided by hospitals to eligible recipients. Under the Medicaid State Plan, the Department of Social Services (DSS) reimburses hospitals for inpatient services, with a few limited exceptions, using a prospective Diagnosis Related Group (DRG) methodology. Under the DRG methodology, hospitals are reimbursed for services provided based on the charges to treat eligible patients, including both labor and non-labor resources. All the services provided to an eligible patient during their hospital stay are bundled into groups, referred to as DRGs. DRGs are based on several factors, including but not limited to, the reason for the hospitalization, procedures performed, any complicating factors, and patient demographics. DRG payment rates cover most routine operating costs attributable to patient care, including routine nursing services, room and board, and diagnostic and ancillary services.

DRG reimbursement rates are updated annually on October 1st (the beginning of the federal fiscal year) using complex statistical calculations based on the latest three years of claim data for inpatient hospital stays. Certain claims known as "outliers" have extremely high charge amounts compared to the average claim and are excluded from the calculations. Through these calculations, each DRG is assigned a "weight" based on historical charges, excluding any outliers, associated with that DRG. The weight assigned to each DRG is then used in the calculation of the amounts paid to reimburse hospitals for inpatient claims.

Cause:

The controls in place over the calculation of DRG weights for inpatient hospitals were inadequate to ensure the proper calculation of Medicaid reimbursement rates or to identify and correct errors to prevent the improper payment of Medicaid claims. Manual processes were used by a single individual to perform extremely complex calculations without further verification or adequate oversight.

DEPARTMENT OF SOCIAL SERVICES (Continued)

Condition:

DRG weights are calculated by a single individual at DSS using Microsoft Excel spreadsheets with imbedded formulas. During the audit, DSS informed us that they had been notified of an error in the original DRG weight calculations and had revised the spreadsheets to correct the error. We obtained the revised spreadsheets and reviewed them as part of our audit procedures. Using the revised spreadsheets, we reviewed DSS' methodology and recalculated the determinations of the South Dakota specific DRG weights.

The following errors were noted:

- 1. Outlier claims were not properly removed from the population of claims used in the calculations to set the DRG weights. The inclusion of outlier claims affects the calculation of all DRG weights and can have a substantial effect, especially on DRGs that have a small number of claims.
- 2. The wrong claim dates were used in one calculation. DSS included 14,776 claims in the spreadsheet used to calculate the adjustment factor, but according to DSS policy, which states that the 'thru date' of claims should be used, only 13,412 claims should have been included in this calculation. The 'thru date' on the Medicaid Management Information System (MMIS) is the day of discharge from the hospital.
- 3. There were two formulas on the spreadsheet used to calculate the adjustment factor that did not properly include all the cells that should have been included.
- 4. The target amount factor in the payment rate for one hospital was not properly adjusted in the MMIS system by the inflationary factor of 0.50% approved by the SD Legislature.

These errors were communicated to DSS for review. DSS concurred with the errors noted, made corrections, and reperformed the DRG weight calculations. We obtained the revised spreadsheets and the methodology and DRG weight calculations were reviewed. Errors in the DRG weight calculations were again noted as identified below.

- 5. Inpatient claims from one hospital were improperly excluded from the population of claims used in the calculations of DRG weights.
- 6. The calculations for the adjustment factor were not reperformed or corrected for the errors shown above in #'s 2 and 3. The same improper number was used again as the adjustment factor.

These errors were communicated to DSS for review. DSS concurred with the errors noted and reperformed the DRG weight calculations after making corrections to the spreadsheets. DSS also performed procedures to identify the dollar amounts of these errors and to determine their effect on inpatient claims paid in FY2018. We obtained the revised spreadsheets from DSS and the methodology and DRG weight calculations were reviewed. After we determined the propriety of the revised DRG weight calculations, the spreadsheets used by DSS to calculate the dollar amount of these errors were also obtained from DSS and reviewed.

In order to calculate the impact of these errors on the claims paid to inpatient hospitals during FY18, we first had to determine the amount that should have been reimbursed using proper DRG calculations, and the amount that was reimbursed based on the errors noted. The difference between these two amounts, multiplied by the Federal Medical Assistance Percentage (FMAP) rate in effect for FFY18, was considered questioned costs.

DEPARTMENT OF SOCIAL SERVICES (Continued)

All DRG reimbursed inpatient claims with a thru date greater than or equal to October 1, 2017 that were paid during State FY2018 were downloaded from the MMIS system by DSS and Bureau of Information Technology (BIT) personnel. These claims were then used by BIT personnel to run a program using the final corrected DRG weights to determine what the proper payment amounts should have been. This data was placed into a spreadsheet by DSS personnel and the original paid claim amounts were compared to the corrected paid claim amounts to determine the total amount of overpayments to the hospitals. We multiplied this amount by the SD FMAP rate for FFY 2018 to determine the federal share of the payments, which we consider questioned costs.

We performed audit procedures to verify the accuracy of the data used to calculate questioned costs provided by DSS and BIT personnel. To verify that the paid claims data downloaded by DSS personnel off the MMIS system was complete, we compared it to the amount of inpatient hospital claim expenditures recorded on the State's accounting system during the same time period. No material variances were noted. We also judgmentally selected three inpatient providers and traced all paid inpatient claims for these providers from the MMIS system to data that DSS provided to BIT for the time period without variance.

To verify that final paid claim amounts were properly corrected on the DSS spreadsheet used to calculate guestioned costs, we selected a sample of 40 claims from the final claim calculations performed by DSS personnel. These claims were then recalculated with the final revised DRG weights to determine that the DSS updated paid claim amounts were proper. During this review, we discovered that payment rates at the two DRG-reimbursed psychiatric hospitals were also improperly calculated. For these two providers, claims with a discharge date on or after October 1, 2017 were overpaid until a 0.50% inflationary rate increase was approved and programmed into the MMIS system in April 2018. With the exception of the two psychiatric hospitals, we determined that the DSS calculation of the overpayment amount to providers was accurate. The amount calculated by DSS also included some additional amounts related to MMIS programming errors that were noted by DSS personnel when reviewing the DRG payment methodology and errors noted during our audit. These amounts were also reviewed and determined to be proper. Because the spreadsheets provided by DSS included all claims paid with DRG calculation errors and we were able to verify the accuracy of these spreadsheets, the total amount of the variances from the spreadsheets were determined to include all questioned costs and there are no questioned costs to be projected.

Effect:

Several errors were made in the calculation of inpatient hospital reimbursement rates for FFY 2018, resulting in inpatient hospitals reimbursed under the DRG methodology being overpaid a total of \$6,734,217 during State Fiscal Year 2018. Of this amount, \$4,188,510 was paid from federal funds.

Recommendations:

- 1. We recommend that DSS implement stronger controls over the calculations of DRG weights in order to prevent and detect errors and to ensure that the proper populations are being used in the calculations.
- 2. We recommend that DSS recover the overpayments from the providers.

Views of Responsible Officials:

The Department of Social Services concurs with the finding.

CURRENT AUDIT FINDINGS AND RECOMMENDATIONS

Federal Compliance Audit Finding:

<u>Finding No. 2018-005</u>: Inadequate controls over subrecipients **Type of Finding**: Material Weakness and Noncompliance

CFDA Title: National Bioterrorism Hospital Preparedness Program CFDA Number: 93.889 Federal Award Number: NU90TP921882 Federal Award Year: FFY16, FFY17, FFY18 Federal Agency: Department of Health and Human Services (DHHS), Centers for Disease Control and Prevention Category of Finding: Cash Management, Period of Performance, Subrecipient Monitoring

Criteria:

There were four subrecipient agreements paid from the National Bioterrorism Hospital Preparedness Program by the South Dakota Department of Health (DOH) in FY18. The agreements stipulate that FY18 period of performance was effective on June 1, 2017 and would end on August 31, 2018. Subrecipients were also paid in prior years. The prior year agreements stipulated the period of performance as July 1, 2016 thru August 31, 2017 (for FY17) and July 1, 2015 thru June 30, 2016 (for FY16). The payment provision of the agreements stipulated that the State would pay, upon State's satisfaction that services have been completed, up to \$125,000.

The Uniform Administrative Requirements 2 CFR section 200.305(b)(1) states, "... Advance payments to a non-Federal entity must be limited to the minimum amounts needed and be timed to be in accordance with the actual, immediate cash requirements of the non-Federal entity in carrying out the purpose of the approved program or project...."

Condition:

- As part of performing its subrecipient monitoring activities, the DOH performed a desk review of one subrecipient in March 2018. The desk review included the review of financial information. Documents received from the subrecipient indicated that costs incurred in January 2018 were charged to the FY16 and FY17 grants. These grants should have already been spent as their period of performance had expired. DOH asked the subrecipient, along with several other questions, why this occurred as the grants were supposed to have been already spent. DOH never received a response for this specific question and did not follow-up on the question.
- 2. The DOH paid the four subrecipients \$125,000 each in advance of the activities being completed which was in violation of the terms of the subrecipient agreements.
- 3. Documentation received by the DOH as part of its desk review identified that the subrecipient had \$89,600 of the \$125,000 advance remaining to be spent two months after receiving the money which indicated that the funds were not needed for the immediate cash requirements as required by the Uniform Administrative Requirements.

Cause:

- 1. Procedures were not in place to ensure that questions arising from the desk review were satisfactorily answered.
- 2. Periodic financial reports were not received from the subrecipients and reviewed to ensure compliance with federal regulations.

3. Payments were made to subrecipients in advance of the need of the funds and in violation of the subrecipient agreement provisions.

Effect:

Payments were made to subrecipients in advance of their need for funds and in violation of the terms of the subrecipient agreements. Subrecipient monitoring was not adequate which increased the risk that funds were not properly spent in accordance with the subrecipient agreement, grant requirements and federal regulations. Internal controls were not adequate for monitoring the period during which the funds were available for obligation under the program.

Questioned Costs:

None

Further Information:

The four subrecipients identified in the finding were the only subrecipients paid from the grant.

Recommendations:

- 1. We recommend the Department implement policies and procedures to ensure subrecipients are providing periodic financial reports and that the reports are reviewed to ensure compliance with grant and subrecipient agreement requirements.
- 2. We recommend the Department improve subrecipient monitoring procedures to ensure all questions are appropriately answered and resolved.
- 3. We recommend the Department make payment to subrecipients based upon their submission of claims for eligible expenditures and in accordance with federal regulations ensuring the time is minimized between the disbursement of funds and the drawdown.

Views of Responsible Officials:

The Department of Health (DOH) concurs with the finding. However, DOH would provide the following clarifying information about this audit finding. DOH did follow up on subrecipient questions through email and conference calls. In addition, the expenditure period for the FY17 federal award was extended to 6/30/18 and all FY17 funds were expended during this period.

CURRENT AUDIT FINDINGS AND RECOMMENDATIONS

Federal Compliance Audit Finding:

<u>Finding No. 2018-006</u>: Inadequate controls over allowable costs **<u>Type of Finding</u>**: Significant Deficiency and Noncompliance

CFDA Title: National Bioterrorism Hospital Preparedness Program CFDA Number: 93.889 Federal Award Number: NU90TP921882 Federal Award Year: FFY18 Federal Agency: Department of Health and Human Services (DHHS), Centers for Disease Control and Prevention Category of Finding: Allowable Costs Questioned Costs: \$25,000

Criteria:

The consultant contract between the South Dakota Department of Health and Jeff Luther, MD specified certain responsibilities that the consultant was to perform, including publishing one article per quarter in the EMS Program newsletter. Payment by the State was to be made in an amount up to \$25,000 upon satisfaction that the services had been completed. The contract also provided that the payment would be at \$100 per hour upon receipt of an invoice.

Condition:

There were two \$12,500 payments made on the contract. The invoices did not identify the hours worked, only that the amount was due for professional services performed under the contract. We also noted that the consultant did not publish any articles in the newsletter.

Cause:

The internal controls were inadequate over ensuring contracts requirements were met and services were provided.

Effect:

The contract requirements were not met by the consultant. The contract payments should not have been made.

<u>Questioned Costs</u>: \$25,000

Further Information:

This was the total paid to the consultant under the contract in FY18.

Recommendation:

We recommend that the Department of Health to implement procedures and internal controls to ensure that contract requirements are met prior making payment.

Views of responsible Officials:

The Department of Health concurs with the finding.

SOUTH DAKOTA ELLSWORTH DEVELOPMENT AUTHORITY

The following was issued under a separate audit of the Ellsworth Development Authority by Ketel Thorstenson, LLP.

CURRENT AUDIT FINDING AND RECOMMENDATION

Financial Statement Audit Finding:

Finding No. 2018-007:

Significant Deficiency - Audit Adjustment

Condition and Cause:

As part of the audit, we posted an audit adjustment to reclassify the proper portion of insurance expenditures from the general fund to the waste water treatment plant fund. Based on a representation from management, the portion of the insurance related to each fund had not been previously detailed out. After making this reclassification, an additional receivable was also recorded in order to recoup the proper costs from the plant fund users.

Criteria and Effect:

Governmental accounting standards require that expenditures specific to a fund be coded to that fund, regardless of where payment originates, in order to present accurate results of operations.

Repeat Finding from Prior Year:

Yes, prior year finding 2017-012.

Recommendation:

The Authority should allocate insurance costs to the waste water treatment plant fund on a monthly basis and incorporate those costs into a regular billing cycle. This will allow management to collect all fees on a timely basis and provide more accurate debt covenant monitoring.

Views of Responsible Officials:

The Authority agrees with the above finding.

SOYBEAN RESEARCH AND PROMOTION COUNCIL

The following was issued under a separate audit of the Soybean Research and Promotion Council by Eide Bailly, LLP.

CURRENT AUDIT FINDINGS AND RECOMMENDATIONS

Financial Statement Audit Finding:

Finding No. 2018-008:

Preparation of Full Disclosure Financial Statements and Restatement

Criteria:

Proper controls over financial reporting include the ability to prepare financial statements and accompanying notes to the financial statements that are materially correct.

Condition:

The Council does not have an internal control system designed to provide for the preparation of the financial statements being audited. We were requested to draft the financial statements and accompanying notes to the financial statements. As auditors, we proposed material audit adjustments that would not have been identified as a result of the Council's existing internal controls.

Cause:

The Council has limited staff. They cannot justify having an individual on staff with the proper accounting skills necessary for preparing the draft financial statements and accompanying notes to the financial statements.

Effect:

The prior year financial statements understated the assessment receivable and assessment revenue for amounts subsequently received within the defined sixty-day accrual period. Accordingly, an adjustment was made to restate beginning restricted fund balance. In addition, the Council's equity interest in Northern Soy Marketing, LLC was not recorded as an asset. Inadequate controls over financial reporting of the Council could result in the likelihood that the Council would not be able to draft the financial statements and accompanying notes to the financial statements that are materially correct without the assistance of the auditors.

Recommendation:

While we recognize that this condition is not unusual for an organization of your size, it is important that you be aware of this condition for financial reporting purposes. Management and the Board should continually be aware of the financial accounting and reporting requirements of the Council as well as changes in these requirements.

Views of Responsible Officials:

Since it is not cost-effective for an organization of our size to have an individual on staff to prepare audit ready financial statements, we have chosen to hire Eide Bailly, a public accounting firm, to prepare our financial statements as part of the annual audit. We have designated a member of management to review the propriety of the draft financial statements and accompanying notes to the financial statements.

SOYBEAN RESEARCH AND PROMOTION COUNCIL (Continued)

CURRENT AUDIT FINDINGS AND RECOMMENDATIONS

Financial Statement Audit Finding:

Finding No. 2018-009:

Segregation of Duties

Criteria:

An effective system of internal controls depends on an adequate segregation of duties with respect to the execution and recording of transactions, as well as the custody of an entity's assets. Accordingly, an effective system of internal control will be designed such that these functions are performed by different employees, so that no one individual handles a transaction from its inception to its completion.

Condition:

The Council has a limited number of office personnel, which prevents an ideal segregation of duties for controls over financial reporting.

<u>Cause</u>:

The Council had personnel turnover during the year resulting in the reassignment of duties.

Effect:

The lack of segregation of duties increases the risk of fraud related to misappropriation of assets, financial statement misstatement, or both.

Recommendation:

While we recognize that this condition is not unusual for an organization of your size, it is important that you be aware of this condition for financial reporting and fraud purposes. Management and the Board should continually be aware of the financial accounting and reporting requirements of the Council as well as changes in these requirements.

Views of Responsible Officials:

The Board of Directors performed various oversight roles throughout the year due to the personnel turnover, but is aware of the risk relating to the limited staff performing the daily activities.

CORN UTILIZATION COUNCIL

The following was issued under a separate audit of the Corn Utilization Council by Eide Bailly, LLP.

CURRENT AUDIT FINDINGS AND RECOMMENDATIONS

Financial Statement Audit Finding:

Finding No. 2018-010:

Preparation of Financial Statements and Restatement

Criteria:

Proper controls over financial reporting include the ability to prepare financial statements and accompanying notes to the financial statements that are materially correct.

Condition:

The Council does not have an internal control system designed to provide for the preparation of the financial statements being audited. We were requested to draft the financial statements and accompanying notes to the financial statements. As auditors, we proposed a material audit adjustment that would not have been identified as a result of the Council's existing internal controls.

Cause:

The Council has limited staff. They cannot justify having an individual on staff with the proper accounting skills necessary for preparing the draft financial statements and accompanying notes to the financial statements.

Effect:

The financial statements omitted a material assessment receivable for amounts subsequently received within the defined sixty-day accrual period and understated assessment revenue by the same amount. Accordingly, adjustments were made to restate beginning restricted fund balance and to record the assessment receivable at year end. Inadequate controls over financial reporting of the Council could result in the likelihood that the Council would not be able to draft the financial statements and accompanying notes to the financial statements that are materially correct without the assistance of the auditors.

Recommendation:

While we recognize that this condition is not unusual for an organization of your size, it is important that you be aware of this condition for financial reporting purposes. Management and the Board should continually be aware of the financial accounting and reporting requirements of the Council as well as changes in these requirements.

Views of Responsible Officials:

Since it is not cost-effective for an organization of our size to have an individual on staff to prepare audit ready financial statements, we have chosen to hire Eide Bailly, a public accounting firm, to prepare our financial statements as part of the annual audit. Management and the Board of Directors will review for propriety the draft financial statements and accompanying notes to the financial statements.

CORN UTILIZATION COUNCIL (Continued)

CURRENT AUDIT FINDINGS AND RECOMMENDATIONS

State Compliance Audit Finding:

Finding No. 2018-011:

Late Payment of Producer Refund

Criteria:

Per SDCL 38-32-20: Upon the return of the refund application, accompanied by a record of the assessment by the first purchaser, the grower shall, within sixty days, be refunded the net amount of the assessment collected.

Condition:

The Council failed to remit refund for application #69469 within the 60-day mandate of SDCL 38-32-20.

Cause:

The Council makes an effort to contact producers with significant refunds greater than \$1,000 to discuss their options and explain the Council's purpose to the producer. Multiple failed attempts at contacting the producer caused the refund to be remitted much later than required by law.

Effect:

The Council is out of compliance with applicable South Dakota law.

Recommendation:

While we recognize the importance of producer awareness and communication, it is important that the time restrictions mandated by State law are followed. Management and the Board should create policies that will acknowledge the legal requirements and abide by time constraints.

Views of Responsible Officials:

We will review the current procedures and make revisions as needed to ensure that we meet the sixty day refund required by SDCL 38-32-20.

AUDITEE PREPARED CORRECTIVE ACTION PLANS

AUDITEE PREPARED CORRECTIVE ACTION PLANS

DEPARTMENT OF REVENUE

Finding No. 2018-001: Inadequate Controls Over Business Tax Revenue Reconciliations

Corrective Action Plan: As discussed last year, the department had experienced turnover in a critical position for an extended period of time. Following filling that critical position, Department of Revenue had also conducted Lean events and identified gaps in our staffing efforts. During the 2018 Legislative Session, we requested and were approved to hire an additional accountant for the Finance team. We have filled that position and have been working diligently to train, document and re-distribute the work load to strengthen the internal controls of the reconciliations. The Legislative Audit team has provided helpful feedback as we are developing policies and procedures.

The Department of Revenue Finance team has identified a primary accountant and a backup for the completion of each reconciliation to ensure proper coverage in the event of absence or vacancy. All variances will be investigated with assistance from accounting staff within the respective division. Completed reconciliations will be approved by the Director of Finance each month, including documentation on reconciling items carrying over. Additionally, an internal audit by independent staff will occur to assure policies and procedures are appropriately followed.

Contact Person: John Hanson, Finance Officer

Anticipated Completion Date: October 1, 2018

Finding No. 2018-002: Inadequate Controls Over Motor Fuel Tax Revenue Reconciliations

Corrective Action Plan: As discussed last year, the department had experienced turnover in a critical position for an extended period of time. Following filling that critical position, DOR had also conducted Lean events and identified gaps in our staffing efforts. During the 2018 Legislative Session, we requested and were approved to hire an additional accountant for the Finance team. We have filled that position and have been working diligently to train, document and re-distribute the work load to strengthen the internal controls of the reconciliations. The Legislative Audit team has provided helpful feedback as we are developing policies and procedures.

The Department of Revenue Finance team has identified a primary accountant and a backup for the completion of each reconciliation to ensure proper coverage in the event of absence or vacancy. All variances will be investigated with assistance from accounting staff within the respective division. Completed reconciliations will be approved by the Director of Finance each month, including documentation on reconciling items carrying over. Additionally, an internal audit by independent staff will occur to assure policies and procedures are appropriately followed.

DEPARTMENT OF REVENUE (Continued)

The refund and payment policy has been updated to include a notification to the originator when a refund or requested payment has been processed. This will help to avoid the oversight that occurred with respect to the refund.

Contact Person: John Hanson, Finance Officer

Anticipated Completion Date: October 1, 2018

<u>Finding No. 2018-003</u>: Inadequate Controls Over Motor Vehicle Titles & Registrations (T&R) Revenue Reconciliations

Corrective Action Plan: As discussed last year, the department had experienced turnover in a critical position for an extended period of time. Following filling that critical position, DOR had also conducted Lean events and identified gaps in our staffing efforts. During the 2018 Legislative Session, we requested and were approved to hire an additional accountant for the Finance team. We have filled that position and have been working diligently to train, document and re-distribute the work load to strengthen the internal controls of the reconciliations. The Legislative Audit team has provided helpful feedback as we are developing policies and procedures.

The DOR Finance team has identified a primary accountant and a back-up for the completion of each reconciliation to ensure proper coverage in the event of absence or vacancy. All variances will be investigated with assistance from accounting staff within the respective division. Completed reconciliations will be approved by the Director of Finance each month, including documentation on reconciling items carrying over. Additionally, an internal audit by independent staff will occur to assure policies and procedures are appropriately followed.

While the variances were not listed on the cover sheet of the reconciliation, they were documented and were actively investigated and resolved. We have also spent a significant amount of time working with Bureau of Information and Telecommunications (BIT) programmers to re-design monthly reports to improve the reconciliation efforts between SDCars and the state accounting system.

Contact Person: John Hanson, Finance Officer

Anticipated Completion Date: October 1, 2018

DEPARTMENT OF SOCIAL SERVICES

Finding No. 2018-004: Inadequate Controls Over the Calculation of Diagnosis Related Group (DRG) Reimbursement Rates

Corrective Action Plan: Recommendation 1: The Department's procedures for calculating the DRG reimbursement rates include detailed steps for completion of the calculations. The Department is in the process of identifying and implementing enhanced procedures and internal controls related to the process of calculation and implementation of DRG reimbursement rates. The enhanced procedures and controls include additional review of detailed DRG calculations as well as quality control review of claims prior to payment to providers. The Department has requested the Bureau of Information and Technology (BIT) to enhance controls related to MMIS (Medicaid Management Information System) programming to ensure DRG calculations and payment accuracy.

The Department is retaining a third-party expert to make recommendations about the process, procedures and controls related to the calculation and implementation of DRG reimbursement rates. The Department is evaluating proposals and anticipate beginning work in state fiscal year 2019.

Recommendation 2: Communication to providers began in mid-2018 and in January 2019 providers were contacted with final overpayment amounts. The final overpayment amounts of \$6,458,476 in total funds (\$3,973,154 in federal funds) differs from the amount above due to claims adjusted after Department of Legislative Audit's review. The Department has begun recovering overpayments and the target date for completing recoveries is June 30, 2019.

Contact Person: Laurie Mikkonen, Chief Financial Officer

Anticipated Completion Date: Recommendation 1: April 1, 2019 Recommendation 2: June 30, 2019

DEPARTMENT OF HEALTH

Finding 2018-005: Inadequate Controls Over Subrecipients

Corrective Action Plan: The Department of Health (DOH) will enhance subrecipient procedures to require submission of expenditure claims prior to initiating payments. Expenditure claim documentation may include invoices, receipts, purchase orders, and/or itemized budget details, and will ensure expenditures meet grant requirements prior to initiating payments.

In addition, all applicable DOH staff will be provided with training specific to the enhanced subrecipient procedures and monitoring process.

Contact Person: Kari Williams, Administrator, Financial Management

Anticipated Completion Date: March 31, 2019 and July 1, 2019

Finding 2018-006: Inadequate Controls Over Allowable Costs

Corrective Action Plan: Department of Health (DOH) will enhance contract requirements to ensure that contracts identify deliverables, payment detail and payment requirements. To ensure adherence to requirements, contract payments will not be issued without submission of claim documentation that reflects deliverables such as invoices, receipts, purchase orders, and/or itemized budget details.

In addition, all applicable DOH staff will be provided with added training regarding contract drafting and the payment invoice review process.

Contact Person: Kari Williams, Administrator, Financial Management

Anticipated Completion Date: March 31, 2019 and July 1, 2019

SOUTH DAKOTA ELLSWORTH DEVELOPMENT AUTHORITY

The following was issued under a separate audit of the South Dakota Ellsworth Development Authority by Ketel Thorstenson, LLP.

Finding No. 2018-007: Audit Adjustment

Corrective Action Plan: The South Dakota Ellsworth Development Authority concurs with the proposed audit adjustment and has posted it to the financial statements. The receivable has been collected from the waste water treatment plant users.

The South Dakota Ellsworth Development Authority allocates all plant operating costs to each customer based on plant usage each month. This allocation included a monthly portion of the insurance costs in question. After discussing the allocation method with the auditors, we agreed to amend the allocation method shifting more insurance costs to the Waste Water Treatment Plant Fund.

Contact Person: Dave Kneafsey, Operations Manager and Scott Landguth, Executive Director

Anticipated Completion Date: November 30, 2018

SOUTH DAKOTA SOYBEAN RESEARCH AND PROMOTIONAL COUNCIL

The following was issued under a separate audit of the South Dakota Soybean Research and Promotional Council by Eide Bailly, LLP.

Finding No. 2018-008: Preparation of Full Disclosure Financial Statements and Restatement

Corrective Action Plan: Since it is not cost effective for an organization of our size to have an individual on staff to prepare audit ready financial statements, we have chosen to hire Eide Bailly, a public accounting firm, to prepare our financial statements as part of the annual audit. We have designated a member of management to review the propriety of the draft financial statements and accompanying notes to the financial statements.

Contact Person: Sarah Tveidt, Interim Executive Director

Anticipated Completion Date: Ongoing

Finding No. 2018-009: Segregation of Duties

Corrective Action Plan: The Board of Directors performed various oversight roles throughout the year due to the personnel turnover, but is aware of the risk relating to the limited staff performing the daily activities.

Contact Person: Sarah Tveidt, Interim Executive Director

Anticipated Completion Date: June 30, 2019

SOUTH DAKOTA CORN UTILIZATION COUNCIL

The following was issued under a separate audit of the South Dakota Corn Utilization Council by Eide Bailly, LLP.

Finding No. 2018-010: Preparation of Financial Statements and Restatement

Corrective Action Plan: Since it is not cost-effective for an organization of our size to have an individual on staff to prepare audit-ready financial statements, we have chosen to hire Eide Bailly, a public accounting firm, to prepare our financial statements as part of the annual audit. Management and the board of directors will review for propriety the draft financial statements and accompanying notes to the financial statements.

Contact Person: Lisa Richardson, Executive Director

Anticipated Completion Date: Ongoing

Finding No. 2018-011: Late payment of Producer Refund

Corrective Action Plan: We will review the current procedures and make revisions as needed to ensure that we meet the sixty-day refund required by SDCL 38-32-20.

Contact Person: Lisa Richardson, Executive Director

Anticipated Completion Date: 2019

AUDITEE PREPARED SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

AUDITEE PREPARED SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

DEPARTMENT OF REVENUE

Finding No. 2017-001: Inadequate Business Tax Internal Controls

Initial Year of Finding: Fiscal Year 2017

Financial Statement and State Compliance Audit Finding

Type of Finding: Material Weakness

Finding Summary: The internal controls in place over the business tax processes were inadequate.

Status: Repeat audit finding issued in Fiscal Year 2018 Single Audit - see Finding No. 2018-001

Finding No. 2017-002: Inadequate Internal Controls Over Cash Receipting

Initial Year of Finding: Fiscal Year 2017

Financial Statement Audit Finding

Type of Finding: Significant Deficiency

Finding Summary: Internal controls over the cash receipting process were inadequate.

Status: Corrective Action Taken

The Department of Revenue's corrective action plan as delineated in the Schedule of Findings and Questioned Costs of the Fiscal Year 2017 Single Audit Report has been followed through on and as a result there was no repeat audit finding in Fiscal Year 2018 Single Audit Report.

Finding No. 2017-003: Lack of Motor Fuel Manual Return Waivers

Initial Year of Finding: Fiscal Year 2017

Financial Statement Audit Finding

Type of Finding: Significant Deficiency and State Noncompliance

Finding Summary: Controls were inadequate to ensure taxpayers who file manual returns have received prior approval in accordance with South Dakota Codified Law.

DEPARTMENT OF REVENUE (Continued)

Status: Corrective Action Taken

The Department of Revenue's corrective action plan as delineated in the Schedule of Findings and Questioned Costs of the Fiscal Year 2017 Single Audit Report has been followed through on and as a result there was no repeat audit finding in Fiscal Year 2018 Single Audit Report.

Finding No. 2017-004: Insufficient Evidence for Approval of Monthly Revenue Corrections

Initial Year of Finding: Fiscal Year 2017

Financial Statement Audit Finding

Type of Finding: Significant Deficiency

Finding Summary: Policies and procedures were not adequate to ensure monthly revenue correction documents contained proper evidence of approval.

Status: Corrective Action Taken

The Department of Revenue's corrective action plan as delineated in the Schedule of Findings and Questioned Costs of the Fiscal Year 2017 Single Audit Report has been followed through on and as a result there was no repeat audit finding in Fiscal Year 2018 Single Audit Report.

Finding No. 2017-005: Inadequate Motor Vehicle Reconciliations

Initial Year of Finding: Fiscal Year 2017

Financial Statement Audit Finding

Type of Finding: Significant Deficiency

Finding Summary: The Department of Revenue's internal controls over the reconciliation and calculation of the distribution of the motor vehicle fees were inadequate.

Status: Repeat audit finding issued in Fiscal Year 2018 Single Audit – see Finding No. 2018-003

DEPARTMENT OF REVENUE (Continued)

Finding No. 2017-006: Inadequate Bank Tax Internal Controls

Initial Year of Finding: Fiscal Year 2017

Financial Statement Audit Finding

Type of Finding: Significant Deficiency

Finding Summary: Controls were inadequate to ensure all financial institutions licensed by the Division of Banking were submitting the required returns and payments to the Department of Revenue and that bank taxes collected and recorded were complete.

Status: Corrective Action Taken

The Department of Revenue's corrective action plan as delineated in the Schedule of Findings and Questioned Costs of the Fiscal Year 2017 Single Audit Report has been followed through on and as a result there was no repeat audit finding in Fiscal Year 2018 Single Audit Report.

DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES

Finding No. 2017-007: Inadequate Monitoring Controls Over Program Income

Initial Year of Finding: Fiscal Year 2017

Federal Compliance Audit Finding

Type of Finding: Significant Deficiency and Noncompliance

Finding Summary: The internal controls in place over monitoring of the Clean Water State Revolving Fund program income were inadequate.

Questioned Costs: \$31,378.05

Management Decision of Federal Awarding Agency: No formal Management Decision has been issued by the awarding agency. The U.S. Environmental Protection Agency (Region 8) conducted an annual review of the South Dakota Clean Water State Revolving Fund for Federal Fiscal Year 2018. The resulting report issued by the Technical & Financial Services Unit Manager for Region 8 noted that a corrective action plan for this finding had been developed and implemented.

DEPARTMENT OF SOCIAL SERVICES

<u>Finding No. 2017-008</u>: Inadequate Controls over Subrecipient Monitoring – Aging Cluster

Initial Year of Finding: Fiscal Year 2017

Federal Compliance Audit Finding

Type of Finding: Significant Deficiency

Finding Summary: The controls in place over subrecipient monitoring within the Aging Cluster failed.

Management Decision of Federal Awarding Agency: The State of South Dakota received written notice from the Department of Health and Human Services on January 2, 2019 indicating that the planned action will satisfy the recommendation(s) for which the Department of Health and Human Services have resolution responsibility.

Status: Corrective Action Taken

DEPARTMENT OF GAME, FISH, AND PARKS

Finding No. 2017-009: Inadequate Controls over Reporting

Initial Year of Finding: Fiscal Year 2016

Federal Compliance Audit Finding

Type of Finding: Significant Deficiency

Finding Summary: The Department of Game Fish and Parks did not have adequate controls in place to ensure compliance with reporting compliance requirements.

Management Decision of Federal Awarding Agency: The US Fish & Wildlife Service reviewed this audit finding with the Department of Game Fish and Parks during a federal audit review between May 2018 and January 2019. Upon federal review, this audit finding was considered corrected and not included as an audit finding within the federal audit.

DEPARTMENT OF GAME, FISH, AND PARKS (Continued)

Finding No. 2017-010: Revenue from hunting and fishing licenses was used for purposes other than for the administration of the State fish and wildlife agency

Initial Year of Finding: Fiscal Year 2016

Federal Compliance Audit Finding

Type of Finding: Noncompliance

- *Finding Summary:* The annual transfer from the Game and Fish fund to the General Fund representing the Department of Game, Fish, and Parks' portion of radio communication costs was improperly calculated using budget rather than actual costs.
- Management Decision of Federal Awarding Agency: The US Fish & Wildlife Service reviewed this audit finding with the Department of Game Fish and Parks during a federal audit review between May 2018 and January 2019. This finding is included as an audit finding within the federal audit.

Status: Partially Corrected

The State continues to believe the cost allocation methods used were appropriate and no funds were diverted. However, amounts transferred from the Game and Fish fund to the General Fund for Fiscal Years 2017 and 2018 radio communication costs have been credited to reflect actual costs. A new allocation method has been implemented for Fiscal Year 2019.

DEPARTMENT OF EDUCATION

Finding No. 2017-011: Lack of Written Policy Over Cash Management

Initial Year of Finding: Fiscal Year 2017

Federal Compliance Audit Finding

Type of Finding: Noncompliance

Finding Summary: The Department of Education does not have formally documented policies over compliance with federal programs to meet cash management requirements.

DEPARTMENT OF EDUCATION

(Continued)

Management Decision of Federal Awarding Agency: Department of Education received a Management Determination letter from the US Department of Education on August 30, 2018 stating they determine the finding to be resolved.

Status: Corrective Action Taken

SOUTH DAKOTA ELLSWORTH DEVELOPMENT AUTHORITY

The following was issued under a separate audit of the Ellsworth Development Authority by Ketel Thorstenson, LLP.

Finding No. 2017-012: Audit Adjustment

Initial Year of Finding: Fiscal Year 2016

Financial Statement Audit Finding

Type of Finding: Material Weakness - Audit Adjustment

Finding Summary: An audit adjustment was made to the financial statements.

Status: Repeat audit finding issued in Fiscal Year 2018 Single Audit - see Finding No. 2018-007

SOUTH DAKOTA SOYBEAN RESEARCH AND PROMOTIONAL COUNCIL

The following was issued under a separate audit of the South Dakota Soybean Research and Promotional Council by Eide Bailly, LLP.

Finding No. 2017-013: Preparation of Full Disclosure Financial Statements and Restatement

Initial Year of Finding: Fiscal Year 2010

Financial Statement Audit Finding

Type of Finding: Material Weakness

Finding Summary: The Council does not have an internal control system designed to provide for the preparation of the financial statements being audited.

Status: Repeat audit finding issued in Fiscal Year 2018 Single Audit – see Finding No. 2018-008

SOUTH DAKOTA CORN UTILIZATION COUNCIL

The following was issued under a separate audit of the South Dakota Corn Utilization Council by Eide Bailly, LLP.

Finding No. 2017-014: Preparation of Financial Statements

Initial Year of Finding: Fiscal Year 2010

Financial Statement Audit Finding

Type of Finding: Material Weakness

Finding Summary: The Council does not have an internal control system designed to provide for the preparation of the financial statements being audited.

Status: Repeat audit finding issued in Fiscal Year 2018 Single Audit – see Finding No. 2018-010

DEPARTMENT OF EDUCATION

Finding No. 2016-004:

Initial Year of Finding: Fiscal Year 2016

- Federal Compliance Audit Finding
- Type of Finding: Material Weakness
- *Finding Summary:* Subrecipient monitoring of payments made to Twenty-First Century Community Learning Centers (21st CCLC) grant subrecipients was inadequate.
- Management Decision of Federal Awarding Agency: No Management Determination letter has been received from the U.S. Department of Education. The U.S. Department of Education requested information from South Dakota Department of Education in May 2017. The requested information was provided in May and June 2017. The last communication received from the U.S. Department of Education on this finding was an email on June 8, 2017 indicating they were set to draft a Management Determination letter.

We are not aware of any further communication on this finding from the US Department of Education. The corrective action has been taken and is still being completed as stated.

DEPARTMENT OF EDUCATION (Continued)

Status: Corrective Action Taken.

The onsite fiscal monitoring visits and the desk reviews referenced in the corrective action plan have been completed. A more formalized risk evaluation based on the pre-award risk assessment tool is used to evaluate new sub grantees. A risk-based analysis is conducted annually on all 21_{st} CCLC sub recipients to determine the level of monitoring necessary.

DEPARTMENT OF SOCIAL SERVICES

Finding No. 2016-005:

Initial Year of Finding: Fiscal Year 2016

Federal Compliance Audit Finding

Type of Finding: Significant Deficiency

Finding Summary: Specialty surgical hospital payment methodology and rates were not clearly stated in the State Plan.

Management Decision of Federal Awarding Agency: A Management Decision has not been issued by the Centers for Medicare and Medicaid Services (CMS).

Status: Corrective Action Taken

Finding No. 2016-006:

Initial Year of Finding: Fiscal Year 2016

Federal Compliance Audit Finding

Type of Finding: Noncompliance

Finding Summary: Target amounts for Medicare Critical Access and Medicaid Access Critical hospitals were not set in accordance with the State Plan.

Management Decision of Federal Awarding Agency: A Management Decision has not been issued by the Centers for Medicare and Medicaid Services (CMS).

DEPARTMENT OF GAME, FISH, AND PARKS

Finding No. 2016-009:

Initial Year of Finding: Fiscal Year 2016

Federal Compliance Audit Finding

Type of Finding: Noncompliance

Finding Summary: Written procedures were not in place for determining the allowability of costs and cash management.

Management Decision of Federal Awarding Agency: This audit finding was reviewed by the US Fish & Wildlife Service. No formal management decision was issued. The South Dakota Department of Game, Fish, and Parks complied with the recommendations of the state finding, but US Fish & Wildlife Service did not consider compliance necessary.

Status: Corrective Action Taken

Finding No. 2016- 010:

Initial Year of Finding: Fiscal Year 2016

Federal Compliance Audit Finding

Type of Finding: Significant Deficiency

Finding Summary: Controls were not adequate to prevent the duplication of cash drawdowns.

Questioned Costs: \$230,748.90

Management Decision of Federal Awarding Agency: The South Dakota Department of Game, Fish, and Parks reviewed audit finding 2016-010 during the Department's federal audit review that took place between May 2018 and January 2019. Upon federal review, state audit finding 2016-010 was considered corrected and not included as an audit finding within the federal audit.
