1 and to take such action as may be warranted.

2 Section 2. That chapter 2-9 be amended by adding thereto a NEW SECTION to read as

3 follows:

All bill drafting requests and research requests are confidential unless or until any bill draft becomes public knowledge by introduction, circulation for sponsorship, media coverage, legislative discussion, or other means authorized by the legislator who made the request. No Legislative Research Council staff person may breach confidentiality concerning any bill drafting request or research request except to the extent authorized to do so by the requesting legislator. However, the Legislative Research Council staff person may advise the requesting legislator that there may be good and sufficient reason why the legislator might wish to waive confidentiality in a particular circumstance and especially in cases where maintenance of strict confidentiality might result in embarrassment to the legislator or the Legislature.

It is not a breach of confidentiality for any Legislative Research Council staff person to discuss a legislator's bill drafting request or research request with another Legislative Research Council staff person if the request is not made known to any person or entity outside of the Legislative Research Council, including any other legislator and any member or officer of the Executive Board of the Legislative Research Council. Any inquiry to a Legislative Research Council staff person concerning a legislator's confidential bill drafting request or research request is not confidential and shall be immediately reported in writing to the legislator.

Any Legislative Research Council staff person who knowingly and willfully breaches a legislator's confidentiality in violation of this section shall be terminated from employment.
