District 28A

Total Population	12,152
Target	11,631
Deviation	4.48%

Native American Population	8,780
Native American Voting Age	66.53%

District 1 in each map is a full Senate District with a population around 25,333, within the deviation range.

Districts 2-5 in each map are split districts that can form a Senate District together, with a population around 12,667 each, within the deviation range.

This percentages are calculated for voting age persons who noted on their census form they were American Indian or American Indian in combination with up to two other races. Including data in our software for American Indians in combination with three or more races is statistically insignificant for South Dakota and increases the likelihood of the software crashing.

District	Total Pop. in 2020	+/- Target
26	23,067	-2,266
27	22,297	-3,036
28	23,891	-1,442
