Proposed Rules Packet

Proposed Rules Change Summary

Public Hearing October 11th

Interim Rules Review Committee Nov. 1st

- Allow an extension to certain establishments that cannot open within one year of receiving a certificate
- Clarifies that an establishment granted an extension must renew the certificate during the extension period, or the certificate will lapse;
- Change requirements for agent identification badges;
- Create an allowance for testing facilities to use alternate methods of transportation when sending samples to the State Public Health Laboratory for confirmatory testing;
- Allow the use of non-odorized flammable gas in the extraction process; and
- Change the requirements for submitting a petition for a debilitating condition to reduce the burden on SD residents and be consistent with legislative changes.
