

2020 South Dakota Legislature

Senate Bill 81

Introduced by: **Senator Partridge**

1 **An Act to establish eligibility criteria for out-of-state health institutions to receive**
 2 **financing from the Health and Education Facilities Authority.**

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF SOUTH DAKOTA:

4 **Section 1.** That § 1-16A-1 be AMENDED:

5 **1-16A-1. Legislative findings and intent.**

6 For the benefit of the people of ~~the State of South Dakota~~ this state and the
 7 improvement of their health, welfare, safety, trade, commerce, industry, economy, and
 8 living conditions, it is essential that the people of this state have access, both
 9 geographically and financially, to adequate and affordable medical care and health
 10 facilities and it is essential that this and future generations of youth be given the fullest
 11 opportunity to learn and to develop their intellectual and mental capacities and it is
 12 essential that health institutions within the state and outside the state, subject to the
 13 limitations set forth in this chapter, and educational institutions within the state be
 14 provided with appropriate additional means to assist in the development and maintenance
 15 of public health and public education, respectively. It is the purpose of this chapter to
 16 provide a measure of assistance and alternative methods to enable health institutions
 17 within the state and outside the state, subject to the limitations set forth in this chapter,
 18 and educational institutions in the state to refund or refinance outstanding indebtedness
 19 incurred for health facilities or educational facilities and to provide additional facilities and
 20 structures which are sorely needed to accomplish the purposes of this chapter, including
 21 securing access by the people of ~~the State of South Dakota~~ this state to adequate and
 22 affordable health care within ~~the State of South Dakota~~ this state and ~~the other states~~
 23 ~~geographically contiguous to the State of South Dakota~~, all to the public benefit and good
 24 as more fully provided herein.

25 It is the intent of the Legislature, by the passage of this chapter, to create a state
 26 authority to lend money to health institutions and educational institutions and to authorize

1 the state authority to acquire, construct, reconstruct, repair, alter, improve, extend, own,
2 lease, and dispose of properties to the end that the state authority may be able to promote
3 the health, welfare, safety, trade, commerce, industry, economy and education and
4 welfare of the people of this state and to vest such state authority with all powers to
5 enable such state authority to accomplish such purpose.

6 It is the further intent of the Legislature to provide a measure of assistance and
7 alternative methods of financing to participating health institutions to aid them in
8 providing needed health facilities that will assure admission and care of high quality and
9 affordability to all who need it and to aid them in dealing with the cash requirements of
10 such participating health institutions, whether resulting from capital expenditures,
11 operating expenditures, delays in the receipt of payments for services, or otherwise.

12 It is the intent of the Legislature to ensure the availability of the most efficient and
13 affordable financing alternatives to health institutions that are located outside ~~the State~~
14 ~~of South Dakota but in a state or states geographically contiguous to the State of South~~
15 ~~Dakota that are~~ this state but owned, operated, leased, or managed by, or otherwise
16 affiliated with, health institutions located within ~~the State of South Dakota~~ this state, to
17 promote the economy of ~~the State of South Dakota~~ this state and the access of the people
18 ~~of the State of South Dakota~~ of this state to adequate and affordable health care within
19 ~~the State of South Dakota~~ this state and ~~its geographically contiguous~~ other states, all for
20 the benefit of the health, welfare, safety, trade, commerce, industry, and economy of the
21 people of ~~the State of South Dakota~~ this state.

22 It is not intended by this chapter that the state authority shall itself be authorized to
23 operate any such health or educational facilities.

24 It is also determined that the availability of improved access to health professions
25 schools will benefit the people of ~~the State of South Dakota~~ this state and improve their
26 health, welfare, and living conditions and that the establishment of a health education
27 loan bond program, with proceeds of bonds to be used for the purchase or making of loans
28 to students, or certain former students, of health professions schools will enhance the
29 availability of improved access to such schools and assist such persons in meeting the
30 expenses incurred in availing themselves of health education opportunities.
