1 A CONCURRENT RESOLUTION, Proposing a moratorium on the importation of live cattle
2 and certain beef products.

3 WHEREAS, Americans enjoy the safest and most abundant food supply in the world, which
4 reflects the tremendous productivity and efficiency of our agricultural economy and our farming
5 and ranching community; and

6 WHEREAS, it is of the utmost importance to the people of the United States to maintain the
7 safety and reliability of our food supply and to protect our food supply from contamination from
8 whatever source; and

9 WHEREAS, in recent years the world's food supply has faced new threats in the form of
10 food-borne illnesses and illness-causing organisms, such as salmonella, E. coli bacteria, and
11 listeria monocytogenes, as well as the emergence of antibiotic-resistant organisms associated
12 with contamination of the food supply; and

13 WHEREAS, another factor that poses a threat to our food supply lies in potential
14 contamination in the huge variety of imported ethnic and exotic fresh and processed foods from

1 all over the world that are now available to Americans; and

2 WHEREAS, the outbreak of mad cow disease in Europe introduces a frightening and lethal
3 condition that could eventually spread to many parts of the world if proper measures are not
4 taken to contain it; and

5 WHEREAS, the agricultural sector of the American economy is capable of providing a safe
6 and sufficient food supply to meet the needs of the American people and to avoid some of the
7 more serious sources of food-borne illnesses:

9 seventh Legislature of the State of South Dakota, the Senate concurring therein, that the South

13 Mouth Disease for the protection of the American consumer.
