25 treatment, for a minor, which includes the prescription or administration of any drug or  
26 hormone prohibited by section 2 of this Act, and if the healthcare professional determines  
27 and documents in the minor's medical record that immediately terminating the minor's  
28 use of the drug or hormone would cause harm to the minor, the healthcare professional  
29 may institute a period during which the minor's use of the drug or hormone is  
30 systematically reduced. That period may not extend beyond December 31, 2023.
