I am in strong opposition to SB 48 my focus will be on section 6. We are asking people to complete an application and mark that they only want a presidential ballot once the election is over we will remove them from the voting rolls.

We currently get absentee applications in Jan that request all ballots be sent, and than receive calls in Nov asking why we sent a ballot.

I believe there should be a two ballot system, this would take care of residency concerns and allow all united states citizens an oppurtunity to vote on federal elections, i don't believe there should be an oppurtunity for an applicant to select if they want a presidential only race and than be removed from the voter rolls this process will have a great number of people removed in error.

The only way to allow people to register in a general delivery address would be to set them up for a federal only ballot.
