Drew:

I want to thank you for taking the time to explain HB 1261 at your cracker barrel the other day. You did clarify some key points and put to rest some concerns that I had concerning land owners rights as well as the authority of the township boards.

While it's true that in my township we currently have no problems with any of the issues you had described, as we look to the future there is no guarantee that future township board members will remain objective and impartial. I do fear that there are a lot of people that would use what little bit of control a township board has to disrupt farming operations.

At a recent township board meeting the other supervisors and I briefly discussed HB1261 and we mutually agreed that this is a necessary step to take.

Jeff Niedert
